FEDERAL BUREAU OF INVESTIGATION (FBI) For telephone number or address of the proper office..... Call INFORMATION

WARNING— OHIO LAW PROVIDES under penalty of fine or imprisonment or both that "No person shall willfully refuse immediately to yield or relinquish the use of a party line to another person for the purpose of permitting such other person to report a fire or summon law enforcement agencies, ambulance service, medical, or other aid in case of emergency. No person shall ask for or request the use of a party line on the pretext that an emergency exists, knowing that no emergency exists * * * ." An "Emergency" is defined as a situation in which property or human life is in jeopardy and in which prompt summoning of aid is essential. The Telephone Company is required by law to publish this notice.

HOW TO MAKE LONG DISTANCE CALLS

Save time and money on your out-of-town calls

1. Call **STATION-TO-STATION** when you're willing to talk to anyone who answers. This type of call takes the lowest rate, costing at least 25% less for the initial period than a person-to-person call. Charges start when the called phone answers.

To make Station-to-Station calls:

Call the Operator.
Give the city and state you want and the telephone number if you know it. Say, for example, "Cincinnati, Ohio, MAin 1-1234."
If you don't know the number, say, for example, "Cincinnati, Ohio; number not known; anyone at Brown & Co., 600 Main St."
Give the Operator *your* number when she asks for it.

2. Call **PERSON-TO-PERSON** when you want a particular individual, department or switchboard extension . . . especially if it may take time to get your party to the phone. Charges, higher than for a station-to-station call, do not begin until your conversation starts.

To make Person-to-Person calls:

Call the Operator.
If you know the number, say, for example, "Cincinnati, Ohio, MAin 1-1234, Mr. John Brown (or Extension 345, or the Treasurer's Office)."
If you don't know the number, say, for example, "Cincinnati, Ohio; number not known; Mr. John Brown (or Extension 345, or the Treasurer's Office) at Brown & Co., 600 Main Street."
Whenever possible, give the out-of-town telephone number. Calls go through twice as fast when you call by number.

Take advantage of low night and Sunday rates

It costs you less to call at night (from 6 p.m. to 4:30 a.m.) and all day Sunday. Reduced rates are in effect on station-to-station calls whose initial period day rate exceeds 40 cents and for most person-to-person calls whose initial period day rate exceeds 60 cents.

Plan your call

It's a good idea, before making a long distance call, to plan what you want to say. Jot down each point you want to cover. Then you won't forget anything. Planning your calls can save you money. You won't talk longer than you intended . . . and you won't have to call right back because you forgot something. Of course, you can call as often as you want and talk as long as you like. There is no restriction on length and number of long distance calls. But we like to see you get your money's worth.

Some Special Services

Have a telephone get-together.

Conference calls make it possible to have a family reunion or a business meeting by phone. You can talk from your telephone to a number of long distance points all at one time. Just call the Operator, ask for the Conference Operator and tell her the

numbers you want to contact. This service costs less than you may think.

Collect calls are a convenience.

On a *collect call*, the charge is billed to the distant phone . . . mighty handy if you're away from home and short of change. There's no extra charge for this service when the initial period rate is more than 25 cents. Simply tell the Operator you want to call collect.

How and where to pay your telephone bills

Your telephone bill is mailed to you monthly and is due on receipt.

If you prefer to *pay by mail*, send a check or money order to: The Ohio Bell Telephone Company, 528 Main St., Coshocton, Ohio. *Please do not mail coin or currency.*

Be sure your payment is credited to your account. Always enclose your bill stub. If you mislay the stub, write your phone number clearly on your check or money order.

Bills may be paid *in person* at the Business Office, 528 Main Street, Coshocton. Or you may pay at one of the handy collection agencies listed below. There is no charge for this service.

Newcomerstown The First National Bank, 123 N. Bridge St.
Peoli Mathews General Store
Port Washington C. F. Hoffman Insurance Agcy.

Please take your phone bill with you. If you have mislaid it, call our Business Office and ask your service representative to mail you a duplicate bill.

Getting the most out of your telephone directory

Your telephone directory is among the most useful reference books in your home. Keep it handy. Next to your phone, nothing is more useful. It's a very important part of good service. *Your use of this directory each time you need a telephone number will help us provide low-cost telephone service. Thanks!*

The directory offers a lot of useful information in addition to telephone listings. Check the table of contents, page one.

The Alphabetical Section

lists every Newcomerstown and vicinity telephone customer, business and residential, alphabetically by name, excepting those requesting unlisted numbers.

The Yellow Pages

or Classified Section, lists business customers by classification. It's your *complete* shopping guide to every product and service in town.

The Blue Pages

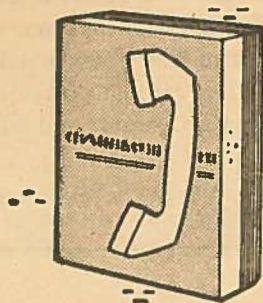

or Civic Section, contains valuable information on your town, postal service and other items of interest.

Identification of telephone employees

For your protection, any telephone employee who visits customer premises must carry an official *identification* card showing his or her name, photograph and signature, counter-signed by a department official. If you are in the slightest doubt about anyone who says he's "from the Telephone Company" ask to see his identification card.

Telegrams by Telephone

You may telephone telegrams, cablegrams, or radiograms to the Western Union Tele-

OUT-OF-TOWN DIRECTORIES

Directories of other cities are available at nominal cost. They may be ordered through the Business Office, 9900.

DIRECTORY ACCURACY

Every effort is made to keep the directory as accurate as humanly possible. The company, however, assumes no liability for damages arising from errors and omissions in making up or printing this directory.

graph Company—see the listing of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

Party Line Courtesy Pays

When several persons are sharing the use of a telephone line, consideration and courtesy are important to all. Everyone enjoys better service if each party observes these simple rules: Be reasonably brief . . . space your calls so the other party can place his calls . . . and give up the line for emergency use.

Things you should know about your telephone service

AUTOMATIC ANSWERING

Many businessmen are installing our automatic telephone answering sets to answer your calls promptly when they are out of the office. If you call a business firm and a record answers, don't hang up! Wait until the recorded message is completed. If the telephone you call is also equipped to record your message, a special "beep" tone will indicate when you should start to speak.

THE "BEEP" TONE ON RECORDED CONVERSATIONS

If you hear a "beep" on the line about every 15 seconds during a phone call, the person with whom you are talking is recording the conversation by means of an electrical recording machine connected to his line. If you do not want a record made of what you're

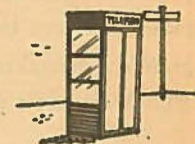

saying, tell your party to disconnect his recorder. You'll know he has done so if the "beep" stops. The "beep" signal is produced automatically by the device used to connect the recorder to the line. Use of a recorder without this signal is unlawful.

PAY STATIONS

. . . Your phone away from home

In addition to handy indoor booths, outdoor phone booths now offer you service 24 hours a day on city streets and country highways.

For the best pay station service, always check instructions posted above the phone. Pay stations in some locations work differently and, if you don't follow instructions, you may lose your call.

Care of your telephone

Keep receivers in their brackets.

Books or other objects near a phone may lift the receiver out of place. This puts your line out of order. Incoming calls are cut off. On party lines, this cuts off the other party's service completely. Of course, the same thing happens if you forget to hang up any phone on your line when you finish a call.

Watch your telephone cord.

Try to keep your telephone cord from tangling or kinking. A twisted or worn cord can affect your service. If your cord is worn, call our Repair Service. And be very careful never to let the cord get even slightly damp.

Keep your telephone dry.

Never, never wash a telephone. Dust it! Water can put your service out of order. If your telephone needs a thorough cleaning, call our Repair Service.

Attachments to telephones.

Someone is always selling some new gadget or gimmick to hang on the telephone, presumably to improve the service or make it handier. However, most of these devices actually interfere with your service and may put your phone out of order. The Telephone Company does not sanction any device except those it furnishes. If your telephone equipment doesn't meet some particular need, the Telephone Company can furnish approved special equipment at reasonable rates. Read Pages 9 through 12 to learn about some special telephone conveniences.

Conducted Tours

We enjoy playing host to friends and customers on conducted tours of our working "home."

When you receive our invitation to tour your telephone company, be sure to come. You'll enjoy learning how your calls go through and how telephone facilities serve the nation's defense programs. Special tours can be arranged for school and civic groups.

Program Aids for Organized Groups

Interesting programs on telephone subjects can be arranged free of charge for organized groups of representative size, such as school and college groups, fraternal, church, business, trade, professional, civic and service clubs. Described here are the two main types of program available.

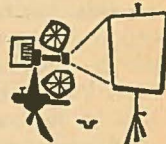

Lecture-Demonstrations

Telephone speakers can be booked for all kinds of meetings. Talks include information on many new exciting developments in the world of communication . . . explained in easy, non-technical language, and high-lighted by interesting demonstrations.

Telephone Motion Pictures

Entertaining and informative sound-motion pictures on telephone subjects are available free of charge for almost any type of audience. "Ohio Story" films can also be obtained for showing without charge.

For full information on the above programs, call, write or visit the Business Office, 528 Main Street, Coshocton, Ohio. Ask operator for 9900.

use the
**BLUE BOOK OF
TELEPHONE NUMBERS**

Long distance calls go through nearly twice as fast when you call by number. Keep out-of-town numbers in the handy Blue Book we furnish you without charge. List local numbers too, especially those you call often. If you don't have a Blue Book or need additional copies, they are available at our Business Office.

TAKE A *New Look*

AT YOUR TELEPHONE SERVICE

Complete modern telephone service is part of modern living. Is your service really complete . . . really up-to-date?

MODERN HOMES HAVE HANDY PHONES

Dashing for one "centrally located" phone is as out-of-date as reading by one light bulb hanging from your ceiling. And it's hard on your heart.

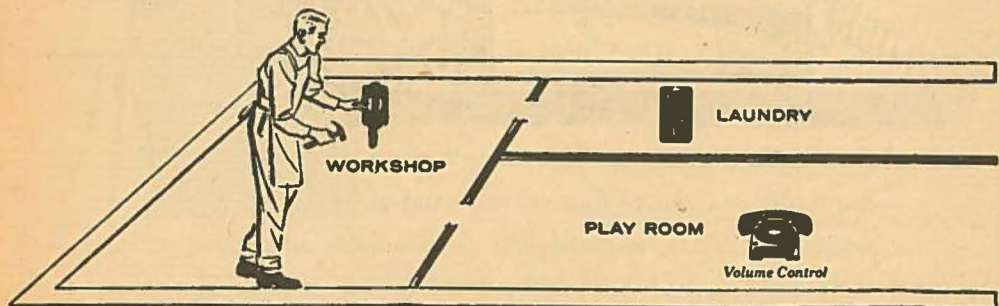

Today's living puts phones at your finger-tips . . . at least one on each floor of your home.

In sleeping areas Bedside phones give privacy, add security at night, saves steps day and night.

In working areas A kitchen phone saves steps and dinners. Basement phones, in laundry or workshop, are heart-savers . . . no dashing upstairs to take calls.

In play or living areas Phones at your finger-tips add convenience in TV room, living room, family fun room.

PHONE CONVENIENCES FOR THE ACTIVE FAMILY

In the kitchen

The modern housewife keeps in constant touch with community activities. The smart, efficient housewife makes her kitchen her communications center. A kitchen telephone saves steps. And the lady of the house can take and make calls and still keep an eye on what's cooking.

In the bedroom

Whether you're sixteen or sixty, a bedroom telephone means convenience, privacy and security at night. There's no better place for a telephone chat with a teenage friend, and it's mighty handy for taking a call when you're upstairs cleaning.

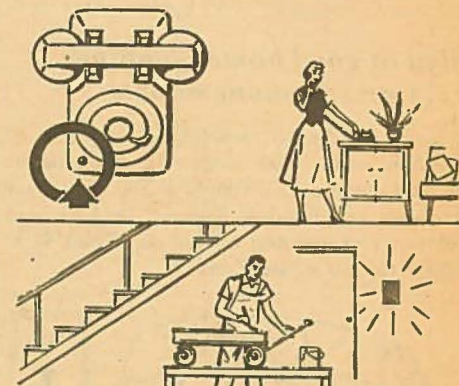

"This call's for you"

With a push-button phone you can signal someone in another part of the house to pick up a call. A touch on the button tells Dad to take a call on his workshop phone. No yelling or running up and down stairs. Can be wired for several uses . . . to pick up a second line, as a cut-off key, etc. Charges vary with features selected.

No "missing persons"

Additional listings make it easy to find all members of your household . . . daughter, son, mother-in-law. Important if persons of another surname live with you. Helpful if there are many listings in the book with the same last name as yours.

answers when "nobody's in!"

A telephone answering and recording set takes calls and records messages when you're away from home or office.

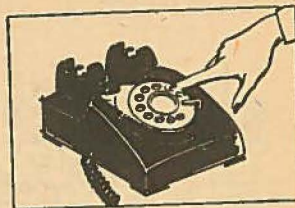

Sign of good home planning
. . . neat telephone outlets

If you're building or remodeling, consider your telephone needs. Plan telephone locations as you do light outlets. Call Ohio Bell and ask for the Architect and Builders Bureau. Or have your contractor or architect contact us. There is no charge for this advisory service.

Dial
in the
dark . . .

Two types of illuminated dial phones enable you to dial with ease in dark or dimly lit rooms. Lift the receiver and a light goes on over the dial. One type has a faint night light so you can find the phone easier.

gives you a free hand

The Speakerphone gives you "hands-free" talking . . . no need to hold the phone. A microphone picks up your voice; you hear your caller through a small loudspeaker (about the size of a cigarette pack). Hands are free to make notes or consult records. Can also be used in the conventional manner when you want privacy.

FREE PROGRAMS for your GROUP!

Lining up entertaining, informative programs for clubs and organizations is as easy as dialing your phone!

A number of telephone men and women have developed a series of lively and entertaining lecture-demonstrations.

Some of their stories are illustrated with props and remarkable gadgets. Some are about interesting people.

Many give the members of the audience some wonderful tips on improving their own lives and personalities. All are lively and entertaining. Here is a list of the free lecture-demonstrations currently available to astound and delight your group:

THE MAGIC AGE OF TELEPHONY

Scientific marvels in the field of communication . . . some just around the corner . . . others still a few years away are graphically demonstrated. You'll enjoy a look at things to come.

YOUR TELEPHONE 1965

A few twists of the dial and you will be in contact with any one of the nation's 58 million telephones. That's the amazing phenomena in store for the American public. Through audience participation the complexity of modern-day communications is dramatically explained.

TELEVISION TRANSMISSION

See how the miracle in your own living room is brought to you . . . how voices, music and pictures fly through the air with the greatest of ease.

SOMETHING NEW UNDER THE SUN

The Bell Solar Battery fulfills the dream of centuries . . . harnessing the power of the sun. Learn how the sun's energy is captured, stored and used. See that energy activate various gadgets.

THE TRANSISTOR STORY

The story of science's "mighty mite." Hear about some of the miracles of miniaturization which the transistor has brought to communications . . . and will bring to other fields as well.

TELEPHONE TOURS, TOO!

Tours of our telephone offices can be arranged, too. Instead of bringing the program to you, we invite you to bring your group to the telephone building to see for yourselves what happens when you make a call.

All these good things are free . . . arrangements are easily made

The Newcomerstown Story HISTORY

Newcomerstown is situated in Tuscarawas County, and was first an Indian town called, "Gekelamukpechunk," which in 1764 under Chief Netawatowes became the Delaware capital.

The earliest visit by a white man (Christopher Gist) was in 1750. In the Gist journal it tells what must have been the earliest account of the "Eternal Triangle" and how Newcomerstown got its name. Chief Eagle Feather became tired of his wife Mary Harris, who as a child had been abducted by the Indian raiders. While on one of the tribe's raiding trips to Virginia he captured a younger and more beautiful squaw. Mary Harris became jealous of the "Newcomer" as she was called. One morning the Indian village was aroused by the cries of Mary Harris that her husband Chief Eagle Feather had been murdered, and that the "Newcomer" had fled. She was pursued and re-captured at a small town on the banks of the Tuscarawas river and this town was thereafter always known as Newcomerstown.

Newcomerstown was laid out in 1827 and contained 34 lots in original plot. There was one building when first plotted, occupied by Nichols Neighbor, who founded the settlement in 1814. He later built the first store building, which was operated by him and Jacob Overholt. By 1830 there were four buildings, by 1840 population was 270, by 1860, 577. Aaron Schenk's tanning yards were built about 1827. In 1840 Pilling's woolen mill was established, in 1833 a saw mill by Edmund Smith and in 1836 a flour mill. Closest market for farm produce was Pittsburgh, Pa. The Canal was built in 1827 and by 1860 the traffic on the canal was at its height. Each lock had

a tender and nearly every lock had a strange story connected with it—it was a strange and interesting period in the life of the young community of Newcomerstown.

On May 31, 1851 it was announced that the route of the Steubenville-Indiana Railroad would travel from Steubenville, Uhrichsville, Newcomerstown to Coshocton. It opened for traffic April 1855, but before 1860 passed into receivership. In 1861 it merged with the Pennsylvania Railroad. Greatest of all events connected with the Railroad was in 1861 when President Lincoln passed through on his way to Washington, making a personal appearance on the rear platform of the train just as they do today. During the 80's the town hall was built and this brought many prominent actors and musicians to the town.

In the latter part of the 19th century Newcomerstown instituted what became a thriving fair each fall. The fairgrounds are now owned by Mrs. John Kistler. Newcomerstown may be called the cradle of Protestantism west of the Allegheny mountains and the first protestant sermon was delivered to assembled Delawares at noon on March 14, 1771 by the Rev. David Ziesberger. This event of lasting importance is commemorated by a monument that stands across from the Greyhound Posthouse. Newcomerstown lies about 100 miles south of Cleveland, 100 miles east of Columbus, 100 miles north of Marietta, and 100 miles west of Pittsburgh.

Industries

The Heller Tool Co., Subsidiary of Simmins Saw & Steele Co.—Files and tools; James B. Clow & Sons—Radiators and fittings; Seiberling Rubber Co.—Plastic; Alchrome Products Co.—Brass Plumbing fixtures; Cases Inc.—Wood products; Goshen Brick & Clay Corp.—Face brick; John L. Buss—Burial Vaults.

Labor

Plenty of good labor (men and women) and diversified skills.

Telephone

First Telephone was installed about 1896. There are now over 2,600 telephones in service.

Transportation

The main line of the Pennsylvania Railroad from New York through Columbus to Chicago and St. Louis passes through Newcomerstown, furnishing both freight and passenger service daily in each direction. The Cleveland and Marietta (branch of Pennsylvania) has freight service only. One bus line, the Greyhound, which has eighteen to twenty buses in and out daily. Three truck lines: The White Transportation Co., Corbett Motor Express and M. & M. Truck Co. Local transportation by taxicab.

Water

Water is furnished by the municipally-owned Newcomerstown Water Works System which obtains its supply from two new wells located at the pumping station on East State St. The water is non-corrosive. The average daily pumping is 333,000 gallons and the allowable surplus for industrial expansion is about 900,000 gallons per day; however, provisions have been made that one more pump can be installed and that would increase the surplus to 1,600,000 gallons per day. The Water Works carries a reserve of 1,000,000 gallons in the reservoir. The pressure in the system is 110 pounds per square inch; this is very good from the standpoint of fire protection. The fire department does not have to use a pumper. The water rates are one of the lowest in the United States.

Aids to Proper Mailing

Write name and address plainly and completely. Place name and address of sender on all matter. Prepay postage fully on all letters and parcels. Always address mail

for city delivery to street and number and request correspondents to do likewise. Use designation North or South, East or West when it is a proper part of the address and save delay in delivery. Insure valuable parcels.

Packing & Wrapping—Pack articles carefully and tightly in strong durable containers. Wrap and tie packages securely with good quality paper and cord, but do not seal them except when bearing printed, typewritten or written endorsement: "Contents, merchandise. Postmaster—This parcel may be opened for postal inspection if necessary," together with the name and address of the sender.

You will often gain a day's time in delivery by using local and out of town labels and depositing mail at the Post Office as soon as it is ready.

SOME IMPORTANT TRAFFIC SUGGESTIONS

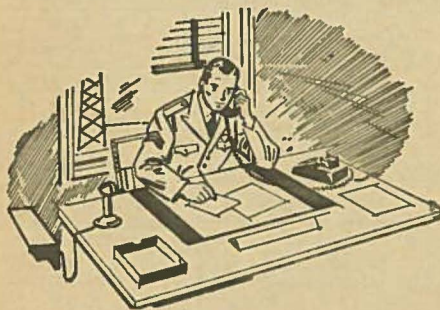

From the Police Department

FOR PEDESTRIANS:

1. Never run across a street.
2. Use the crosswalks at intersections.
3. Look in both directions before stepping from the curb.
4. Stay on the curb until the light turns green.
5. Be careful if you walk from behind parked cars.
6. Face oncoming traffic when walking on the highway. Move off the road when a vehicle approaches.
7. Carry a flashlight if you must walk on the highway at night.

FOR DRIVERS:

1. Give the pedestrian a break, even though he may not have the right of way.
2. Come to a full stop at a "stop" sign.
3. Signal before turning or coming to a stop.
4. Drive with extra caution on rainy or icy pavements.
5. Stay within the speed limit.
6. Check your car frequently. Be sure brakes, tires and lights meet safe operating requirements.
7. Remember—the driver's responsibility is greater than that of the pedestrian.

THEY COST THE SAME!

Have Both In Your New Home

The well-planned modern home includes built-in telephone outlets . . . no more exposed wire on new walls. Concealed telephone wiring adds only a tiny amount to your total wiring bills, yet pays big dividends in convenience and neatness. The telephone company will help you or your contractor plan this wiring without charge.
