## PUBLIC LIBRARY

At last all youse laddies and all youse lassies we are going to have a place where we can spend our leisure time and rainy days. Through the efforts of the local Heller Bros. Foremen's Club and of Prof. A.C. May we are going to have a public library in N.C.T.

Funds for financing a local library would be taken from tangible taxes already being paid by local tax payers. This would also pay the services of the librarian. It would be a branch of the library at New Philadelphia. The books and magazines will be changed regularly so as to keep new reading material at hand. A drive is on to

get the community interested so as to get their cooperation. As students of N.H.S. it would only be fair to do our part in boosting the plan for the library. It is for the good of you as well as anybody else. It would be only right that we should thank those that are doing their part for us and be willing to help in any way or manner.

## HISTORY OF THE MIMEOGRAPHED PAPER

On February of 1932 a need was felt for a school paper in Central Normal College. The Campus Crier was started as a project of the Commercial club. Soon, because of its popularity, it became independent of the commercial club and grew to be a news medium for the entire school. Now an eight page paper is published weekly and distributed to at least six hundred readers.

Out of this work grew the National Mimeograph Exchange and Association. As a result of the many questions concerning the work the first edition was published. This created a demand for additional information from schools in all parts of the United States and Alaska. During the year 1933 and 1934 approximately 250 schools were members of the exchange.

Membership in the Association entitles a school to receive the booklet and all of the materials sent out from the central office, and to feel free to ask any questions concerning mimeograph work. The price of membership is seventy five cents a year.

"Newspapers are the grand agency that will ultimately cast out ignorance, dethrone oppression, extricate crime, and elevate the world in righteousness, and thereby glorify man and God."

## HI-Y SPONSORS SHOW

The newcomerstown Hi-Y club visited the Massillon Hi-Y club last Monday. A short business meeting was held, then the subject of "Making a Home" was discussed.

After singing songs and closing the meeting both clubs enjoyed a swim in the Y.M.C.A. pool. After the swim, refreshments were served and the visit was ended.

The Hi-Y is going to sponsor a show at the Ritz Theatre, December 11. The pencils are going fast so you'd better buy them while they last.

Six Hi-Y members will go to the Hi-Y conference at Marietta December 7th, 8th, and 9th. Those who will attend are: Bernard Hartman, Billy Miller, Harold Anderson, David Davis, Willard Bond, and Mr. May.

## THE HOME OF TOMORROW

Tuesday morning the pupils of our High School were entertained by a moving picture of the Home of Tomorrow located in Mansfield presented by the Westinghouse Company. We were guided through the house by Lowell Thomas, the news-reporter of the air.

The landscaping was planned by The Better Homes and Gardens. The interior decorations were designed by The Good Housekeeping.

The house was arranged to make the work of the housewife easier, more convenient as well as more efficient.

The indirect lighting system was used to light the house. Colored lights could be flashed on the dining room table by pressing a button. In case of burglars, the house may be completely lighted by pressing a button above the bed. It has been estimated that for a family of five the cost of electricity would be from twelve to fifteen dollars a month.

About the greatest convenience to the housewife was the improve-

ment of the laundry. The tubs were built so that no water could be spilt on the floor. The clothes were dried by compressed air. A mangle and also an ironing board were found in the laundry.

The kitchen included all the electrical equipment needed to prepare a meal.

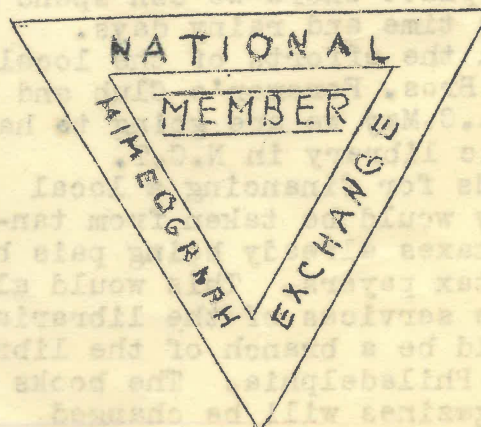

The house contained seven radios and a telephone in practically every room. There was also a sound proof room which could be used for many purposes.

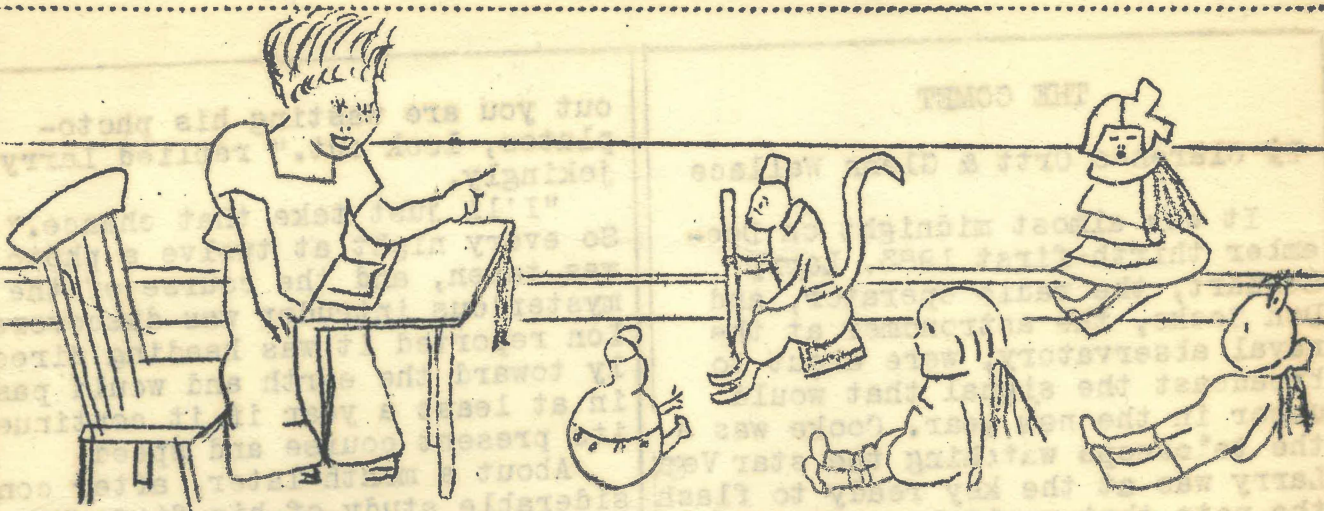

In the breakfast nook we find articial sunlight; when it is rainy and dreary outside this light may be turned on.

## SENIOR ENGLISH HOLDS OPEN FORUM

The Senior English class has begun some of its most interesting work. Miss Conn has asked that each member of the class read a book on some vocation and then review it to the class. Each member has responded with a well chosen topic. This has all been conducted on the open forum plan. After each report the entire class holds a discussion on that particular report, suppling it with knowledge of their own and asking questions of the reporter. All the reports will be finished this week and the class will continue to read "Hamlet."

## THE COMET

By Clarence Ortt & Glenn Wallace

It was almost midnight on December thirteenth-first 1983. Larry Schuart, the radio operator, and Don Cooke, the astronomer at the naval observatory, were about to broadcast the signal that would usher in the new year. Cooke was at the telescope watching the star Vega. Larry was at the key ready to flash the note that would be a welcome sound to the world.

"Ready, Larry," broke in Don, glancing at his watch, "Let her rdl." Larry depressed the key with a feeling of happiness and good will toward all humanity, and the radio audience knew that 1984 was now in reign. What did it have in store for them?

"Say, Larry, I noticed something peculiar about the universe tonight." Said Don a few minutes later.

"What?" was the others reply.

"Well, while I was watching Vega, I noticed a strange body close to her that I've never seen before."

"Well?" answered Larry interestedly.

"Not so long ago when I visited one of those fortune tellers, she told me that I was going to make a very important discovery."

"Tommy Rot!" She was just after your money."

"Maybe so, but I am of the superstitious nature," returned Don.

"Sure it is, Don't tell me you believe in that stuff. Why man, thats bad enough for people fifty years ago (1934), but, well, let's forget it. The star you saw was probably doing an upheavel and probably wont be there a week from now."

But it was there-two; three weeks finally, a month passed, and it became brighter as it came steadily on. Then one night Don told Larry he was going to take photographs of the newcomer.

"Okay, but if Uncle Sam finds

out you are wasting his photo-plates, look out." replied Larry jokingly.

"I'll just take that chance." So every night at twelve a photo was taken, and the course of the mysterious intruder was discovered. Don reported it was heading directly toward the earth and would pass in at least a year if it continued its present course and speed.

About a month later, after considerable study of his film, Don stated that it was a comet with a solid head and tail made up of two or three million small bodies about the size of the moon.

"Is it still coming this way?" asked Larry.

"Yes, it has deverged slightly so that the tail will either pass or part of it strike the earth."

"Sounds bad. Is there any possible escape?" asked Larry.

"Well, there's just one chance in a million. My father has been working on a rocket (to succeed) to land on Mars. With different arrangements it could be made to carry people, but he lacks only one thing, and that is--the rocket blast for the length of time to reach Mars would melt any metal used. My father is trying to make an alloy of iridium and platinum to make a metal capable of withstanding the intense heat. If he succeeds, with about ninety others, will take off for Mars three days before the comet will be within striking distance of the earth; and if the comet fails to effect the Earth we'll return, but if it does we shall reside on Mars."

"Maybe" put in Larry.

(To be continued)

JUST LIKE THAT

"Do you have any trouble with 'shall' and 'will'?"

"No; my wife says, 'You shall', and I say 'I will.'"

## GIRL RESERVES

The Girl Reserves have been busy the last few weeks making posters to exemplify each part of the code. These posters will be finished soon and will be placed in the respective rooms so that at sometime during the day, each girl can refer to them from time to time and thus try to make her life more useful.

The girls donated food for baskets which were given to the poor for Thanksgiving.

They also voted that the meetings be held every other Monday night instead of every Monday nite as had been suggested.

### BE STUDIOUS

Mr. Derr says that all the pupils in the eight grades should work as hard as possible before the examinations because there are only four weeks in this semester. Many of the boys and girls waste their time throwing notes and talking, instead of getting their lessons. We are not supposed to go into our classrooms until 8:30 in the morning and 12:30 in the afternoon. We are to go in our rooms and study instead of talking with our neighbors. If we do not study we are supposed to stay down stairs until the last buzzer.

### JINX CLUB

The regular meeting of the Jinx Club was held at the home of Rosemary Johns Friday, November 30, 1934.

Election was held and the following officers were elected: Carolyn Leighninger-President, Rosemary Johns-Vice President, Beverly Barnhouse-Secretary, Suzanne Neal-Treasurer, Mary Knezevich-News Reporter.

Delicious refreshments were served to Carolyn Leighninger, Elizabeth Brode, Suzanne Neal, Beverly Barnhouse, Wilda Lee, Carol Trees, Mary Knezevich, Molly Gainor, a guest, and the hostess.

### A PREVENTIVE

Wesley:-"Do your spectacles really help you?"

Junior A.:-"Do they!! They've kept me from being beaten up four times now."

### MINSTREL SHOW A GREAT SUCCESS

The Bandanna Minstrel, recently given by the pupils of the Junior High, was a decided success. This was the first time in Newconerstown that a black face minstrel was ever given by children. The public was quite profuse in its compliments. Each and every member of the cast did his and her part exceptionally well.

Special mention should be accorded the Dixie Bells, Dapper Dan (Robert Cunningham) the Bandanna Babies, a chorus composed of first and second graders, and Jack Gainor, the Interlocutor.

The teachers and the pupils of the school are very appreciative of the help and cooperation of the following who helped in making our show a success: Harold House, Dildfred Beiter, Robert Britton, Miss Besse Evans, Miss Thelma Neighbor, and Mrs. May Nicodemus.

### SHORT SKITS, WELL RECEIVED

The program composed of short skits and numbers was appreciatively received by the audience. The whole-hearted applause following each number attested the approval of the audience. We are indeed gratified by the parts taken by Elizabeth Brode, Wilda Lee, Paul Wolff, Rachel Neighbor, Molly Gainor, Thelma Neighbor, Jack Johnson, The Accordion Quartet, and Mrs. Charles Leiser.

We especially appreciate this opportunity given us by Mr. Ortt, and sincerely desire to thank him for all the many favors and kindnesses shown us.

## SMILES

A little city boy was visiting his country cousin. "What do you know about cows?" quizzed the country lad. "You don't even know if that's a Jersey cow."

"I don't know from here, 'cause I can't see its license." Came the reply.

Paul W.-"May I have the last dance with you?"

Betty B.-"Don't be silly. You've had it."

"And do you know anything about religion?" Inquired the missionary.

"Well, we got a little taste of it when the last missionary was here." Replied the cannibal chief-tan.

John B.-"If you keep looking at me like that I'm going to kiss you."

Suzanne N.-"Well, I can't hold this expression much longer."

"Glendayl," said Mr. Derr, "what would your father get if he sold 10 bushels of potatoes at 10 cents a bushel and 5 dozen eggs at 5 cents a dozen?"

Glendayl shifted uneasily. "I know, sir, but I hate to tell."

"Please give us the answer. I insist."

"There isn't any." Said G. with feeling, "for mother would just half-kill him."

Norman McPherson-"I'm a little stiff from golfing."

Myron S.-"Where did you say you were from?"

Wilda L.-"My, that popcorn has a heavenly smell."

Harold B.-"Hasn't it?" I'll drive a little closer."

Carolyn L.-"Yes, Suzanne told me I was a lemon."

Jr. Hinds.-"Well if that's the case I would like to be a lemon squeezer."

Mary Lou J.-"Do you make life-size enlargements from snap-shots?"  
Photographer-Certainly, that's our specialty."

M.L.J.-"Well, let's see what you can do with this picture. (picture of Grand Canyon.)"

WE WONDER:

What Mary K. and Jack G. have that is so-o-o-o confidential.

Why Howard Atha walks up State St. instead of Canal St.????

Why Velma Ortt likes to sit by Carl Powell.

Who knocked John Heifner's nose so loose that he had to tape it on.

Why Beverly A.B. smiles when Robert R. comes into the room.

Indian: "Me want a bottle of cough syrup."

Druggist: "Some one sick at your house?"

Indian: "No sick."

Druggist: "Then what is this syrup for?"

Indian: "Mm-me likeum on pancakes."

Mary K.- I smoke Camels. They give me a lift.

Beverly B.-Say, it would take more than a Camel to lift you. It would take a derrick.

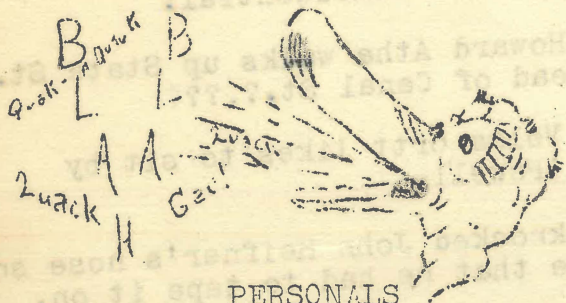

Wesley M. Composition of a horse.

A horse is a noble animal. It has four legs, one at each corner. It also has a tail at one end and a head at the other end, which is not like an elephant which has a tail at both ends.

The 7th grade Geography classes have finished the study of South America and are beginning the study of the European countries.

The 7A Arithmetic class is studying decimals.

Within the next week the 8th grades are going to drop geography and will take up the study of General Science for the first time. We hope every student will enjoy the new subject which will be of great benefit in our later life.
