AMERICAN EDUCATIONAL WEEK

What is education? Education is civilization. Most of us understand, to a somewhat limited degree, the vital part education plays in modern society. But Education for Tomorrow is the theme of the fourteenth annual American Education Week to be observed Nov. 5th to 11th.

The purpose of American Education Week is to give the public an opportunity of appraising the work of the school and to participate in selecting educational objectives. Education cannot stand still. Every year, almost every day, new conditions arise, new problems must be met. Education must grow to cope with increasing demands for effectiveness in meeting the needs of both children and adults. The educational system of today cannot serve for tomorrow.

It is necessary then that the public understand the needs, prob-

lems, limitations, advantages, as well as the faults of the public school system. Support can only be made possible by public understanding of the school. To achieve this is the aim of American Educational Week.

American Educational Week is sponsored by the National Education Bureau, the American Legion, and the United States Office of Education. It's observance is for the public and it must be participated in by the public.

We, the students of the Newcomerstown High School have a part to play as a fraction of this thirty million young people in American schools. Success of American Education Week is up to us.

CRITICISMS FOR N.H.S.

During the last few years there has been such a large increase in the enrollment that our chief problem is space. Our study halls are too crowded to do good studying and many of our classes are too large. But, on the other hand, with such a large enrollment we have all the more reason for a greater variety of subjects.

One of the chief subjects this school should enlarge upon is engineering, electrical, civil, and chemical. Another important thing is more subjects dealing with business administration and a required subject for Juniors and Seniors should be Typing and Shorthand. Now, last but not least, greater interest should be shown in Music.

With these few possible suggestions for bettering our school, touched up a bit by a wider range of athletics and physical education, might not our school become a center of education which shall give those who follow us a greater chance to receive those necessities of Life?

ATHLETICS

TROJANS WIN HOMECOMING

Before a record crowd of 800 the Trojans battled their way thru sleet and rain to a 6 to 0 victory over the Carrollton High Gridders Saturday afternoon, at the Athletic Field in the First Homecoming Celebration held at Newcomerstown.

In the first quarter, Manches Neff intercepted a Carrollton pass on his own 35 yd. line and raced 60 yds. for a touchdown. Capt. Gadd's try for the extra point was wide.

A muddy field kept the Trojans from clicking on the offense. In the third period after failing to make any gains on the Carrollton 22 yd. line the Trojans called on McCall to try for a field goal. The try was wide by a few feet. After that the Trojans were in the 10 yd. strip 3 times but lacked the scoring punch.

Neff's run was the outstanding feature of the game although Capt. Gadd, Paul Taylor, and Russell Coutts turned in one of the best exhibitions of defensive line play ever seen at the Athletic Field.

N.H.S. made 7 first downs to Carrollton's 4. N.H.S. made 142 yds. from the line of scrimmage to Carrollton's 86 yds.

TROJANS DEFEAT UHRICHSVILLE

Ed McCall booted the Trojans to a one-point 7 to 6 victory over the Black and Gold of Uhrichsville Saturday afternoon at the Dennison High School Field.

McCall brought his team victory in the third period when he booted a perfect kick from placement after Coker had tied the score 6 all with a sparking 47 yd. touchdown dash.

Uhrichsville scored their touchdown in the first period when the Trojans fumbled on their 9 yd. line and Uhrichsville recovered. Price tossed a pass to Rosenberry and the latter stepped over the goal line. A try thru the line for the extra point was stopped by the Trojans mighty line.

In the third period when Uhrichsville threatened to score, Neff intercepted a pass on his own 20 yd. line and raced to his 45 yd. line before he was downed. On the fourth down with two to go for a first down, Coker broke loose on a spinner play and eluded the entire Uhrichsville team on his victory touchdown sprint.

The point after touchdown enabled the Trojans to defeat Uhrichsville 14 to 13 last year. The Trojans gained 140 yds. from scrimmage compared with 120 yds. for Uhrichsville.

SENIOR NEWS

Seniors are so noisy that Mr. May has decided to let the Freshmen march out first. Come on Seniors let us all work together to keep better conduct.

Mr. House informed his Bookkeeping class and his Commercial Law class to stay out of the Sophmores desks in Room 12. We hope that they will also stay out of ours.

Miss Fenton informed Willard Bond that she meant for him to be quiet just the same as the rest. Isn't that a shame??????

Lavonne Kees and Edna Hothem came in late the other day. They said that they had to wait on a train??????

We are wondering who it is in the Junior Class that Harriet is interested in. Could it be John Fletcher????????

School was dismissed all day Friday for Teacher's Convention, we all hope that there will be more in the future.

These Model T's are dangerous. James Parsons and Horace Jackson both got hurt from them.

The Seniors are soon to begin the study of Hamlet, by Shakespeare.

The Bookkeeping II class has started to work on their sets.

Mr. May informed the tick-tackers in the respective rooms to refrain from throwing corn; if not he will give a little discount of 5% in each subject.

Many graduates attended the Pep Meeting that preceded the Home Coming game.

We hear the remance between Richard Stoffer and Grace Zimmer isn't getting along as well as every one would like to see it.

It seems that Isabel Early has lost her interest in the Baltimore.

CHAPEL

Wednesday 31.

Chapel this morning was conducted in the usual manner. The services were opened by the history of the hymn "How Firm a Foundation," by Janet Lacey. Then the entire student body, lead by Mrs. Yingling, sang the hymn.

Following the singing the scripture lesson was read by Retha Richmond and Rev. Langell followed with a short prayer.

Special music was furnished by Hilda Chapman.

Rev. Langell was chosen to bring us the message this morning. He did this well, bringing truths that I am sure will have some influence in the lives of many of the students who were listening.

Rev. Langell closed with the benediction, so ending another 45 minute period that we set aside each week for services that are of the spiritual side of life.

Education for the children of all the people, ---constitutes America's noblest contribution to civilization. ---Calvin Coolidge.

SOPHOMORE ENGLISH

In connection with the study of "Silas Marner," Miss Conn's sophomore English classes have to do extra assignments. For a passing grade a student must have an average of 75; for average work, a notebook must be kept; for "above

average" some memory work must be done; and for a grade of 95, in addition to the preceding requirements an extra project must be made.

DEBATE

Debate is a means of arousing interest in public questions even when other methods have failed. It helps to make the student open minded and leads him to see that the opinion of other people may be as good as his own. The debater is trained to detect the weakness of false argument, to reason clearly and in order on a basis of fact, and to be able to judge when others are doing the same thing. Teamwork is just as important in debate as it is on the athletic field. Each speaker must know his colleague's debate almost as well as his own. He must be ready to give support at need, to fill out where there is lack, and to repeat the strong points made in earlier speeches.

One of the things we need most in this school is teamwork. Since debate helps teamwork, I'm sure it would be of great importance in our school.

Mr. May and Miss Swigert have tried to arouse interest in interscholastic debate this year, having called several meetings for the purpose of securing debaters.

A good debate club should have twelve to sixteen members and we are sorry to say, we could not find that many interested.

The public speaking classes will take up the study of debate during the last half of the second term this year and will probably debate some current topic before the High School Assembly.

JUST SMILE

STUDENT PRINT JOKES

First Mosquito: What are you making such a fuss about?

Second Mosquito: Whooppee! I just passed the screen test!

Bobby T.: Mother, may I have a nickle for the old man who is crying outside?

Mother: Yes, dear, but what is the old man crying about?

Bobby: He's crying, "Peanuts, five cents a bag."

Schroeder: Mary Nell, what do you consider the greatest accomplishment of the ancient Romans?

Mary Nell: Speaking Latin.

Sara: I don't see how football players ever get clean.

Jean R.: What did you think the scrub teams are for?

Jimmy P. and Ralph R. (driving their Model T): Do you do repairing here?

Garage Owner: Yeah, but we don't do manufacturing.

Miss. MacMillan was hurrying down town in her car. She was stopped by Uppie Kyte.

"I shall have to give you a ticket, lady," said the officer.

"But I am on my way to my Freshman Latin class," protested Miss. MacMillan.

"Ignorance is no excuse," said Kyte.

A farmer's wife went into the bank to make a deposit for the Ladies' Aid; as she placed the sum at the window she said, "Here is the Aid money."

The slightly deaf cashier,

understanding her to say "egg money" replied: "Well, the old hens did good this week, didn't they."

He who laughs last laughs best and we believe it because Gene Mathews was just writing some jokes on the girls around him in the 7th Study Hall, when a note came back for him and Mr. May got it. We all know who wrote it.

Chinese patient (on telephone): What time you fixee tooth for me?

Dentist: Two-thirty all right?

Chinese: Tooth hirty all right. What time you fixee?

It does seem strange that Frances Thompson likes short, fat, boys. For instance, Myron Riggle, Joe Dillehay, and Howard Robinson.

THE VALUE OF HISTORY

History is a lot of baloney! Why should we bother about all of the reprobate Kings and for that matter about any of the rest of the old soaks who lived in times gone by.

And still another thing; why doesn't history go more into detail. The most interesting part of history is in the details!

Here the authors of this little essay have compiled a list of questions about history which they would like to know but which no history book with which they have come in contact has revealed.

1. Was Ceasar all wet when he crossed the Rubicon?

2. Why did Hanibal lose so many elephants when he crossed the Alps? Was he short-sighted or something?

3. What did Henry VIII have that men of this day lack? Some have come close to his record but as far as our knowledge of marriages go none has exceeded it.

N.H.S. Organizes Hi-Y

A Hi-Y club is the banding together of a group of purposeful older high school boys who are seeking Christian ideals for themselves and for the social group of which they are a part.

The Hi-Y movement among the high schools of America grew out of the need felt by high school boys for a rallying point for those who desired to stand for high ideals, that is, for things that are good as against things that are questionable.

Membership in the Hi-Y is generally open to the mature students of the Junior & Senior classes of the high school who band themselves together in a definite cause calling for high scholarship, physical efficiency, moral worth, and lives of unselfish service.

Early in its development the Hi-Y movement adopted as its purpose "to create, maintain, and extend throughout the school and community a high standard of Christian character." The slogan of the Hi-Y club is usually associated with the purpose. This slogan is frequently stated as the Four C's, Clean Living, Clean Speech, Clean Scholarship and Clean Athletics.

Boys should join the Hi-Y because it gives a high school boy a chance to consider life problems in the light of Christian teaching and Christian ideals; it presents an opportunity for a group of high school boys to render service to boys less fortunate than ourselves; it develops leaders with high ideal and challenging examples for the new students; the outstanding pri-

vilage of service.

The first high school Young Men's Christian Association of which there is a record was at Ionia, Michigan, organized in 1870. Mr. May is the local Hi-Y sponsor. We are proud to say he is doing a fine work.

Our officers are: President, Willard Bond; Vice-President, Harold Anderson; Sec., Vernon Dreher; Treasurer, Woodrow Coutts; Reporter; Nick Knezevich.

THE ORCHESTRA

This year's orchestra is composed of both Junior High and Senior High students. There are 26 members, according to the present enrollment.

Were it not for the volunteering of Mrs. Clifton as director of our orchestra, the orchestra, no doubt, would not have existed this year. Enough appreciation cannot be shown her for this kind act.

The officers of the organization are: Student Director-- Rachel Neighbor, and Librarian-- Carol Palmer.

The personnel of the orchestra is: Violins: John Budd, Hilda Chapman, Marie Cunningham, Janet Lacey, Edwin Lease, Mary Margaret Miller, Jay Neal, Rachel Neighbor, and Katherine Troendly.

Trumpets: Willard Bond, Myron Riggle, Richard Spear, and Robert VanSickle.

Clarinets: Vernon Dreher, Junior Hinds, Marjorie Lease, and Paul Wolff.

Flute: Bertha Ellen Neighbor.

Saxaphones: John Schlupp and Harold Fenton.

Bass Horn: Emily Olson.

Baritone: William Gunn.

Cello: Rachel Lease.

Piano: Carol Palmer.

Drums: Horace Jackson and Manches Neff.

ADMINISTRATORS' PROBLEM

Unless we revise our way of training children in the public schools, we may presently find that we have reared a generation utterly devoid of a sense of value.

Teaching children how to solve problems in Arithmetic, how to spell, how to read off the names of the presidents, etc, it is suggested, is very nearly useless unless, at the same time, we give them the mental and emotional training which will enable them to get something out of their lives besides the empty repetition of a monotonous routine.

In 1880 we had 100,000 students in our secondary schools; in 1890 there were 200,000; in 1900 half a million; in 1910 a million; in 1920 two million; in 1930 five million; which shows us the important need of a good school system in the future. Today there are 3 million young people under 18 years of age in America for whom there are neither schools nor jobs. It is also stated that there are 250,000 young men and women on the road today as tramps.

Today most parents seem to take it for granted that the youngsters are to get their mental and emotional training in the school rather than in the home. One of the most profound changes society could undergo has been taking place in this country in recent years, and most people have hardly noticed it.

We have not only given to our schools the task of teaching our children how to read and write; but we have to a very great extent also given them the task of developing our children's character, establishing their ideals.

A homely illustration will show the trend. Hardly anyone spansks his child anymore, and while that may be an excellent thing, the old-time firmness of parental discipline has largely vanished at the same time. It has been transferred to the school room. The child

whose parents "can't do a thing with him," toes the mark in school very obediently. He has to. He knows teachers will make it unpleasant for him if he doesn't.

Now this is merely a symbol of the way in which we have transferred parental responsibilities to the school. The only reason we are not rearing the most spoiled children the world ever knew is that the schools are doing our work for us. It calls on the educators to recognize that they have been given a responsibility which, formally, rested on the parent.

Our children can only go to school once. If they are deprived of their rightful education now it can never be made up to them later.

DO IT YOURSELF

"Do it yourself," I think this would be a good motto for the Freshmen and, in fact, all the high school students. We should be honest in all our school work. Sometimes this is hard to do. It is so easy to copy the work done by another and then pass it in as yours. Every time you are honest about your lessons you have gained something in character. Try to help others by your influence. Remember that no one can speak unkindly of another or set a bad example without injuring himself. When it comes lunch time you do not ask your teacher or school-mates to eat your lunch for you, Do you? If they did, who would receive the benefit? Keep this in mind the next time you are tempted to ask someone to do your work for you and Do it Yourself. -Mary Margaret Miller

The roll was called by the Secretary. Reports were given by Walter Albright and Glendayl Risher on Current Events. The club then sang "A Merry Life". A clarinet solo was given by Walter Hinds. In closing, Farewell To Thee was sung.

The next meeting will be held Friday, November 9.

HOW TO GET ON IN THE WORLD

BE HONEST. Dishonesty seldom makes one rich, and when it does, riches are a verse.

WORK. The world is not going to pay you for nothing. Ninety per cent of what men call genius is only talent for hard work.

BE INDEPENDENT. Do not lean on others to do your thinking.

BE CONSCIENTIOUS in the discharge of over duty. Do your work thoroughly.

DON'T TRY TO BEGIN AT THE TOP. Begin at the bottom and you will have a chance to rise.

BE PUNCTUAL. Keep your appointments. Be there a minute before time.

BE POLITE. Every smile, every gentle bow, is money in your pocket.

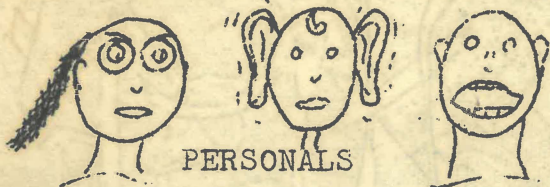

BE GENEROUS. Meanness makes enemies and breeds distrust.

SPEND LESS THAN YOU EARN. Do not run into debt. Watch the little leaks and you can live on your salary.

MAKE ALL THE MONEY YOU CAN HONESTLY, do all the good you can with it while you live, and be your own executor.
