History of the Class of 1936

In the autumn of the year '31, eighty eager boys and girls embarked on the ship "N. H. S." for a four year voyage. About the second week at sea, Walter Smith was elected captain for the first year's voyage, and "Always rowing, never drifting" was chosen the class motto. Except for a few stormy days, the first quarter of the trip passed quite smoothly.

Garner Stocker successfully steered the ship through the second year at sea. The girls aboard formed a "Booster Club", and many of the other passengers joined the different clubs and became members of the orchestra, glee clubs, "Student Print" staff, and the athletic teams. The class of '36 also contributed several members to the scholarship team which the high school sent to Kent, Ohio.

During the third year of the voyage, preparations were made for the annual banquet the Juniors gave the Seniors. Grace Lyons was the helmsman this year. Class rings were selected during this part of the voyage. The class of '36 again contributed to the various high school organizations, the Junior-Senior play being added to the list.

As the last year of the sea-journey was approaching, the thoughts of the passengers were beginning to turn to the years of post-high school life and the responsibilities connected with them. Helen Schumacher, captain, guided the ship the last few months at sea. As the long voyage ended and the good old ship the "N. H. S." drew slowly into port with fifty-seven passengers about to disembark and begin a new life, the green and white flag, the class insignia, was raised and the strains of "Loyalty" wafted over the peaceful water.

Address to National Municipal Convention, Chicago, 1950

by GRACE LYONS, Chairman of Marvel City Delegation

Ladies and Gentlemen:

As chairman of the Marvel City Delegation, it is a great pleasure for me to address you here this evening. It is of the greatest importance to our project that our model city be understood through out the world. The interests of mankind are deeply involved. A model city will be of the most widespread interest to all men.

I must make my address this evening as brief as possible because of the short time given me. I will therefore sketch hastily a resume of the city's departments and the persons at the head of such departments.

A model city such as we are involved in experimenting with must be as nearly as possible a perfect governmental agent. Therefore it is most important that each division of the municipal government be headed by the most reliable and experienced person available. This the citizens of Marvel City have endeavored to make a fact by their choice of municipal officers.

First, I will speak of the executive division of the city's government. The Mayor, Mr. Paul Hammersly, is a man of high ideals and worthy actions, and by his non-partisan administration of this office has gained the whole-hearted support of each and every citizen. One of his out-standing achievements was the elimination of graft in the awarding of city contracts. The Chief of Police, Carl Phillips, has worked with such efficient zeal with his force to abolish crime, that the District Attorney, Wayne Mizer, has nothing at all to do. Wayne is now thinking of starting a club for the promotion of astronomy as a means of strengthening eyesight. The Court Reporter, Olive Toney, has so much free time from court duties that she has started writing a book on "Why Crime Does Not Pay".

The Marvel City Council is one of the city's most interesting departments. It is singularly free from political corruption, working on the basis of community good and municipal welfare. Its members are: Stanley Schworm, Wayne Renard, Carl Lenzo, Chester Booth, and Miss Johnnie Mae Driver. The greatest work of the Marvel City Council was the building of the amusement park. This keeps the citizens in Marvel City on holidays when they desire a picnic or swimming party, and also brings much out-of-town trade to the park. The park has come to be an important source of revenue for the city.

The Amusement Commission, directed by Henrietta Hill and Frances Milligan, has charge of the park. The Commission is adept in its line, and has staged some unique and interesting performances at the park. Perhaps the most amusing of these was the Vegetable Ball. Each person attending was disguised as a garden vegetable, and the best costume received as a prize, a bushel of the kind of vegetable he represented. The Postal Commissioner, Nick Knezevich, has cooperated with the Amusement Commission by aiding the advertising committee. Nick recently received national mention in the *Senate Weekly* for his work in the Postal Department.

The Marvel City Schools are already recognized as the best in the state. Among the teachers in this school system are the following: Russell Marquand, Alma Thompson, Helen Schumacher, Rachel Lease, and the High School Principal, Maurice Wolfe. The schools are advancing steadily in their work, and each year marks new additions to the school curriculum.

Marvel City is exceedingly proud of its banking system. Three banks are conducted: The Farmer's National Bank, The Municipal Bank, and The Industrial Trust Bank. These banks are organized under a municipal order, and are directly controlled by the Exchange Board. The system has been chartered by the Federal Government, and is under the protection of the Federal Reserve Commission. The president of the Marvel City Exchange Board is John Fletcher. He is advised by the members of the Council.

The business district is very important to the financial advancement of the City. It is directly governed by the city's Commission of Trade, and has shown immense improvement over the old haphazard system of individual management. The shops are up-to-date and modern in every detail. The Rogers-Neal Dress

Shoppe is an excellent example of the latest improvements in interior decorations for salons. Its bookkeeper and stenographer, Evelyn Angle, is an efficient and able assistant. The Beauty Salon conducted by Edna Early and Lois Richmond recently won the National Award for the best coiffure created during the current year. The combination Real Estate and Secretarial Agency founded by Grace Kenney and Blanche Kedigh is a huge success, and is now considering expanding into the entire fourth floor of the D. Callentine Building on the corner of Third and Broadway.

Anderson's Tire Shop and Automobile Agency has gained practically a monopoly on the automobile industry in Marvel City. The Modern Grocery of Bower and Stocker is justly famous for its Saturday Sales, and is doing a thriving business not only with the townsmen but also with all the country buyers. Of course, much of the success gained by this grocery is due to the invaluable assistance rendered to Harry by his wife, the former Isobel Early. The Motion Picture Company under the administration of Clarence Ortt has managed for several consecutive years to produce the best picture of the year.

The Athletic Gymnasium of Smith and Riggs is now conducting a special reducing program which might be of interest to some of my audience. The special reducing machine invented by Miller and Norman is being used during the series. The Sanitary Bakery, conducted by Mrs. Hostetler, *nee* Marie Cunningham, is noted for the quality of its baked goods. Wilma Phillips is the chief baker, and has created some gorgeous cakes, among them being the one for the wedding of Mr. and Mrs. Donald Troendly. Mrs. Troendly is the former Evelyn Treasure.

One of the outstanding achievements of Marvel City is its wonderful hospital. Among the nurses here are Betty King, Thelma Craigo, and Thelma Bennett. One of the most distinguished surgeons in the country, Miss Ruby Hunt, also is on the Medical Staff of our hospital. The position of Chairman of the hospital board is filled very efficiently by Edna Grosenbacher. The dietetic staff of the hospital is in charge of the famous dietician, Miss Therese Gombar.

Another of the greatest achievements in Marvel City is our large airport, covering 500 acres, and containing the largest hangar in the world. Rodney Eagon and Woodrow Dawson have done excellent service in applying their abilities to the furthering of airplane designs for the construction of planes to be used in our airport. Matthew Scott for the past year has kept Marvel City planes in flying condition. He is one of the best airplane mechanics in the country.

The special commission for the furthering of the interest in art and music has been in charge of Miss Bessie Cunningham for the past three months, and has already shown a marked advance by gaining the interest of the public. Miss Cunningham, as you undoubtedly know, is the painter who astonished Europe by her sketches of folk life in the Balkans.

My time is nearly up, but I must say a few words about the agricultural and rural progress in our community. The city has sponsored a modern vegetable farm, a poultry farm, and a dairy farm, for the purpose of supplying the city with sanitary products raised under the best conditions possible. The results have more than justified the investment. The poultry farm, in charge of Evelyn Taylor and Aileen Murphy, is one of the largest and best-conducted in the state. The dairy farm, which is managed by Vernon Dreher and his wife, Corle, is the scene of much of the community's merry-making, being an excellent picnic site. The vegetable farm, under the modern methods applied by Virgil Hogue, has reached new heights in productivity, by the use of his new formula for stimulating the growth of plants.

Just a few words about our fashion expert, Velma Hinds, and civic sports manager, Russell Coutts. No resume of city officials would be complete without them. Their efforts have been amply rewarded by the advancement in their field.

And now, ladies and gentlemen, on behalf of Marvel City. I wish to invite you to come to visit our city at any time. It is located on the banks of the Tuscarawas River, not far from Browning's Ford, and can be reached by automobile, boat, or airplane. The city will be greatly honored if the next National Municipal Convention should be held there.

I thank you

Nick Knezevich '36, Left end. Nick filled the left wing position in fine fashion.

William Goettge '38, Left end. "Bill" played "bang up" ball for the Trojans all season.

Manches Neff '37 Halfback. Neff was considered the gamest man on the squad.

Buster Coker '37 Fullback. Buster was the most consistent ground gainer on the team.

1935 Football Season

The 1935 football season was a brief one for the Trojans. After playing the four hardest games on the schedule the Trojans were anticipating victories in the rest of the games when the scarlet fever epidemic ended the season. The season was profitable for the Trojans in developing the players' skill and knowledge of the game under the careful coaching of Mr. Campbell.

Newcomerstown vs. New Philadelphia

Being outweighed about 20 pounds per man, Newcomerstown lost to New Phila Quakers. However, the spectators were greatly impressed by the fight which the Trojans put up although the odds were against them.

Newcomerstown vs. Cambridge

Due to an intercepted pass Newcomerstown in the last few minutes of play was able to tie the score with Cambridge 7-7.

Newcomerstown vs. Dennison

Gaining at will in mid field but lacking scoring power, Newcomerstown lost to their rival team Dennison. The Trojans fought desperately to score in the closing quarter but the game ended with a score of 13-6.

Newcomerstown vs. Millersburg

Treking to Millersburg the over-confident Trojans lost to the inferior Millersburg team due to official misruling. Score 13-7.

Jan. 25—Suffering from the stinging defeat of the Dennison game the Trojans gave in to the Strasburg team 26-24.

Feb. 1—Trailing to Fresno the Trojans pasted a 51-21 defeat on the Fresno five.
