# WHAT IS A BOY?

bothersome, intruding jangle of noise. When you want him to make a good impression, his brain turns to jelly or else he becomes a savage, sadistic, jungle creature bent on destroying the world and himself with it.

A boy is a composite - he has the appetite of a horse, the digestion of a sword swallower, the energy of a pocket-size atomic bomb, the curiosity of a cat, the lungs of a dictator, the imagination of a Paul Bunyan, the shyness of a violet, the audacity of a steel trap, the enthusiasm of a fire cracker, and when he makes something he has five thumbs on each hand.

He likes ice cream, knives, saws, Christmas, comic books, the boy across the street, woods, water (in its natural habitat), large animals, Dad, trains, Saturday mornings and fire engines. He is not much for Sunday School, company, schools, books without pictures, music lessons, neckties, barbers, girls, overcoats, adults or bedtime.

Between the innocence of babyhood and the dignity of manhood we find a delightful creature called a boy. Boys come in assorted sizes, weights and colors, but all boys have the same creed: To enjoy every second of every minute of every hour of every day and to protest with noise (their only weapon) when their last minute is finished and the adult males pack them off to bed at night.

Boys are found everywhere - on top of, underneath, inside of, climbing on, swinging from, running around or jumping to. Mothers love them, little girls hate them, older sisters and brothers tolerate them, adults ignore them, and Heaven protects them. A boy is Truth with dirt on its face, Beauty with a cut on its finger, Wisdom with bubble gum in its hair, and the Hope of the future with a frog in its pocket.

Nobody else is so early to rise, or so late to supper. Nobody else gets so much fun out of trees, dogs and breezes. Nobody else can cram into one pocket a rusty knife, a half-eaten apple, three feet of string, an empty Bull Durham sack, two gumdrops, six cents, a sling shot, a chunk of unknown substance and a genuine super-sonic code ring with a secret compartment.

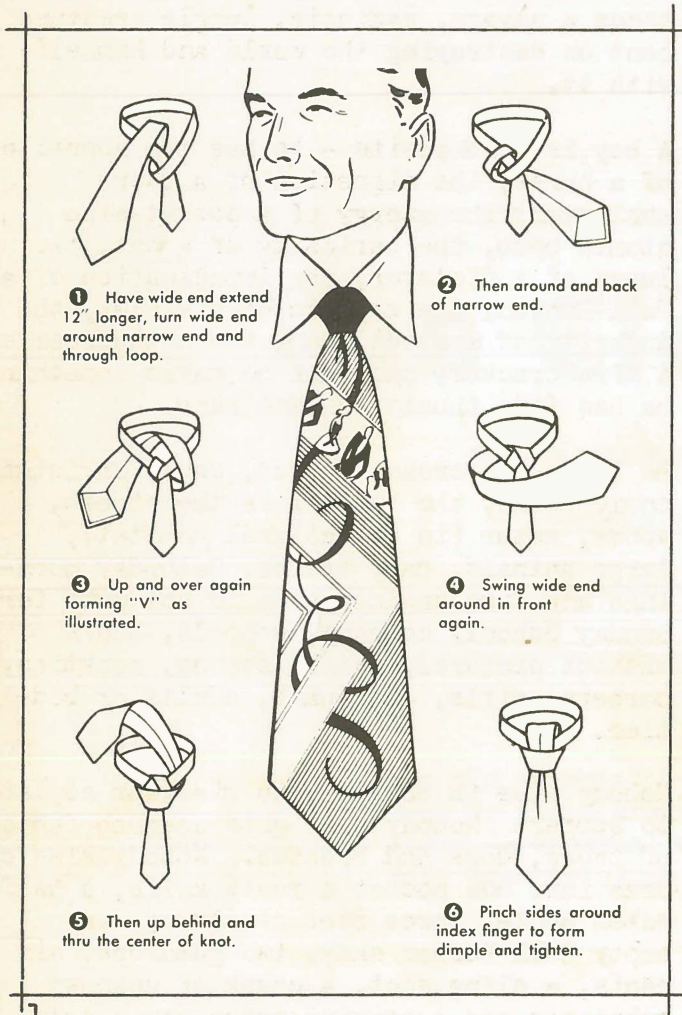

A boy is a magical creature - you can lock him out of your workshop, but you can't lock him out of your heart. You can get him out of your study, but you can't get him out of your mind. Might as well give up - he is your captor, your jailer, your boss and your master - a freckled-face, pint-sized, cat-chasing bundle of noise. But when you come home at night with only the shattered pieces of your hopes and dreams, he can mend them like new with the two magic words - "Hi, Dad."

When you are busy, a boy is an inconsiderate,

The bowlers' party where good food and fun were enjoyed by all.

## BOWLING PARTY

Early in May, the problem arose as to just how our bowling season should be ended - by holding a local tournament as in previous years or by some other means. In an effort to solve the problem, a meeting of the bowling committee was called. Someone suggested that, since everyone was tired of bowling so late in the year, a bowling party would be more enjoyable. The idea took root and plans were immediately made for a party at the Platime Club.

The result was one of the finest evenings ever enjoyed by a group of Iowa Valve employees. Thirty people were present to eat their way through a choice of steaks, chicken and sea food. After the meal, a short but entertaining program was conducted. Recounting of their trip and experiences by the members of our Interplant Bowling Team was enjoyed by those present. Highlight of the program, however, was the presentation of awards: a loving cup to Emil Berglund for outstanding achievement - highest average in our league; a bowling shirt (it didn't fit) to Tom Voss in view

BOWLING  
PARTY  
SCENES

Tom Voss' "bowling shirt" turned out to be of peculiar design and much too large. However, Tom enjoyed the joke as much as the rest of us did.

Another view of party table discloses some well-pleased faces.

Emil Berglund receives his "loving cup" bearing the inscription "EXPERT 1952" from Con Coupland. This award was in recognition of Emil's high average for the season.

of the fact that he had made a gallant effort without success toward making the Interplant Team and a token of esteem to Bill Wilson from a friend in Coshocton. It was felt that the evening was a huge success and that all future bowling seasons should be ended in the same manner.

VALVE SPONSORS LITTLE LEAGUE BASEBALL TEAM

Keeping the youngsters busy during summer vacation has always been something of a problem. A few thoughtful citizens discussing the problem came up with the idea that we should have organized baseball similar to or a part of the nationwide association of Little Leagues. The idea was so well received that a survey was made of the youngsters between the ages of 8 and 13 to determine how many were interested in participating. Over 150 signed up and the idea gained momentum to the point where sponsors were sought. With a minimum of effort, four sponsors assured the group that they would outfit a team of 15 youngsters with uniforms and complete equipment. At the time of this writing, each team manager has been awarded 26,000 points with which to buy the players of his choice on an auction basis. Youngsters who are not placed upon a team roster will remain in a "pool" to receive instruction and practice at the playgrounds. As they become more proficient in the sport, they

are subject to being purchased by one of the four teams.

This entire program is an example of good citizenship in Oskaloosa and we think Iowa Valve is to be highly commended for taking such an active part in our community affairs.

OVER THE BACK FENCE

More auto changing has been going on since last month - Ed Murphy with a very nice Plymouth and Ralph Reese with a sharp Hudson. We seem to have missed the fact

that Roy Hightower has one of those super-duper hard top convertible Plymouths. Emil Berglund drove in the other day with his pride and joy - a snappy green Ford.....  
 ...We were very sorry to hear of Tom Rees' surgery. Tom is home now and recovering nicely.....Don Ballou didn't like that long walk home for lunch, so he moved into a very nice place only a stone's throw from the plant.....Vess Earl also reports that he has moved to a new residence.....These hot days are a boon to our fishermen. We can't decide whether they really like to fish or just go out to the river to cool off. In any case, Olie Maughan and Blackie Renard enjoy the sport as much as anyone could.....Tom Voss rushed in the other day and proudly announced the arrival of his sow's ten pigs. Tom has decided that if he can't afford to buy pork, he might as well raise his own..  
 .....Ernie Simms did a fine job last month of saving our safety record. While loading one of our hydrants, Ernie suffered a severe laceration and multiple fracture of one of his thumbs. Painful as it was, Ernie was on the job bright and early the next morning and managed to turn out a good day's work.....Once again, be sure and get all those vacation pictures developed and drop them off at the office so they can be used in the "Clow News"....

received a single picture but we're still lookin'.

Our letter, this month, came from Don Kohl (former foundry) -

"I want to apologize for not writing more often than I have but my time is pretty well taken-up and I have a heck of a time even writing home.

"On Anderson Base, here, we have an education base set-up for the service men and I'm taking two classes, the slide rule and a refresher course in math. They have college courses from U. C. which many of the boys are taking but I'm not quite ready for that just yet.

"I want to thank you very much for the little present you sent me from the safety party. I can sure put it to good use in my classes.

"My address has changed slightly in the past month. I'm now A/2c, Airman second class. That's the same as Corporal. The Air Force just changed things a little. They also gave us personal post office boxes and mine is Box 246.

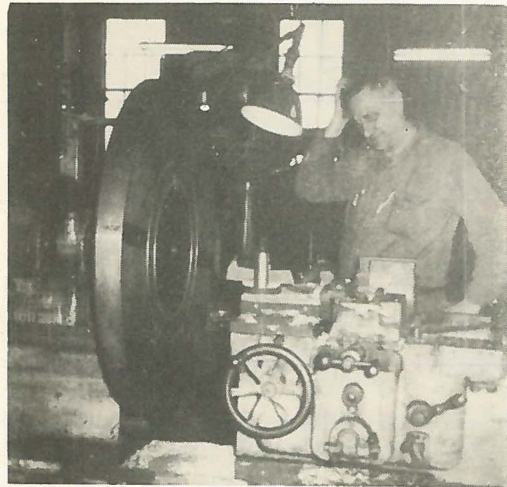

"On May 4th and 5th the natives had a big cocoonat fiesta on the southern end of the island. We worked Saturday and Sunday 'till noon and then started out for the fiesta on our motorcycle but we didn't quite make it. Most of the people were pretty well "plastered" on their way home and the mountain roads were so bad we feared someone would run us into or off the cliffs. They tell me it was a beautiful sight to see all those people in their bright color-

## OUR MEN IN SERVICE

It has been another slow month in the way of news from our military men. Just one letter arrived and it reached us shortly after our last bit of print had gone out to Chicago. Right here and now we'll toss out a little hint - if any snapshots of any of you fellows come in to us, we'll put 'em in this mag. Up to now we haven't

"In my next letter I'll send you a picture of myself in a typical Guam scene.

"I have been receiving Clow News right on time each month and I enjoy it very much. It makes me feel good to see people I know and worked with and to know how they are doing.

"Sure wish I could be home and could have been at the safety party with everyone."

Sincerely yours,

NEW EMPLOYEE

Wilbur F. Marlatt is the lone man in this

category for the past month. He joined us on June 9th in the foundry.

\* \* \*

A considerable lull in the heating business necessitated our going on a 4-day week basis as of the week of May 19th. This reduction in work days affected all departments and it is sincerely hoped that following vacation the picture will have changed materially.

THE STORK left another baby girl with Mr. and Mrs. Charles Chandler. The newest is little Barbara Christine, born at Swan Hospital, Cambridge, on May 19th. Their two other daughters are Wanda Jean, age 10, and Marquita Marie, 2½.

Television reception is far from the best in this Tuscarawas valley but it is still good enough to furnish good entertainment and bring in the so called "freaks." On Sunday afternoon, May 11th, we know of at least two of our employees who picked-up both picture and sound from a Dallas, Texas, station. Elmer Wise and Harry Hunterson both reported unusually good reception, Wise watching it for better than an hour before conditions returned to normal and the program disappeared. Since that time Elmer accidentally picked-up another "foreign" telecast, this time from Oklahoma City. Strange thing, this T.V. -- and so disgusting, at times.

press time it is reasonably certain that the picnic for colored employees and retired employees and their families, of both the Coshocton and Newcomerstown plants, will be held in late July, presumably at Newcomerstown's Cy Young Park. The 1951 picnic was held at this spot and was declared very much of a success. Watch the plant bulletin boards for announcements soon after vacation.

Announcement concerning the picnic for white employees will be forthcoming from Coshocton where the details of that event are handled.

NEW JOB ASSIGNMENTS

Glen Eckelberry is now permanently assigned to the job of Jolt Squeeze Operator. He

had previously been a radiator molder since 1946.

Carl Powell is doing a good job of filling in as Cupola Charger during the illness and absence of Lawrence S. Taylor.

\* \* \*

The desires of man to better himself, his home and his family never end and as proof of this statement -

The J. Robert Hinds' are seeing their new home go up in Oakland Heights.

The Sherman Art family has acquired a farm on Route 3.

Adolphus Newby and his family have purchased a larger home on the east side of Clow Avenue.

Mr. and Mrs. Earl Blind are now well involved in new home construction on Route 21, North, at the south end of Tunnel Hill.

Francis Cunningham and Willard Chaney have added a touch of modernization to their summer cottage, along the Tuscarawas River, by the addition of electricity.

The Chuck Yinglings' are suffering through an extensive modernization of their home on North College Street.

B - I - T - S....It's now June 12th as our two fingers are banging away at this column and up to now not one of our eligible bachelors has been "taken" by any savage female. What the balance of the month may bring? Well, anything can happen.....

Lawrence S. Taylor, who is presently recuperating at the Tuscarawas Valley Sanatorium, dropped-in for a few brief moments on June 2nd. He was permitted to spend the Memorial Day week-end at his home on Route 1. He looks good - has gained 14 pounds - and says he feels fine..... Lucille Leonhard underwent surgery

at Coshocton Memorial on May 16th. She was off work just a week and said she was still a little "pooed-out" on her return.. Evelyn Ward had to let the knife take a cut at her, too. She had surgery at Guernsey Memorial, in Cambridge, on May 19th. She came along nicely and was back home in due time..... The NCT bowling teams enjoyed another dinner on June 6th, this time at Wainwright. Your "news snoopers" were a guest (this time without camera) and thoroughly enjoyed his steak. To all you bowlers - "Thank you for your kindness. It was a very nice party.".....After getting his end-of-the-month work all out of the way, Charlie Starker handed us a temporary address at Coshocton Memorial Hospital where he underwent an operation on June 9th. His doctor reported "everything alright" after the operation and no doubt the patient will be home within hours after this column reaches our Chicago office.... Someone we hadn't seen for many months, Charles Hooper, of National Plant, dropped in for a couple of hours on June 12th. He made a quick tour of the plant with Mr. Ripley and Mr. White and was then on his way again..... Leo Boone and Franklin Milligan still off work because of illness but both appear to be improving considerably..... We hear regularly from our old friend and former janitor, Andy Covic. He'd appreciate a line from any and all here at the plant, even if only a few lines on a card. The Personnel Office will supply you with his complete address..... Bill Dansby, who now lives in Coshocton and drives to work daily, recently grabbed a paper sack containing his lunch (he thought) and found, at noon time, he had two pounds of green beans instead. We're gonna miss him around here!

## SPORTS

Softball: National's softball team was the winner of one of their three games last week. Despite their losses and hard luck, the team's spirit is still at an all-time high, and those who come to the games always enjoy them. Red Bates was the last casualty. He suffered a torn hand as he was catching for the team. Arthur Smith also suffered a finger injury while catching for the team. This week National defeated VFW 8 to 5. In spite of all the injuries, we're still hopeful of the team finishing in the first division. Come out to the Tarrant Softball Park and support your team.

## FOREMEN'S PICNIC

The Foremen's Picnic was held June 7th at Pearl Lake. Pete Clow was the winner of the baby bottle contest. Mrs. Eugene Woolwine was the winner of the balloon bursting contest. Alfred Horton and Fred Busby were winners of the ice cream eating contest and Aubrey and Jeselyn Foote were the star "rug-cutters". Besides the games and contests the group enjoyed swimming, dancing and a delicious barbecue plate.

Charlie Startley, Junior Wilcutt, and Albert Wallace are all trying to find the Queen Bee so that the swarm of bees that visited National will soon leave.

OFFICE PICNIC

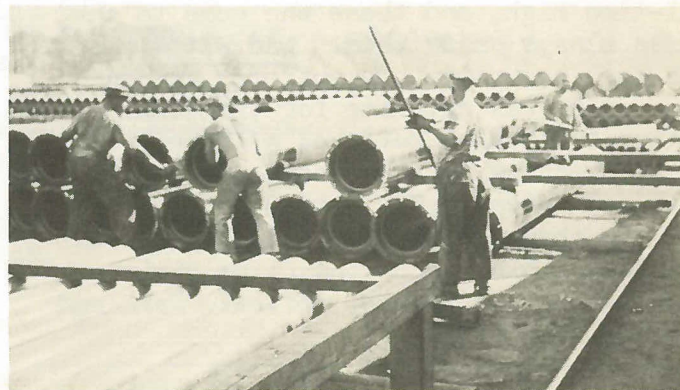

Members of the office force celebrated the arrival of "summer time" with a picnic at Camp Cosby Thursday, June 12th. After a refreshing afternoon swim, the group enjoyed a hot dog and hamburger supper with all the trimmings, served at the camp lodge.

Those in charge of arrangements for the picnic included Pride Jones, Kathleen Williams, Doris Harper, Norma Jean Johnson and Joyce Blakney. Everyone who attended commented on the good time.....and the good food! Let's plan more of the same!

NEWS BITS

Here are some of the improvements to be made at the plant during the vacation period: The foundry is to get a face lifting with new windows; a new oven feeder is to be installed; the foundation walls in the conveyor pit outside the annealing oven are to be repaired; and "dogs" on #5 run are to be installed

Raymond E. Smith and Howard Bryant in the Flange Shop.

.....The parking lot just outside the plant has been scraped and new markers placed over the area.....National is happy to welcome the following new employees: Murvin J. Kimbrell, who was hired in the laboratory; Frank Rooker and William Waine of the Carpenter Department and Nancy McTyre of the Standards Department.....J. R. Bryant has a new Studebaker.....The Smith Brothers are continuing their good record of catching fish at Wilson..... We certainly were glad to see Edwin Calhoun, who was home on a fifteen-day leave from Fort Bragg.....

A recent article in the Troy Record contained many paragraphs of interest to local people, including these: "Waterford, the oldest incorporated village in the State of New York, has started to round up its antiquities in the hope of having a local museum some day....."

In the early 1800's a group of Waterfordians were engaged in manufacturing all manner of things: flour, twine, nails, buttons, ink, fire engines, lathes, tools, silk shirts,

An early business man was one J. M. King: "King was smart. ( he had run two dams across the Mohawk River at Waterford and delivered the water thus imprisoned through a canal on the mainland.) Having a good thing, he advertised it. This power canal was regularly advertised in Wall Street, and after all these years; still supplies power."

Al Faulkner of our Blacksmith Department, hit the newspapers when he was cited for long service with Regimental Headquarters Company of the 105th Infantry at Troy Armory recently.

Sergeant Faulkner enlisted in the unit in 1929. He was discharged in 1941 at Ft. McClellan, Alabama, but was recalled to active duty in 1942 when he served with the 188th Glider Infantry until 1943. He reenlisted in Regimental two years ago and is now the wire chief.

Two of his sons were killed in action in World War II. One went down with his submarine in the South Pacific, and the other was killed in the ground fighting in Italy.

ON THE SICKLIST: Harold Vrooman, Shipping Clerk, who suffered a coronary thrombosis June 1st, and who will be convalescing soon at his home after a couple of weeks at Leonard Hospital.

Also, Walt Trombley of the Hydrant Department, who is having trouble with his leg, in addition to his past rheumatic pains.

Also, Bill Dugan, who hasn't yet whipped the glaucoma in his eye, but who is making some progress in that direction.

Also, at this writing, Bill Cole of the Machine Shop hasn't returned to work, although he's due to show up at his drill press according to the doctor. Bill has been afflicted with low blood pressure.

Baseballs may be made of codfish skin. If batters can't see the ball, they can smell it.

#### NICE CATCH

With the annual herring run now in full force in our "creek", we could probably make a pretty good story with this picture by claiming it to be a herring of mammoth proportion. But of course, since truth and honesty is one of our well-known virtues, we'll tell it straight, because we doubt if even the truth can be topped by any of our readers. Shakeout Man Bill Pozniakas, caught this THIRTY-EIGHT INCH Northern Pike within a half-mile of the plant, in the Hudson, late in May. It was the largest he had ever hooked, and gave him a real battle, as dozens of us can testify, for, being a night-shift worker, he does his angling in the day-time -- every day, too -- and rode by the plant on his faithful bike just at noontime, with his trophy "in the hand", and anyone can tell you that Bill was still a little "poohed" from the hour-long battle he had just had.

And now that the herring are running, the cottonwood is blowing, and the Yankees have started their annual custom of knocking off the Indians two-a-day, we'll sit back and wait for Saratoga to lure us.

BOWLING BANQUET

Happy steak-eaters pause for the camera man:  
l. to r.: Stan Lewandusky, Billy Gultman, Ken Echard, Mac Macdonald, Earl Gradoni, Joe Francesconi, Ralphie Cuomo, and Frank Desautels.

Earl Gradoni presents Billy Gultman with fishing rod and lures, in recognition of his services as League Secretary.

George Macdonald presents Billy with prize money, while Ken Echard looks on.

More hungry bowlers:

l. to r.: Bill LaBoissiere, Bob Nielsen, Pete Roe, Spence Thompson, Dick Page, Ozzie Cooper, Don Burnett, and Bill Roberts.

EDDY ALBUM  
of familiar faces

Leo (Young Pat) Patnode is one of our better young molders, having begun at Eddy in 1937, becoming an apprentice in 1941, a sailor in 1943 and again a molder in 1946. Then again a sailor for 9 months in 1950-1. Now he's back on the big floor, where he hopes to remain.

Red Goyer (Maynard, if you want to send him a check) is also a molder, who has alternated between Eddy and the U. S. Navy. He's back in our Brass Foundry now. Red is not an old-timer, but has been with us since 1946.

Fred Esterby has been a laborer in the Iron Foundry since 1926, except for 3 years during WW-II, when he took employment elsewhere; here he's fondling a 42" mold, his favorite.

# CHICAGO'S CHAPTER

by H. E. Norain

Glen Carnahan describes one of the panels to John Madden as they review a diorama showing the development of municipal sewage disposal in Illinois.

Glen used the exhibit when he lectured on the subject of municipal sewage disposal at one of the Talman College classes. The display was loaned to us by the State of Illinois.

## TALMAN COLLEGE

With the final class having been conducted by Milton Clow on the subject of Gasteam

Radiators and Unit Heaters, Talman College has come to a close for the summer. A written examination covering all lectures was given on June 18th and a \$25 bond a-

warded to the best boy's and girl's score.

## VACATIONERS RETURN

Florida and Mexico seem to be the two popular places to spend vacations this year. Those who have recently returned from Florida are John Gee, Millie McCuen, Virginia Power and Grant and Pat Nelson; for the latter couple it was a honeymoon trip. Those who were lured south of the border into Mexico were Marcy Czerechowicz, Margaret Caccavari and Marilyn Davis. Some people had other ideas on where to go. Joseph Caronia made a trip to St. Louis, Missouri. Ed Detmer, who set his sights toward the north country, traveled to Minnesota with his two youngest sons. Bill

# GUESS WHO?

This little girl gives us our monthly totals,  
And keeps us in office supplies.  
A stencil or two, she'll run off for you.  
We leave it to you to guess who.

Answer: Dorothy Chrust

Burke and John Pearah spent their vacation time in and around the city, just relaxing.

Eleanor Zehnder plans to take a leave of absence from Clow and journey to Europe for 3½ months. In order to raise enough money for the trip she is doing part time work. Her plans call for a visit to France, Scandinavia, Switzerland and Germany. In Germany she will stay with her grandparents who live in Boeblingen, a little town near Stuttgart. Eleanor will make the voyage across the Atlantic on America's newest ocean liner the U. S. United States which should be a thrill in itself.

## MEN IN SERVICE

A letter from Bob Hemphill reveals that he is still stationed at Walker Air Force Base, Roswell, New Mexico. Bob is with the 6th Bomb Wing and hopes to be flying on B-36's in the near future. At the present time they are flying the war-weary B-29. Bob looks forward to his return to Clow and the Engineering Department.

Les Mandelbaum's wife was slightly injured, while making a trip with him recently. Les

had to apply the brakes quickly on his automobile to avoid an accident with another car. Mrs. Mandelbaum was thrown forward in her seat and as a result received a cut on the forehead which required several stitches. We are glad to hear that she has recovered satisfactorily.

Milo Marcis reports that his wife is doing fine after a recent operation.

Jean Lindenberg and her husband have started construction on a home in a new suburban community called Lake-in-the-Hills which is located near Algonquin. Jean tells us that she, her husband and friends plan to do the building. They hope to move in sometime next year, if construction moves along as scheduled.

Left to right: Jack Finnin, Bob Heffelfinger, Joe Foreman and Frank Hovinga seem to be ready for another 18 holes of golf after an encouraging round in the Spring Tournament. Incidentally this foursome had three prize winners.

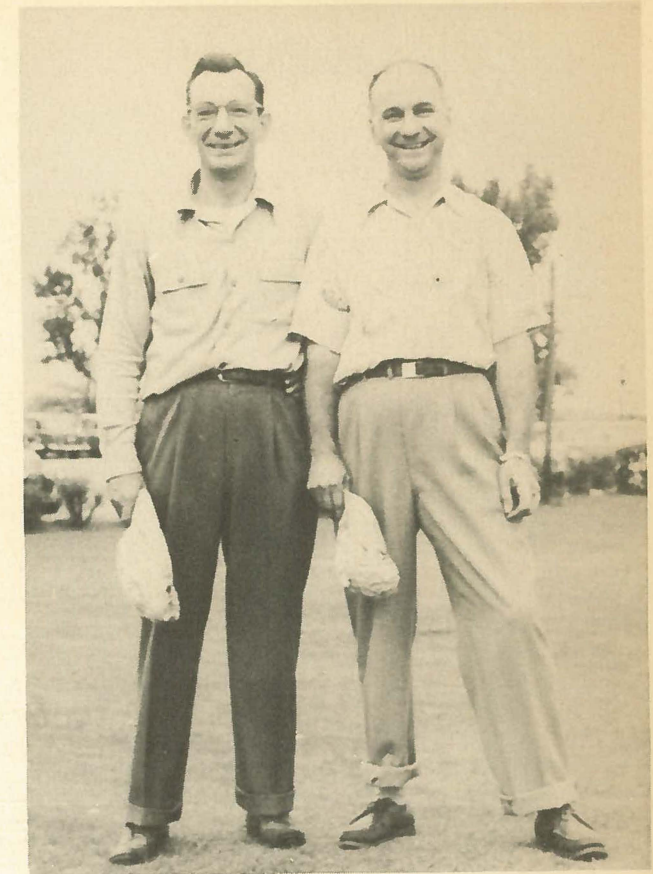

## SPRING GOLF

Jerry Jurasek with his golf bag still on his shoulder, Dan Ruddy, a guest, who blazed around the course in 76 and Bob McAdam give the camera a pleasing glance.

Howie Norain and Elmer Draver, a guest, eye camera while Len Fahlander and Dan Osko study the day's scoring enthusiastically.

Left to right: Joe Cicero, Haimico Tarragano and Wally Furst pause at the clubhouse to relax. These boys were the early birds and led all players around the course.

Rudy Krempels and Milo Marcis remove caps and give cameraman winning smiles.
