Old Stilgenbauer Barn in Hoppstaedten.

Explanation follows on how numbers are given to the Philipp Peter Stilgenbauer lineage and how they can be used to advantage in this book.

The first digit from left to right in all numbers is one for Philipp Peter Stilgenbauer because he is the only person known in the oldest generation. Each succeeding digit results from the order of birth in succeeding generations.

Each digit in the number at the top of each page corresponds successively with the direct lineage of names given above the number. The last digit corresponds with the name given below the number.

The numbers determine the order of filing pages in the book. That eliminates changing page numbers when more families need to be incorporated.

Numbers in parentheses in the index means that the person so represented married or was accepted some other way in to the family line. Names in parentheses represent surnames at birth.

Numbers in the index can be used for comparison to show how any descendant is related to another descendant in the book.

Philipp Peter Stilgenbauer came to the U.S.A. in 1835 with his wife and five children. They traveled from Hoppstaedten, Germany to Le Havre, France from where they took the Ship Albany to New York.

From History of Coshocton County, OHIO 1740-1881 by N. N. Hill, Jr., Jacob Stilgenbauer, Adams Township farmer, was the son of Jacob and Catharine (Groce) Stilgenbauer, and grandson of Philip and Elizabeth (Smith) Stilgenbauer who came from Prussia.

The following is a translation of Reverend Holm entry in church book: Philip Peter Stilgenbauer born 27th January 1783, died the 2nd of April, and was buried the 4th of April, 1855. With his deceased wedded wife he lived 39 years. Nine children were born to them, of whom 6 survive.

\* Passport and passenger list show age 53 in 1835.  
\*\* Passenger list shows age 40.
