*It's time to roll up your sleeve...*

**GIVE BLOOD NOW**

**CALL YOUR RED CROSS TODAY!**  
NATIONAL BLOOD PROGRAM

**Why they did it . . .**

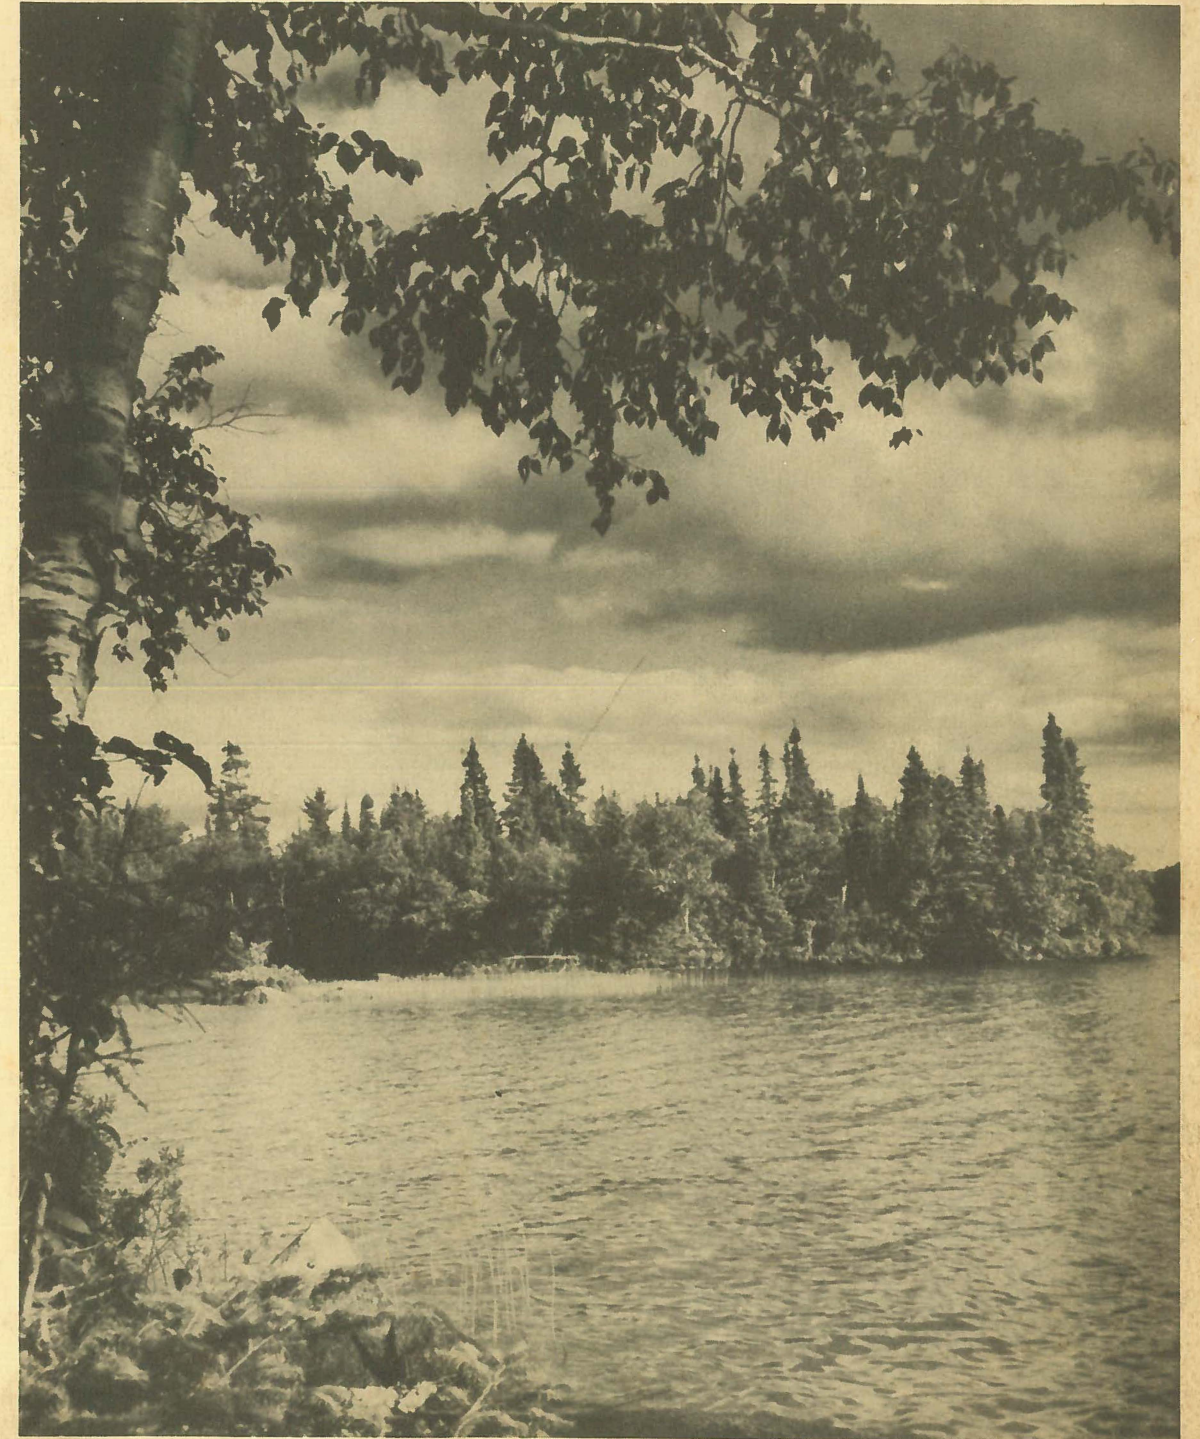

**A KOREAN WAR VET:**  
CLYDE DONNELLY, Marine Sgt., gives his reason: "I'm giving back some that I 'borrowed' after the landing at Inchon. How does it feel? It feels great. Like I'm almost *talking* to those guys still there. That's important—for them to feel you haven't forgotten about them."

**A NURSE'S AIDE:**  
ROSAMOND McMILLAN, a nurse's aide, said: "What does it mean to give blood? It means you have made possible the miracles I see almost every day at the hospital. Patients beyond the help of surgical skill or wonder drugs restored to life! You're serving America by saving American lives!"

**A CIVIL DEFENSE WORKER:**  
JOHN SHARKEY, Civil Defense worker, answered: "I'm on duty one night and I hear the jets coming in. Supposing the planes are *theirs*? Are *they* going to wait until we build up enough blood reserves for the wounded? We've got to be doing it *now*."

## THE COVER

Vacation planning is just around the corner, so we thought this picture taken at Poplar Lake near Grand Marais, Minnesota would put everyone in the mood.

- Photo by Milo Marcis -

## OUTSIDE, HOUSE BEAUTIFUL

Everyone dreams of a lovely setting for his home. Millions of people make the dream come true whether they are rich or poor. The accomplishment is due more to love of beauty and nature, than it is to anything else. It is especially not due to the size of one's pocketbook, because of the wide choice of plant materials.

To achieve a beautiful setting for the home, the landscaping must be planned. When properly planted the home property affords delightful days as flowers come into bloom. It provides seasonal changes of foliage, privacy for the family, and fascinating outdoor living. It provides welcome shade in summer, and, if need be, windbreaking trees or shrubs during the colder months. Deliciously juicy fruits and berries, as well as flowers to decorate the table and home are a foregone conclusion.

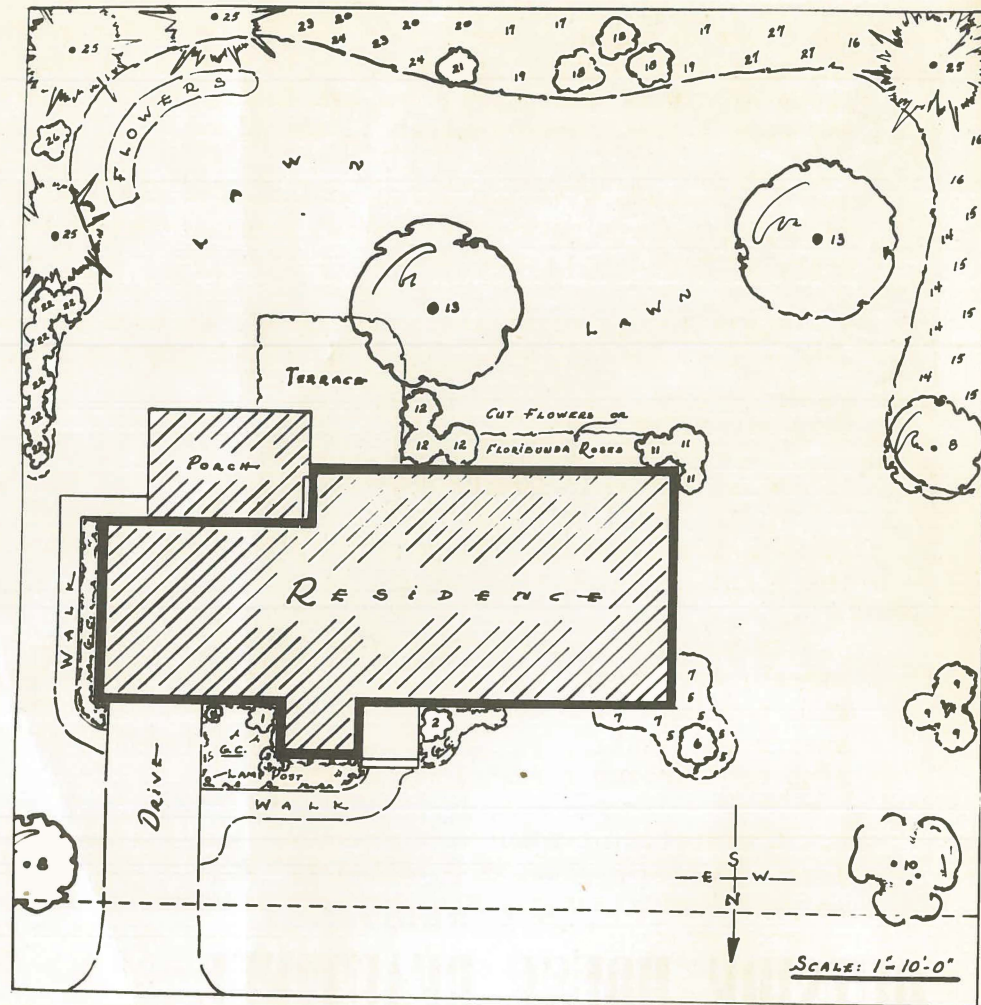

Better living and decidedly more happiness and pride in the home by all the family are achieved when all pitch in and make the property beautiful. Incidentally, in the doing, the property becomes more valuable; real estate people estimate 10 to 15 per cent more valuable.

Here are a few things to consider in planting the property, according to the American Association of Nurserymen:

1. Consider the planting a problem in art, design or layout rather than the purchase of so many plants.
2. Consider your plantings as a permanent investment in beauty and comfort that is worth a lot of thought.
3. Appreciate that there is a lot to know about the subject, that qualified ad-

KEY TO PLAN

vice should be sought and is easily obtainable.

The reduced size of many homes today suggests extension of living to the outdoors. Smaller homes suggests slow-growing plants that are not too large at maturity, especially close to the house. This is of course also true of the one-story or ranch type house.

The best approach to planning is to have a landscape nurseryman lay out a planting plan for your family. In lieu of this, if one made a rough drawing of the grounds and house, with measurements of both house and property, and brought it to a competent nurseryman, the latter could mark on the drawing where you should have certain trees,

shrubs and other plants. Then you can proceed with the planting bit by bit, until you have achieved the whole.

If you wish to do it all yourself, here are a few "don'ts":

1. Don't plant in a monotonous row against the house.
2. Don't plant a shade tree on the east, unless you want shade still further to the east. The hottest rays of the sun are from the west, in the afternoon. Therefore plant your shade tree on the west so you will shade your own property rather than your neighbor's when the tree is full grown. Figure out first exactly where you want shade. Then take a broom and hold

the straw up against the sun in the afternoon in summer to see where it shades the property. If the broom is held high enough, either by tying it on a pole or otherwise, you can learn exactly where the shade will be, were a tree there instead of the broom.

3. Don't start with too large an area and plant it poorly. Small areas well planted are more attractive. You can expand the area from year to year, according to your needs.

4. Don't try to plant the property all at once if doing the whole job yourself. Plant it gradually. You will get new ideas as you go along.

Here are a few "do's":

1. Plant for your family's comfort.
2. Observe properties in your neighborhood that are well planted. Copy the planting ideas that appeal to you.
3. As you plant your property constantly observe its appearance from the street, from both back and front doors, and from the yard itself. Ideas will pop into your head as to where you want a flowering shrub, tree, or evergreen plant. You'll want some coniferous evergreens at least to provide contrasting color all year long.
4. Ordinarily, you'll want privacy. Heavy building and rather small lots have put a premium on privacy. Figure out how you can use a hedge, so your family can use the property or parts of it without being in full view of everybody. Maybe you can spot a few shrubs or trees so they at least will partially screen off the street, or too-close neighbors, as the case may be.
5. Use flowering shrubs and perennials to give delightful views of the property. Borders of roses, or climbing roses alongside a garage, for instance achieve this, as do other perennials like flowering vines. The beauty of roses lies in the fact that they make excellent cut flowers for the home.

6. Have a few fruit trees, or berry plants, if you have the space. Beautiful when flowering, fruit trees, properly sprayed and cared for, can produce some of your table delicacies. Grapes, too, are easy to grow and make charming fences or arbors. Of course, floribunda roses make beautiful flowering fences. With one you get fruit, with the other flowers, so you can take your pick, or have both.

There is real joy in planting your own property. From year to year you watch its beauty grow. Sometimes its somewhat discouraging because you plant it bit by bit, instead of all at once. But then, one day, you realize how beautiful it has become and you receive the full rewards of your year-to-year efforts. You and your whole family love the property more than ever.

## SUGGESTION WINNERS

Suggestion winners Foster Rice of Flange Machine Shop \$10.00 for an improvement to the rollers on the cut-off machine; and Perry Randles, Core Floor, \$25.00 for the idea of a stop-off in C/N standard bell boxes.

Additional suggestion winners Oakley Courtright and Paul Hosfelt. Oakley received checks in the amounts of \$20.00 for an additional deck section on the Circuit Shakeout, and \$5.00 for replacing a Melting Department cast iron grating with steel to save breakage; Paul was awarded \$5.00 for suggesting a new opening on lower Molding Floor storage as an aid in storing bagged materials. The winners represent Maintenance and Industrial Departments respectively.

Members of the Pattern Change Department agreed to quit work a few minutes early and pose for this picture. From the left is Floyd Casner, Charles Ostler, Jim Cox, Herald Thomas, Garland Meddings, and out in front Clyde Barringer.

#### NEW CORE BAKING OVENS

Because of all the inquiries being made concerning the present main attraction on the new Core Floor, we feel that some general information should be listed on the new dielectric core baking ovens.

First, and at the moment, this installation of two units is the largest of its kind in one plant in the country, and is planned to care nicely for our core baking needs.

Each unit has an output of 60 KW, which translated into baking capacity, will equal a maximum output of 3000 pounds of core sand per hour. However, under normal operation that figure will be closer to 2500 pounds per hour dependent upon the shape and weight of cores being baked.

What really happens within these ovens is that the green cores are passed through a high frequency field which produces heat within the cores themselves. This ability to heat the cores throughout permits the use of a relatively short heating cycle as compared to the method formerly applied in our old stoker-fed ovens.

A slat conveyor traveling from 6" to 40" per minute carries the cores through each furnace which is 34' long by 10' wide and eight feet high. The actual time of baking a core from the time it is placed on the conveyor until removed at the dis-

charge end will vary from 20 to 40 minutes.

Another feature of the new furnaces and unlike our former process, is the fact that a warm-up cycle of only one minute is necessary as compared to from one to two hours formerly.

In all, the improvement in conditions for baking cores and the elimination of smoke, gas and heat, will add greatly to the availability of cores and better working conditions.

Installation of these units is being effected by our Maintenance Department under the direction of John H. Garger, sales representative, and Sid Smith, field engineer, of the Thermex Division of the Gerdler Corporation, Louisville, Kentucky.

\* \* \*

Deepest sympathy is written in this notice on the death of Mrs. Roy Sees, Sr., aged 61, at her home in West Lafayette, Ohio, March 30, following a short illness.

Mrs. Sees was a half-sister of our Office Manager, Clyd Phillips.

- - -

Announcement of the death of Robert L. Holehouse, 70, at his home in Milwaukee, Wisconsin on March 7, is made with regret.

Not to be overlooked in Pattern representation in this issue of the News are members of the Pattern Shop. From the left in the back are Clifford Willard, Marion Nelson, Lorell Starts and LaVern Strohacker. In the front are Kenneth Pepper, Klines Phillips, James Roadruck and Bob Norris. Doy Lipps was absent at the time this photograph was made.

Mr. Holehouse was the father of Bob Holehouse of our Engineering Department.

Mrs. Robert L. Holehouse is now residing with her son and his family at 1022 Adams Street.

- - -

Sympathy is expressed to Doy Lipps of the Pattern Shop, and Charles Lipps, retired from the Pattern Change Department, in the death of their mother and wife on March 16.

Mrs. Lipps was deceased following a long illness. Condolences are sent to all members of the family.

\* \* \*

#### MOVING NOTES

Mr. and Mrs. LaVern Kent from Cambridge Road to R.F.D. #3, Canal Lewisville.

Mr. and Mrs. Dennis Mills, Jr. from Chestnut Street to 943 E. Main Street.

\* \* \*

#### ANNIVERSARY

During the evening of March 25, guests were present in the home of Mr. and Mrs. John

Fouch, Sr., in celebration of their thirty-eighth wedding anniversary.

Mr. and Mrs. Fouch are the parents of six sons and one daughter. Two sons, John, Jr. and James Arthur are employed in the Shipping Yard and Pipe Foundry Finish, respectively.

John Sr., a long-time employee of the Loading Department, advised that he and Mrs. Fouch have planned to celebrate their anniversary with a visit in the near future to Eustis, Virginia, where their youngest son is serving in the Armed Forces.

\* \* \*

#### WEDDING BELLS

Wednesday evening, March 4, was the date of marriage for Miss Mary Helen Fitzpatrick, daughter of Mr. and Mrs. H. Albert Fitzpatrick, and Pvt. Donald Jarvis, son of Mr. and Mrs. Leonard Jarvis.

Mary Helen is the receptionist and PRX operator in our Main Office.

Albert Fitzpatrick is employed in Maintenance.

Best of luck, and all good wishes Mary Helen and Donald.

\* \* \*

Ripley's Red Rusty

LOST TIME ACCIDENT

It is not the practice of this sheet to play upon the misfortune concerning any lost time accident, however in the case of Mgr. T. A. Ripley's Red Rusty we feel that serious consideration should be given and extreme caution noted.

We are satisfied that everyone is conscious of the place in our homes and in the lives of our children and grandchildren occupied by a dog.

To say that it is a matter of training would not always be the correct answer because here is an example of a member of the Boss' family who has suffered a lost-time accident.

Being a worker for Safety and venturing a little piece of advice in this case, let it be remembered that the hydrants (with apologies to Iowa and Eddy) are not always greener on the other side of the street, and the Saturday Evening Post is not always the Saturday Evening Post.

RECENTLY ARRIVED LITTLE HELPERS

Paula Kay to Mr. and Mrs. Paul Carpenter, Core Floor, March 14, at Coshocton Memorial Hospital.

Robert Joseph to Mr. and Mrs. Carl Long, Maintenance Department, March 16, at Coshocton Memorial Hospital.

Mark Allen, to Mr. and Mrs. Richard Bowers, March 23, at the Logan Hospital, Logan. The proud grandparents are Mr. and Mrs. Herald Thomas, Pattern Change Department.

James Vernon to Mr. and Mrs. Charles LaFever, March 26, at Coshocton Memorial Hospital. Also, proud grandparents are Mr. and Mrs. Carl Laflin, Sr., Pipe Foundry Finish.

Jacqueline Ranae to Mr. and Mrs. Gerald Lillibridge, deLavaud Maintenance, March 11, at the Coshocton Hospital.

\* \* \*

HOSPITAL NOTES

Mrs. John Harsh, surgery, March 10. John is employed in the Flange Machine Shop.

Mrs. Glenn Murray, surgery, March 10. Glenn works in the Machine Shop, and son Gerald is on leave from the Machine Shop serving in the Air Corps.

William McCoy of the Molding Floor, surgery, March 17, Coshocton Memorial Hospital.

Mrs. John Aron, surgery, March 18. John pours iron in the Pipe Foundry.

Margo, daughter of Mr. and Mrs. James A. Fouch, tonsillectomy, March 17. James is employed in the Pipe Foundry Finish.

Alphis Murray, Jr., son of Mr. and Mrs. Alphis Murray, Sr., Molding Floor Circuit, observation at Coshocton Hospital, April 1.

Jimmie Callentine, son of Mr. and Mrs. Clarence Callentine, Jr., Shipping, surgery March 30 at Coshocton Memorial Hospital.

Charles Cross of Industrial Department, surgery, at Coshocton Memorial Hospital April 6.

Robert Curtis West, 14, son of Mr. and Mrs. William West, Industrial Department, is recovering at the home of his parents following a fracture of the left leg in an acci-

dent on the school grounds.

- - -

Convalescing

L. M. Anderson of the Main Office. Fern Payne of the Stenographic Department is back to work and smiling. C. B. McComber, retired, getting along nicely. Mrs. Walter Glazier recovering from a fracture -- Walter is an employee of Core Floor Main.

\* \* \*

Outside the plant and of community interest, was an outing for Cub Scouts on March 21, planned and assisted by Mr. and Mrs. Verle Rucker, Engineering Department.

The care and guidance of twenty-four youngsters on a visit to Columbus to tour a television station is quite a project, and we are all appreciative of people who will give of their time and means in such work.

Verle is a troop committeeman in the Cub Scouts, and Mrs. Rucker is a Den Mother. The duties in Scout work are numerous and trying and we compliment all who are engaged in helping to make better American citizens.

Included in their visit to the TV station was an invitation to view at ringside the afternoon wrestling matches and we mention the following incident only at the demand of Clow-Coshocton viewers on that Saturday afternoon: Unfortunately, Verle was seated directly in front of a Ringside Beulah (a female who attempts to attract the TV camera by plummeting upon the head and shoulders of the person in front of her) and but for this experience with hands, pocketbook and umbrella, the excursion would have been a complete success.

\* \* \*

A little old lady handed the postoffice clerk a package containing a Bible. "Anything breakable in this?" he asked. "Nothing but the Ten Commandments," the little lady replied.

This picture is to prove that Plant Manager Tom Ripley does really get up in the air now and then.

Foremen and Supervisors engaging in an experience of how it feels to live in darkness. Seated from the left are Archie Jennings, Boots Bolen, Gus Kratz, Wilbur Pierce and LaVern Gray. Standing, Herald Thomas, Eugene Bordenkircher, Jim Clow, Jim Fallon and Joe Williams.

# of National Interest

by Charles Hooper

TWENTY-TWO YEARS  
Without a Lost Time Accident

The Electrical Department crew, left to right: Dwight Little, T. J. Williams, James Layton, Joe Shores, Ewen Self, Carl Postlethwaite, Ed Barber, John Hubbard, and Robert Richardson.

April 15 has a very special meaning for the members of the Electrical Department, who on that date completed twenty-two years without a lost-time accident. We have tried to determine exactly what happened on April 14, 1931, but our information on that particular accident is scarce. At any rate, on April 15, 1931, the members of the Electrical Department started their new safety record. Each man is to be congratulated for the excellent record that he has helped to establish. We wish them continued success in their safety work. Congratulations to Carl Postlethwaite, Jim Layton, Ed Barber, R. G. Richardson, Joe Shores, John Hubbard, Ewen Self, and T. J. Williams for helping make such a record a reality!

## SPORTS

Sports activities are certainly "the news" this month at National. With only one more night of bowling to go it looks as though Gene Woolwine, Charlie Abney, Gene Foote, Henry Goodwin and Don Parks will make the trip to New York. We wish them every success and hope they are able to bring that trophy to National.

Gene Foote, Pride Jones, and Earl Alley have announced plans for the Spring Golf Tournament. The tournament will be held

April 18, at the Roebuck Golf Course. Instead of using the handicap basis for the tournament this year, the Committee is considering the use of a point system that would work as follows:

Bogey ( 1 over par)	-	1 point
Par	-	2 points
Birdie (1 under par)	-	4 points
Eagle (2 under par)	-	8 points

Approximately thirty golfers played in the tournament. They are: George Akeroyd, Aubrey Foote, H. Parker, Clyde Hooper,

## Mike Mingledorff Retires

Ernest Keith presents Mike Mingledorff with a gift certificate from his friends at National.

Mike Mingledorff came to work for National on January 9, 1925. He started work in the Machine Shop as a machinist and worked in that same department until his retirement on April 1.

March 31 had a dual significance for Mike. Not only was it his last day of work, but it was also his birthday. Every person who saw Mike that day received a coke from him to help celebrate his birthday and retirement.

We know that Mike will be busy with his favorite pastime - photography. We extend to him best wishes for many years of happiness.

\* \* \*

George Little, Arthur Rice, Jim Layton, Gene Foote, Tutt Thomason, Pride Jones, Con Coupland, Warren Whitney, Don Parks, Bill Waine, Clarence Forte, Merle Finnell, Erskine Maddox, Ozzie Moncrief, Maurice Neptune, Ed Hughes, Nelson Smith, Charlie Salvage, Gene Love, Scotty Kelley, and Neal Maxwell.

play begins April 20th.

Softball season is under way. National has a softball team entered in the Tarrant Industrial Softball League. Euel Jones is manager of the team. Members of the team are: Lecile Self, Frank Rooker, Lloyd Bryant, Tom Reese, George Estes, Claude Beasley, Robert Jones, Herbert Hamah, Jim Layton, Scotty Kelley, Billy Jo Smith, Neal Maxwell, and Ray Taylor. The team lost their first practice game with Lone Star Cement Company - 3-0. Regular season

National's Colored baseball team will try again to recapture the Industrial Colored Y.M.C.A. cup this year. Robert Williams is the new manager. The team has won one game and lost one in the regular league. John Fisher, Cornelius Harris, Sam Brewster, Fayt Jones, Jr., Lester Brown, Willie Bedell, George Vincent, and Willie Caffey "starred" in a recent game. Here is the schedule for the first half of the season:

April 18	Connor Steel at National
April 25	National at Acipco
May 2	National at Hightower
May 9	Stockham at National
May 16	24th Street at National
May 23	National at Connor Steel
May 30	Connor Steel at Stockham

Jody Shores (left) and Mike Brand (right) are two cowboys who recently paid the Personnel Office a visit. Jody is the son of Mr. and Mrs. Joe Shores, and Mike is the son of Mr. and Mrs. J. B. Brand, Jr.

June 7 Hightower at National  
Best of luck this season!

\* \* \*

NEWS BITS

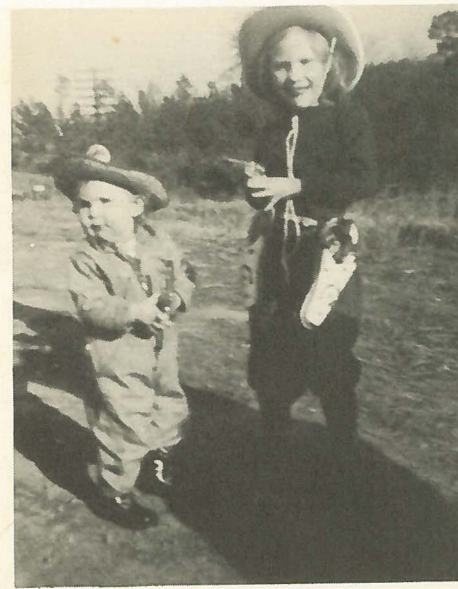

Welcome to National.....John Thomason, co-op student, who will work in the Lab.....Houston Jones, co-op student, who will work in the Engineering Department.....Irvin Godwin, who will work in the Engineering Department... ..and Martha Hagler, who will work on the switchboard.....We wish Mary Lee Baker happiness and good fortune in the future.....Euel Chambers is at Carraway-Methodist Hospital for a hernia operation.....J. H. Cobb has returned home from Carraway-Methodist Hospital and is doing very well.

.....Wallace Pyle is entitled to the title "fisherman of the week". On a recent fishing trip Wallace, his son, and daughter-in-law went to South Saudi near Gunterville and caught sixty fish that weighed over one hundred pounds.

\* \* \*

"I'm not quite sure—but I think it's called 'The Taxpayer'."

1.

1. Betty Lou Jackson, 5½ years old, and Alma Jean Jackson, 19 months old, seem to be thoroughly enjoying their game of cowboys. They are the daughters of Mr. and Mrs. John L. Jackson.

2. Curtis Liles presents James Taylor with a \$15.00 check for being a Suggestion Winner. Curtis Liles is the new secretary for the Suggestion Committee, so if you have any good suggestions, be sure to turn them in to Curtis.

3. Robert Eades, watchman, was a willing subject for Scotty Kelley's camera.

2.

3.

Members of the Electrical Department were invited to the Postlethwaite home for a surprise birthday party for Carl Postlethwaite on March 18th. Pictured (right) are some of the guests who attended the celebration.

W. E. Clow, Jr. addresses a group of employees in the deLavaud Foundry.

Roy Spruce has been with the Company since 1923. He has worked continuously in the deLavaud Finishing Department since 1928.

# Newcomerstown NOTES

by Harold Schlarb

William Rothenstine, Gasteam, receives his 10 year pin from Superintendent E. L. White.

Emery Clum, Cores, is congratulated by Foreman, Francis Wise, upon completion of 10 years service.

## TRANSFERS

George Smalley and Oscar Allen were transferred from the Maintenance Department to the Foundry. George is working on the second shift shakeout and Oscar is doing general foundry labor.

Cecil Gardner transferred from Foundry to the Gasteam Department. Cecil is painting radiators.

Jack King was transferred from the Foundry Finish Department to the Foundry to make way for Theodore "Ted" Smith, our latest returned service man. Ted said it was time for him to go back to work. All good things must come to an end, Ted.

\* \* \*

Needed - a soap powder that will prevent a telephone ring in the bathtub.

This group of Gnadenhutten, Ohio High School juniors and seniors toured our plant recently, this was their first visit to a foundry and they were really interested because it was so much different from any other factory operation that they had seen.

CONGRATULATIONS GANG

The Sprinkler System which provides fire protection for the Newcomerstown Plant has been completed. To the supervisors Elmer Wise, Maintenance, Willard Chaney, Yard, Charlie Crater, Chief Engineer, Chet Leonhard, Crew Leader, and to their men Arthur Rothenstein, A. P. Yanai, George Smalley, Glenn Shaw, Cecil Gardner, Ellis Miller and Oscar Allen we offer our congratulations on a job well done. This was a difficult project to accomplish. Many heavy pieces of pipe had to be hung fairly high and the hazards encountered were many. We think this statement from a letter by State Fire Marshal, Charles R. Scott, to Superintendent E. L. White sums up the situation pretty well: "I was much impressed by the effective sprinkler system which had been installed for the protection and preservation of properties and with the workmanlike manner in which it had been installed. To my mind, your plant is well protected against fire, and you are to be commended for the forward-looking steps you have taken in providing up-to-date fire protection for the properties under your control."

\* \* \*

SUGGESTION AWARDS

William Rothenstine, Gasteam Department, was awarded \$7.50 for his idea of a jig for drilling vent fittings which are used on our vented radiators.

Clarence Cunningham, Pattern Maker, collected \$5.00 for his suggestion of putting a steel pad over the bolts on a pattern plate to eliminate sore fingers, caused when jolt squeeze operators are lifting patterns.

\* \* \*

TELEVISION MAKES HIT

Since the recent installation of a community TV antennae and cable system which makes it possible for Newcomerstown residents to enjoy good television reception, several new TV sets have been purchased by Clow employees. Bitten by the TV bug recently were Francis "Duby" Cunningham, William Welsch, Johnnie Williams, Tom Coker, Otis Dansby, Charlie Chandler, Jasper McCall, Elton Collins, Arthur Meeks and Richard Daugherty. While Duby Cunningham fell asleep watching his, Jasper McCall and Allie Ridley stayed up all night and watched Jasper's the first night that it was installed.

\* \* \*

BUNDLES OF JOY

On Saturday March 28th at 1:15 P.M. a son, Ronald Dale, was born to Mr. and Mrs. Jack Danley at the St. Francis Hospital in Cambridge. He weighed in at 7 lb. 6 oz. and Jack reports that both wife and baby are doing fine. The Danleys also have two other children: a son, Allan, and a daughter, Shirley. Jack works in the

Harry Eckelberry, left, and Melvin Watson set the core in a valve box mold. Harry is a 30 year man and Melvin just received his 10 year pin.

Machine Shop.

Lynnsaye Shaw, daughter of Harold Shaw, Sand Laboratory, now has a new baby brother to play with. Stephen Paul was born Friday, March 20th, at 7:00 P.M. at Coshocton Memorial Hospital and weighed 8 lbs. 7 oz. Harold reports everybody is doing fine, including himself.

\* \* \*

SICK NOTES

William Womer is recuperating at his home after undergoing surgery at White Cross Hospital, Columbus. His condition is improved.

We are glad to see Harold Watson, Radiator Molder, and George Baughms, Sand Mixer, back on the job. Harold and George both were off for some time with pneumonia.

Anthony Grewell was absent from work for 16 days, 12 of which were spent in the University Hospital, Columbus, where he was treated for an infection of the eye. After undergoing several allergy tests and receiving 180 shots Anthony's eye trouble was diagnosed as TB of the eye. The doctors described the condition as an infection of the optic nerve caused by some previous bodily infection in past years. Although Anthony is working and his eye is returning to near normal he must still make weekly trips to Columbus for treatment.

George Day, Planner Operator, has been unable to work for several weeks because of arthritis. George was in to see us recently and reported that he was feeling better, but that his hands were still painfully swollen. We were glad to see him and hope that he will be back with us soon.

Harold Van Dusen who underwent the first of a series of skin grafting operations at White Cross Hospital, Columbus, has returned to his home on Barnett Avenue. Harold said that this operation was rough. We can well believe that it was, and we hope that it will all be over soon.

\* \* \*

APRIL FOOL

Lester Gadd, Yard Department, played several April Fool gags on his fellow workers, but in the end it was Lester who had the best one pulled on him. About quitting time yard foreman, Willard Chaney, told Lester that his wife had called the plant and that he was supposed to call her before he came home. Lester called home and the way Peggy answered him was enough to tell Lester that he had been April Fooled.

\* \* \*

"SPRING FEVER"

Yes, it's this time of year when the old

John Hall, Unit Heater Assembly, drilling a unit heater casting.

Jesse Wiandt, Gasteam Assembly, using the new Sand-O-Flex polishing wheel which was purchased to smooth the tops of our radiators before painting. This tool does a better job than filing and is less fatiguing to the operator.

saying, "people are funnier than monkeys", might seem quite true. Charlie Starker bought his new auto license plate long before the March 31st dead line, but still drove to work on April 3rd with his old plates on. Someone noticed them before the police did, told Charlie and he wasn't long in making the change.....The date of expiration on Esta Knowles' driver's license slipped her mind beyond the 90 day period and Esta was obliged to take the test over again.....A year ago your reporter's memory was better than Esta's - he remembered on the 90th day.....Tom Coker's phone rang in the middle of the night and he thought it was the alarm, so he got up and started to work. Seeing that his neighbor, Charlie Chandler, who works with him was not up he proceeded to get Charlie out of bed. When they got to the shop the time clock said 3:00 A.M. Charlie and Tommie were sleeping on benches in the watchman's office when the

rest of the molders came in at 6:00 A.M. To top this day off Tom was pouring his last mold when his hat fell off into his ladle and burned.....Booker Russell, Clark Truck Operator on the night shake-out noticed the gas gauge reading low, so he went to the gas pump. He got off his truck and pumped some gas then got back on the truck and returned to the Foundry without putting in any gas. You guessed it, Booker ran out of gas.....Walter Albright, salesman, thought Friday April 10th was Saturday so he got up, put on his old clothes and was going to start working in the yard. After his wife showed him the date on the morning paper he was satisfied that it was only Friday.

SPORTS

A little league has been formed in New-

comerstown known as the "Cy Young Little League". There are six teams of which one will be sponsored by the local Clow plant.

Harold "Hats" Meeks rolled the bowling oddity of the season when he bowled four consecutive three game series of 515. His scores were bowled in three different leagues on the Newcomerstown and Coshocton alleys.

Harold Schlarb's Wildcats won the second half championship by six games. They will bowl Lou Gracik's Buckeyes for the league championship with the winner representing Newcomerstown in the Inter-Plant Tournament. Members of the Wildcats are H. Schlarb, Captain 180, J. Jurin 164, R. Bonnell 150, C. Wise 147 and L. Hart 139.

SERVICE NOTE

We do not have any information on our own service men but we do have a report on Richard Robinson, son of Harry Robinson, Radiator Molder. Richard has received a medical discharge and has returned to his home. He served in the Marine Corps for 18 months, enlisting October 1st, 1951. He received shrapnel wounds in his right arm April 26th, 1952 and arrived in the States from Korea in July 1952. He has been in the hospital in Philadelphia, Pennsylvania, since that time.

NEWS B-R-I-E-F-S

Gene Whyde, Assistant Storekeeper, has traded his car for a pick-up truck. We understand Gene is going to do a little painting in the evenings this summer....Joe Chaney and his boy Tip were in a four car accident in which Joe's car was pretty well demolished. We are glad that they were not seriously hurt - just a few cuts and bruises.....Speaking about cars, it's a new Chevrolet for Clark Vanvoorhis.....Olden Passmore is a big man and Richard Daugherty is quite small, but we

doubt if this had anything to do with Olden getting a Cadillac and Dick getting a Henry J.....Johnnie Williams, A. P. Yanai, Lou Gracik and Harold Schlarb represented Newcomerstown at the recent golf meeting held at the Coshocton Office.....Robert Bonnell, Storekeeper, was elected treasurer of the Newcomerstown Moose Lodge and Superintendent E. L. White was awarded a 25 year pin by the Masonic Lodge.....Mrs. Olden Passmore was a patient at Grant Hospital in Columbus a few days for observation and treatment....Mrs. Charles Yingling underwent a thyroid operation at White Cross Hospital, Columbus. Chuck reports that his wife is coming along fine.....Adam Timmerman bought a Cadillac and Arthur "Bus" Meeks changed from a Plymouth to a Buick.

A smile is a light in the window of the face which shows that the heart is at home.

# IOWA items

by Fred Gegner

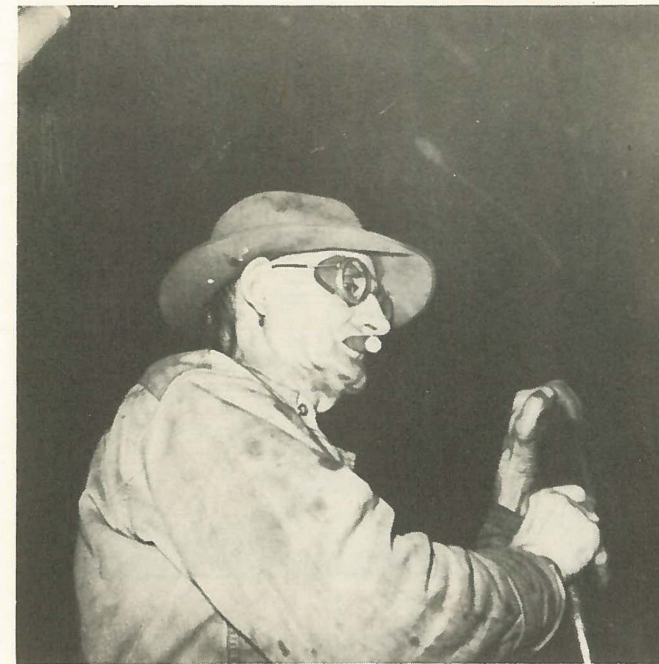

Mr. and Mrs. Al Read show great pleasure as they look at their first retirement check.

The first person from Iowa to retire under the new retirement plan was Al Read. Al was born near Oleblo, Sweden on July 12, 1877. In the year 1904 he came to the United States and settled in Troy, New York. For some time, Al worked as a watchmaker. However, he soon found the opportunity for greater income at the Rensselaer Valve Company. This was the foundation for his long service in the valve and hydrant industry. In the early 1900's, the gate rings were riveted to the gates. Al tells of seven or eight men sitting around a large steel table riveting gates. He smiled as he told us that not one of them could speak English.

In 1910, Al came to Iowa to work. He has used his mechanical knowledge in all parts of the machine shop. He holds the honor of being present at the installation of the first Iowa hydrant.

Al retired on January 1, 1953. He likes retirement and his greatest worry, that time would pass too slowly, has been disapproved. The days just fly away. Al has a complete workshop at home and spends many enjoyable hours in it. He has many small projects planned for this summer.

We almost always associate some item with particular persons. Such is the case with "Ves" Earl and his cigar. Ves has this one smoked short but it is still suffice while he "pours off".

## SICK CALL

This month has presented us with the worst spring weather for many years. The changing temperatures have caused many illnesses. Our sick list includes the following: Harry Brock, Loren Lynville, Jim Burger, Olaf Maughan and George Katko.

\* \* \*

## CORN STATE CHATTER

Now that spring is here, many plans are being laid for a great season for the Little League. This is a very worthy cause that makes good environment possible for boys during the summer.

The Little League is a National Baseball League for boys from eight through twelve years of age. The teams are sponsored by local businesses, which supply uniforms and equipment.

There is a great amount of spirit at the games; however, safety is always stressed by the officials. Such sport makes summer very enjoyable for small boys.

\* \* \*

## PARKING LOT VIEWS

Charles Lamphier has forsaken his Chevrolet for a light green Studebaker.

Ralph Reese and Bob DeGues are both sporting Kaisers.

Bill Warner has a bright brown Pontiac.

\* \* \*

## NEW EMPLOYEES

We welcome Gerald Sullivan and Ralph Lam-birth to the Iowa Valve family. Both men are employed on the shakeout crew.

\* \* \*

## VISITORS

We were pleased to have a visit from our President, J. Beach Clow this month.

\* \* \*

## BOWLING

Our bowling season is nearing the end and we seem to have greater rivalry than in former years for those top positions. A top spot is the ticket to the company

Two views of our Iowa valves, with the new "O"-ring packing, ready for shipment. There has been a great amount of work necessary to develop this design and we think it adds to the appearance of the valve.

bowling tournament. The following keglers are having a close race:

Paul Evans	175
Emil Berglund	159
Farrell Scott	155
Jim Beadle	145
Bill Wilson	144
Fred Darland	140
Paul Vance	134
Charles Lanphier	140

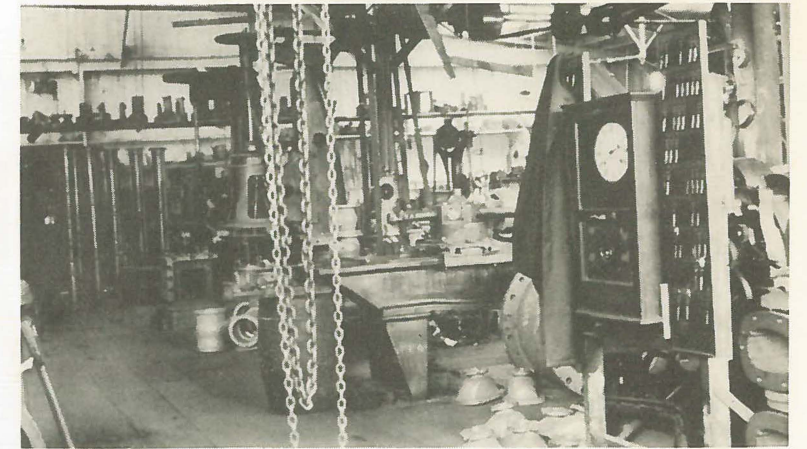

The Iowa Valve bowling team that entered the State Tournament was the best team from Oskaloosa. They collected 2484 pins and may be high enough to finish in the money.

\* \* \*

Here is a young man who should be the envy of many boys. He is Michael Stockhill, grandson of John Poe, night watchman. Michael lives in Whitefish, Montana where his father operates an airport. Mike is only eight years old, but we're sure he has visions of flying soon.

We found a large manilla folder of snapshots during the recent remodeling of the Standards Office. This old print of the machine shop will probably be familiar to some of the old timers. Archie Terrell, night shift machine operator, says it was taken in 1921 or 1922.

Another photo we found during the remodeling. It was taken before the foundry was rebuilt. The photo shows the "back bay" crew pouring a thirty inch heavy valve. From left to right: Harry Anderson, Harry Eberline, Milton Morrison, Bill Vemehier, Lee Murphy, Earl "Bud" Eberline, Bill Burnham and Max Fierz.

# eddy

## EDITION

by Walt Sorensen

THE CHAMPS OF EDDY VALVE Left to right: Al Cassella, Bill LaBoissiere, Duke Duclos, Capt. Ralph Cuomo, Stan Lewandusky.

On Wednesday April 8th we saw the close of another Eddy bowling season. The champs are the Gates who nosed out the Hydrants by one game on the final night of bowling. We give credit to the Hydrants who made a great stretch drive when they came from 14 games behind at the halfway point to narrow the gap on the champions. The final standings are as follows:

Team	Won
Gates	43½
Hydrants	42½
Covers	36
Bodies	34

Name	High Game	High Series	Season Average
Wm. Guiltman	233	561	171
C. Bryk	223	598	169

R. Cuomo	208	534	162
J. Vertefeuille	231	547	151
S. Thompson	202	513	151
D. Burnett	204	499	149
F. Desautel	220	575	147
O. Cooper	196	543	147
J. Francesconi	202	506	146
R. Page	188	510	145
S. Lewandusky	205	520	143
T. Tremblay	212	512	143
W. LaBoissiere	209	519	142
J. Duclos	235	532	140
R. Nielsen	207	561	139
A. Cassella	199	490	138
A. Plouffe	187	502	135
P. Roe, Jr.	183	450	131
E. Lemrow	173	468	131
M. Suchecki	187	461	121

\* \* \*

### NEW EMPLOYEES

Since our last publication four new employees have joined the Eddy production line. We would like to welcome each of you to our "family" and hope you have a long, prosperous and enjoyable career here.

Employed with us are:

Hormidas Lussier - laborer - Machine Shop  
 Raymond Williams - laborer - Brass Foundry  
 Zygmunt Darwak - laborer - Machine Shop  
 Ovlia Provencher - laborer - Iron Foundry

\* \* \*

### VISITORS

Beach Clow and Harry Bower arrived at Eddy on March 17th and made a tour of the plant, observing all the new improvements that are well under way in the office, machine shop and foundry. Pete Clow spent April 10th at Eddy and like Beach and Harry he too made a tour of the plant.

\* \* \*

### SICK CALL

Our sick list contains the names of Frank DeTroglia, Pat Berney and Ken Tomaro. These men have been out for quite awhile and from the latest reports they are well on their way to recovery.

\* \* \*

### BIRTHS

William Geleta, Jr. arrived at the Cohoes Hospital on March 14, weighing 8 pounds. Proud papa, Bill is a laborer in the Iron Foundry.

Gary William LaBoissiere, brother of Linda, age 3 was born at the Cohoes Hospital, March 26, weighing 7 lbs. 4 oz. Daddy Bill works in the Brass Foundry.

There has been a new addition to the Ralph Lombardo family. This time it was a girl. Ralph is a member of our Maintenance Gang.

In all three incidents it was reported that the husbands came through in fine style.

Congratulations to all.

\* \* \*

We offer our best wishes to the following people on their birthdays.

Duke Duclos - Brass Machine Shop - May 18  
 Clarence Goyette - Shakeout Gang - May 18  
 Ben Maron - Pattern Shop Foreman - May 21  
 Bill Flaherty - Iron Machine Shop - May 29  
 Jr. Pete Roe - Iron Machine Shop - June 2  
 Aston Allen - Watchman - June 8  
 Free Benjamin - Brass Machine Shop Foreman - June 9  
 Pat O'Rourke - Iron Foundry - June 15  
 Louie Naples - Shakeout Gang - June 16

\* \* \*

JEFF KEATE

Around the Eddy we are used to seeing the Brass Foundry gang looking like this, but just to show you that good, honest dirt washes off take a look at the same men across page. These men in the Brass Foundry pose with Charlie Bryant before entertaining him in the evening at Mickey-Joe's Restaurant.

SHOTS  
OF  
CHARLIE BRYANT'S  
RETIREMENT

George Macdonald, General Manager, and Charlie Bryant exchange hand shakes and friendly smiles on Charlie's last day.

Charlie Wright, plant superintendent, left, congratulates Charlie Bryant on retirement day.

This group of handsome looking men are the ones that keep the brass rolling out of the foundry, they are left to right: William LaBoissiere, James McDermott, Ed Jablonowski, Charlie Bryk, Charlie Bryant, Norman Coones, Charlie Opitz and Maynard Goyer.

Surprise Party

The men in the Brass Foundry held a surprise party at Mickey-Joe's restaurant for retired Charlie Bryant. After a steak dinner Charlie Bryk (right) presented Charlie Bryant with a combination lamp, clock and smoking stand on behalf of the latter's co-workers.

Howard Enides, left, Molders representative and Henry Dushane, Laborer's representative present Charlie Bryant with a gift from each local.

## Random Shots

Since August 1945 Dick Page has worked in our Maintenance Department. Dick is married and has two daughters. For the last four years Dick has been a committeeman for the Machine Shop Union.

Stan Lewandusky has been with Eddy since 1937 as a machine operator in the Iron Machine Shop. At present Stan rings our 6" and 8" valves. Stan is married and has a son and daughter.

Tony Balnaitis is shown ringing a 6" body. Tony started work at Eddy during 1945 as a mounter of our large valves. For the last 3½ years Tony has rung bodies. Tony is married and has three daughters.

# CHICAGO'S CHAPTER

by H. E. Norain

Serving Uncle Sam over in Trieste is Marty Killeen, who sold our Iowa Valve products before entering the service. Marty's wife Dorothy of our Foundry Department submitted to us this picture. The photo was taken at a resort in Berchtesgaden, Germany where Marty went skiing for the first time. He quickly adapted himself to the sport and enjoyed it immensely. Dorothy, who is awaiting Marty's return, expects him to be discharged around the 1st of October of this year.

### MOVIES ON EUROPE

Eleonore Zehnder showed us some very fine movies of her European trip that she made last year. The travel film was shown in two parts during the lunch period on succeeding days. The movies covered Eleonore's journey through France, Germany, Switzerland and Italy. We also got a glimpse of the newest queen of the waterways the U.S.S. United States. Eleonore made the voyage to Europe on the liner United States and made her return trip on the Italian liner Saturnia.

### BACK FROM VACATIONS

John Madden and W. E. Clow, Jr. are back from vacation. We understand that they spent their time in Florida.

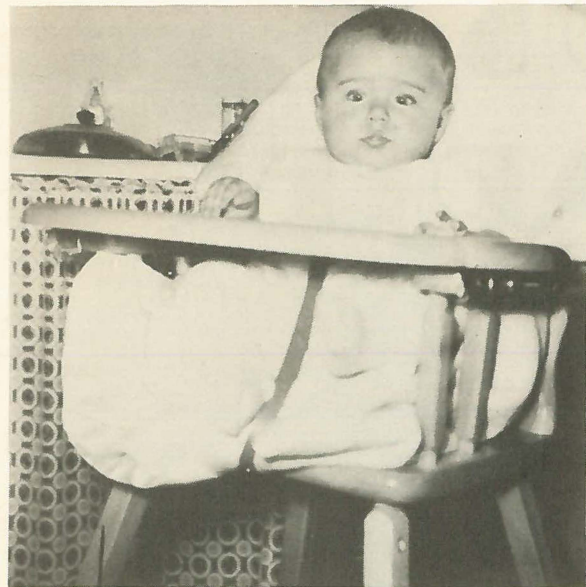

\* \* \*

### VISITORS

A visit from our retired employees is always welcome. Seen recently were Steve Kaske and Bill Cauley.

\* \* \*

This round faced, bright eyed little girl pictured at left, is Barbara Ann Prath, daughter of Rudy Prath of our Shipping Office. Barbara is now 5½ months old and growing fast.

NEW EMPLOYEES ARE:

John R. Kinnally son of Gerry Kinnally who is working in the Iowa Valve Department...  
 .....Aud Birkenes who can be found in our Advertising Department.....  
 ..Eileen Velde a part time worker helping out at the Mail Desk.....Alice Leonard, whom we forgot to mention before, is a part time helper in our Stenographic Department and is the sister of Virginia Power.....We welcome each of you to Clow.

\* \* \*

RECOVERING

We are glad to report that Clara Dulski is doing very well after her operation and we expect that she will be back at her job in the Accounting Department by the time this issue comes out.

\* \* \*

Len Fahlander known to many of us in the Chicago Office has moved to Normal, Illinois where he will be a sales representative for the Iowa Valve Company. The move has been made to bring Len closer to his customers and prospective customers. Joining him in the move are his wife, Ginny and sons, Richard and Bruce.

\* \* \*

NEW ARRIVAL

Congratulations to Anthony Ciullo and his wife Dora on the birth of a daughter. She was born on April 3rd and weighed 6 pounds 6 ounces. Barbara, as she was named, will join a brother Jeffery who is 4 years old.

\* \* \*

SPORTS

Golf

The Spring Golf Tournament will once again be held at the well known Bartlett Hills course. The date for the outing has been set for May 23rd. We are hoping for a nice turnout and look forward to seeing some of the ladies included.

- - -

Bowling

A dead-line will not permit us to print the final standings in this issue of the News, but a look at our team standings at the moment are as follows:

- |              |             |
|--------------|-------------|
| 1 - Badgers  | 6 - Beavers |
| 2 - Panthers | 7 - Tigers  |
| 3 - Gophers  | 8 - Wolves  |
| 4 - Lambs    | 9 - Elks    |
| 5 - Colts    | 10 - Lions  |

Looking up toward camera very good naturedly is Katherine Anne Fecenko 8 months old. She is the daughter of Irv Fecenko who works in our Sales Department.

A new high series was set by the Lambs on the night of April 13th when this team made up of the following members Dorothy Killeen, Rudy Krempels, Glen Carnahan and Marty Bobber rolled a 2702 including handicap.

- - -

The Inter-Plant Team representatives seem to be decided in all brackets. Men most certain to be on the team are Frank Hovinga, Ken Hersted, Les Lindberg, Wally Furst and Irv Fecenko.

- - -

Virginia Power and Frank Hovinga entered a mixed doubles contest and came out very well. Together they totaled 1029 pins with Virginia bowling a 450 while Frank had a sparkling 579.

\* \* \*

et cetera

Large cards put up at the head of each bin aids the men in the small fittings department to find various sizes and types of fittings.....A new postage machine is now in use at the Mail Desk....

.....Harry Stein is sporting a new Buick.....Rodger Headtke is now working at the Receiving Desk in the Shipping Office.....We

see that Ted Tyrcha is driving a new Buick automobile.....Lillian Price is the new cashier at the first lunch period.....Chicago now has more television sets in use than bathtubs. TV sets number 1,360,000 with tubs numbering 100,000 fewer.....In 1940, two out of every ten homes built had more than one bath. In 1950 less than one in ten were so luxurious.....Bathtubs are being installed in auto trailers, but not because the customer prefers tubs to showers. The reason is that the tub is held to be a major symbol of home to the American mind.

\* \* \*

"Holding out, yes! Starting today I'm giving myself a raise with U. S. Defense Bonds by joining Payroll Savings where I work!"

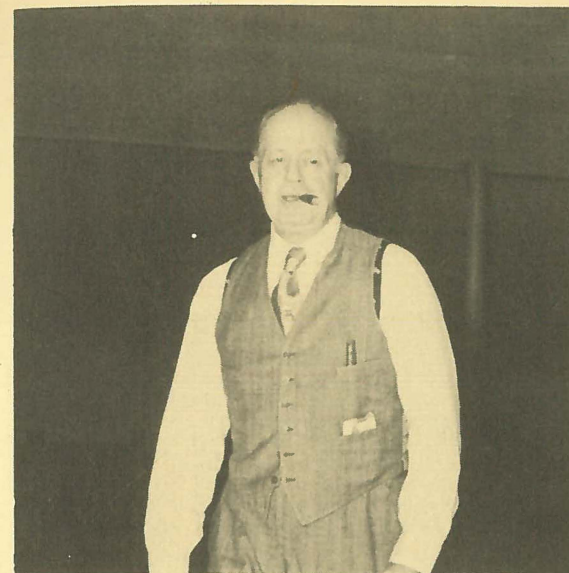

# Bowling

## 'Em Over

An expression of delight is registered on Dorothy Killeen's face as she gets another strike.

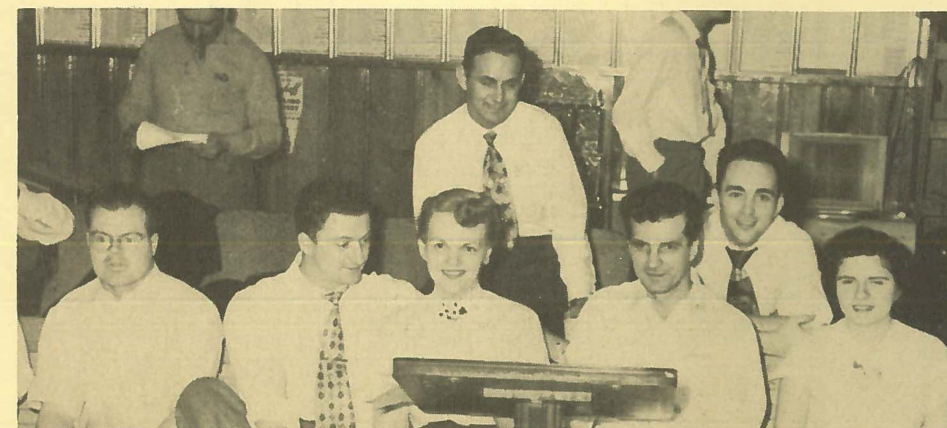

This foursome of bowlers includes from left: Marge Caccavari, Art Gramith, Bea Tarragano and Dan Osko.

Glen Carnahan, with cigar in mouth, retreats from the runway after having rolled one down the alley.

June Albertson, after missing a pin, walks back looking somewhat aggravated.

Awaiting their turn to bowl are, left to right: Dick Carpenter, Bob Mangan, Dolores Jahnke, Sub Kmiecik, Dick Di-Domenico, Bob Hemphill and Doris Blaese. Below, left to right, are: Bob Heffelfinger, Elaine Frank, Tom Horgan, Frank Hovinga, Marilyn Davis, Mike Lack and Joe Chap.

With a hop skip and a jump plus a look of determination Harry Stein completes a shot.
