THE COVER

The traveler who is planning a trip to the Pacific Northwest will find scenes such as this awaiting him. Fisherman views beautiful Mt. Ranier towering over the forests.

The President's Page

In July of each year I try to give our employees a report of the progress we have made during the first six months. This year, contrary to the last two years, the report is an encouraging one. The upsurge in industrial activity that has affected most companies has been felt in Clow & Sons, too.

Despite a very slow start in January and February, the dollar value of our shipments in the first quarter of 1959 was about equal to the first quarter of 1958. The real start towards a good year was in March. You will recall that during the months of January and February we had some very severe weather and our customers could not or would not release their orders for pipe and other materials. The demand for Clow products that started in March has continued throughout the second quarter and, barring a prolonged steel strike that would tie up the entire construction industry, we think will continue throughout the summer into the late fall. Thus, the estimate for the results of the year 1959 looks promising.

It is interesting to note the effects of inflation! In June of this year our Clow & Sons' total dollar billings were the highest for any month in our history, yet our total tons of cast iron pipe shipped in June of 1956 (our next largest month) exceeded by 3087 tons the total tonnage shipped in June of this year. At the same time, our percentage of profits to sales for the month of June 1956 was 20% higher than in June of 1959. This indicates that we should be cautious in using the dollar results as the only measurement of our progress. We should be alert, too, to the effects that the so-called "creeping inflation" is having on our company earnings. Keen competition prevents us from raising our selling prices to reflect the ever increasing cost of materials, services, salaries, and wages. Thus, our earnings probably will not keep pace with our increase in dollar sales volume.

While the Jobbing Division figures are included as part of Clow & Sons, the pattern for their sales follows closely that of cast iron pipe and foundry products. Total dollar sales are up about \$100,000 more this year than they were in the first six months of 1958. Pre-tax profits expressed as a per cent of sales, however, are down 45%. The month of June shows a distinct improvement in total dollar volume as well as the pre-tax earnings.

GORDON W. JOHNSON
DIRECTOR OF RESEARCH

August 1st, Gordon W. Johnson assumed the duties and responsibilities of Director of Research for the Company.

Gordon, his wife, Ruth, and their two daughters, Lyn, 14, and Claudia, 11, relocated from Granville, Ohio, to Coshocton where the research facilities are situated.

He is a native of Harvey, North Dakota, where he attended grade school and high school. Upon graduation from high school, he attended the University of Minnesota and was awarded a B. S. degree in Chemical Engineering. He has met many of the requirements for a Master's Degree and hopes to someday complete those yet outstanding.

Gordon comes to us with a wealth of experience in the chemical and metallurgical fields. He has acquired this experience from previous association with the American Hoist and Derrick Company, the Armour Research Foundation, Vanadium Corporation, and the Malleable Research Foundation.

We extend our warmest welcome to the Johnsons.

SPECIAL
RECOGNITION

The following were awarded the Clow Service Pin in July:

ROSS DICKEYCOSHOCTON.....20 YEARS
DAVE NELSONCHICAGO.....20 YEARS
W. L. COKERNATIONAL.....20 YEARS
BERT E. FULMERNATIONAL.....10 YEARS

SAFETY

Here are the points-to-date in the
Annual Safety Contest

For June:

- COSHOCTON 307.60
IOWA VALVE 307.60
EDDY VALVE 256.85
NATIONAL 254.60
BENSENVILLE 91.35

BE CAREFUL DURING "PEAK TRAFFIC" HOURS

You and a lot of other people enter the plant grounds, eat lunch at the same time, finish work together. At these "peak traffic" times, an accident can easily happen if you're not careful. Watch what you're doing to avoid bumping into others, getting hit by a car in the

parking lot. Avoid running down stairs and around blind corners to be one of the first ones outside. Be sure it's safe before you light up that smoke. Avoid indulging in horse-play to relieve tension. Don't neglect your safety, endanger the safety of others.

© AMERICAN MUTUAL LIAB. INS. CO.

Total Clow & Sons' sales for the first six months of this year show a 20% increase over the same period of last year, with earnings showing about half as much gain or nearly 10%.

The valve companies, too, are having a busy year. However, largely because of the five week strike at the Eddy Valve Co., the total sales for the year are 34% less than they were in the corresponding period of 1958. The profit picture there shows a net loss of \$10,000 for the year to date. It is expected that during the balance of the year the Eddy Valve Co. will operate uninterruptedly and by the end of the year will overcome the loss that is now on the books. Shipments for the month of June, in spite of fewer days worked, compared very favorably with June of a year ago.

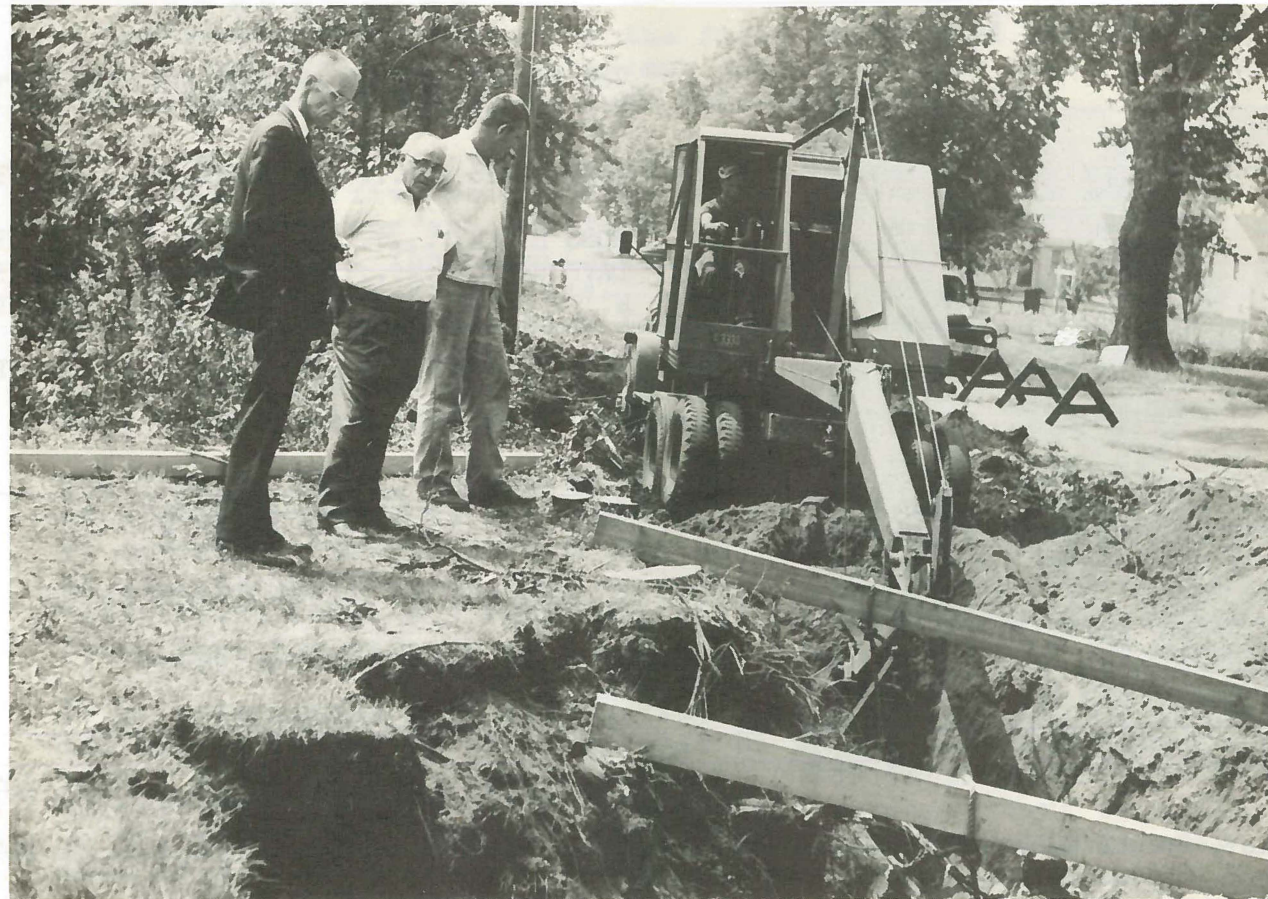

The Iowa Valve Co. shipments for the first six months show a gain of 51% as compared to the first six months of 1958. This increase, of course, is due in part to the seven week strike which took place at Iowa during May and June of 1958. It is expected that Iowa Valve Co.'s sales and shipments will continue at this high rate throughout the balance of the year.

It is unfortunate that competitive conditions within the valve and hydrant industry are such that it is almost impossible to make a decent profit. With several of our important competitors trying desperately to stay in business, taking orders regardless of the price, they are setting the price pattern that we must meet if we are to get our share of the going business.

As most of us know, Clow & Sons' fortunes follow pretty closely the ups and downs of the construction industry, particularly the residential activity - new housing starts. Forecasters have estimated a total of 1,200,000 for the year 1959. It looks as though this figure would be fairly accurate. That being the case, we can expect a continuation of high demand for our products for the next few months with a tapering off in the late fall or towards the end of the year.

John Madden

SALESMEN'S SECTION

Observing and supervising construction at Rock Falls, Illinois, are Supt. Clyde Robbins of Sterling, and Supt. Leonard Skaggs, and Job Supervisor Bill Wyatt of Rock Falls, Illinois.

Rock Falls, Illinois Completes Unusual Pipe Operation

BUD KESSLER

As part of a major water works improvements, for which Clow is supplying 80,000 feet of Bell-Tite pipe, 250 gate valves and 112 fire hydrants, the City of Rock Falls found it necessary to lower an existing 759 feet of 8" Mechanical Joint main a maximum depth of $4\frac{1}{2}$ feet. The main, installed 25 years ago, was lowered to accommodate a street widening project which necessitated this change in grade.

Demonstrating the versatility of cast iron pipe, the entire length of main was lowered, as shown in the photographs on these pages, without taking water pressure off the line, and without interrupting water supply to residents served by this main.

We are indebted to Bud Kessler, who has recently moved from Ripon, to East Troy, Wisconsin, for these interesting photographs, and for his good sales work on this Rock Falls project.

The method used to lower main is shown above, with the supporting lines tied to wooden beams across the open trench.

Below, shows pipe, ready for lowering into trench at new grade.

Below, the main in its new trench at new grade, ready for backfill, to complete the project.

IOWA ITEMS

by Con Coupland, Jr.

BUILDING PROGRESS

The most noticeable improvement made during the vacation shutdown period was the installation of a steel fence completely around the company property. During the shutdown period the installation of concrete storage slabs was completed on the east and northeast side of the plant. Progressing into the plant, one would find a completely new brass foundry in operation.

There was a lot of work involved in all of these projects and, in particular, the engineering department and maintenance department are to be congratulated on the excellent job they have done with the brass foundry.

This is the way our Brass Foundry appeared when everyone left for vacation.

HOSPITALIZED DURING VACATION

DALE LEATHERMAN'S vacation came to an abrupt halt at Minden, Nebraska, where he was hospitalized for an emergency appendectomy. Dale has recuperated satisfactorily since that time and expects to return to work within a few weeks.

MELVIN KENNEDY made a hurry-up return from Wyoming to enter a local hospital for observation and treatment. Fortunately he was not required to undergo surgery.

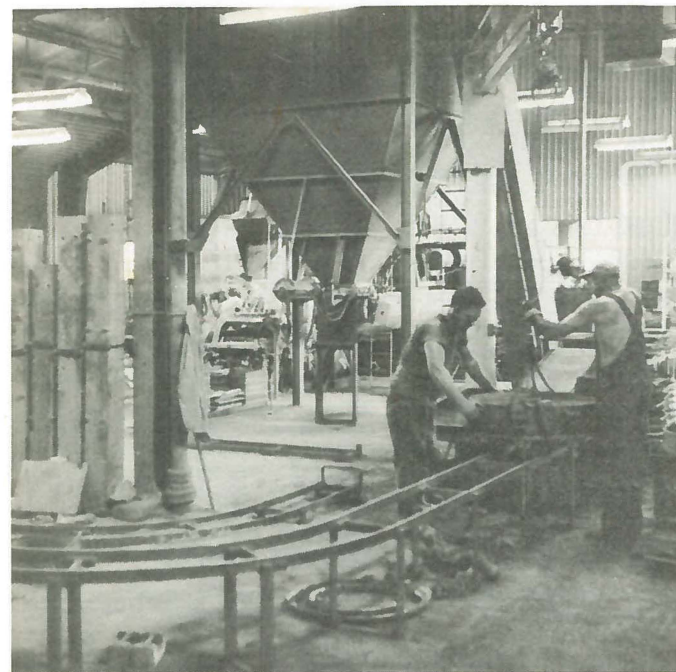

HAL UTTERBACK had the misfortune of stepping on a nail which almost passed through his foot. It was a very painful wound and at the time of this writing Hal has not been able to return to work.

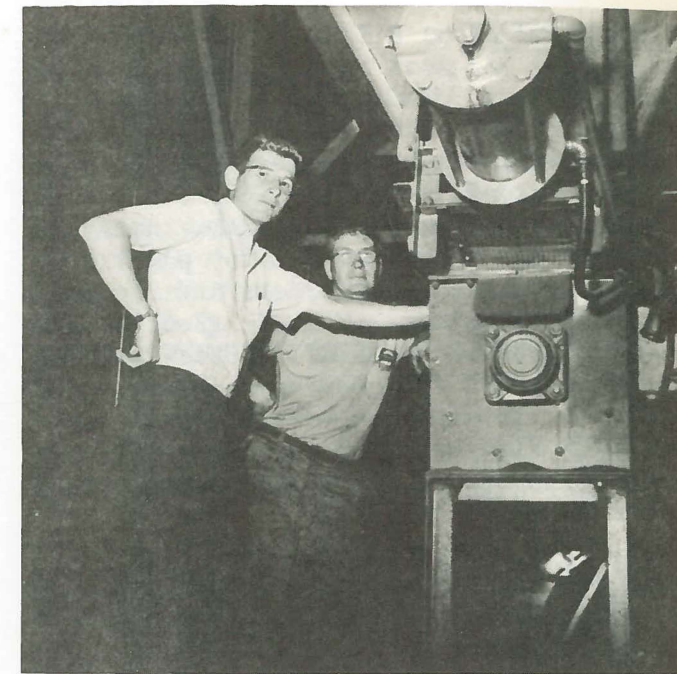

This is one of the views of the new Brass Foundry showing Bob Fisher operating the squeeze molding machine.

TV PERFORMER

We have just learned that we have a TV performer in our midst. MARVIN KATKO appears each Friday night over television station KTVO Ottumwa at 10:15 p. m. Marvin plays saxophone with one of the Ottumwa bands.

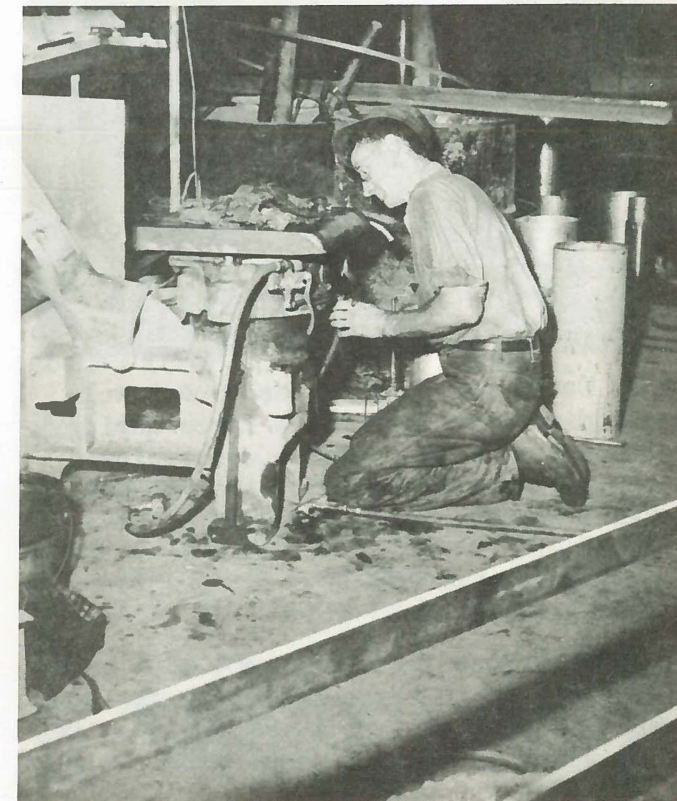

Don Padgett and Floyd Doty may be seen here using the new shaker which automatically returns the used sand to the huge sand bin shown in the background.

Credit for the layout for the new brass foundry goes to Carter Crookham, foreground, while installation was done by Joe Gasperi and his maintenance crew.

Part of the new brass foundry layout includes this abrasive cut-off unit operated by Lee Moffit of our machine shop.

Harry LeMay is our most recent addition to the maintenance crew and in this picture is shown working on the installation of another squeeze molding unit.

VACATION PERIOD

There was very little news in and about Iowa Valve last month due to the two week vacation shut-down which began at the end of the day on Friday, June 26th and was terminated on Monday, July 13th. A skeleton force was maintained at the plant to take care of emergency orders and necessary office routine. We were glad to welcome back BONNIE DAUGHERTY BUCKLEW who took a week off from her home chores to help out. It was also very pleasant having ALICE KLYN back for approximately three weeks during which she helped out in the sales department.

Bonnie Daugherty Bucklew was a most welcome addition to the office force during vacation shut-down. Bonnie was employed in our office for 14 years prior to her assuming the role of housewife.

VACATION TRIPS

Almost everyone took some sort of a trip this year and in these following paragraphs we will attempt to report on only a few which were heard about prior to this publication.

EVERETT SHELTON and family had a very enjoyable trip through the Ozark Mountain area of Missouri.

Iola Lytle, our most ardent fisherwoman, displays her catch of walleyes which she caught at Lake Kabetogama, Minnesota

In addition to their other travels RALPH and Mrs. HITE stopped by our Bensenville plant for a brief visit.

LEROY and Mrs. WYMORE also visited the Bensenville plant after a more extensive trip east.

Other California visitors were HOWARD and Mrs. LANPHIER who thoroughly enjoyed, along with their daughter, their trip to Disneyland.

LEE GRANDIA and ED and Mrs. MOORE visited Walter Fuller (ex-machine shop employee turned farmer) at his Wisconsin farm.

EMIL BERGLUND'S spent a portion of their vacation at the Minnesota lakes. Their vacation was interrupted by cold and rainy weather and they returned home to spend the rest of the time working on their new four acre homesite.

The FARRELL SCOTT'S spent their vacation in California where they visited his mother. They were accompanied by one of our retired machine shop employees, CLYDE DYE.

TOM VOSS and LARRY HIGHTOWER sacrificed their vacations this year in order to repaint their homes.

One of the highlights of the Howard Lanphier's family visit to California was this stop-over at Disneyland. Shown here is 7 year old Connie Lanphier posing with one of her animal friends.

The ELDON WILEY'S toured Colorado.

Indiana and Detroit were the objectives of ELMER and Mrs. MARSHALL'S trip.

FLOYD and Mrs. McCALL toured North Dakota in their new Ford.

BOBBY and Mrs. JOYE, after a 15 months absence, visited Bobby's parents in North Carolina. Bobby's brother returned with them to enter Penn College for the fall semester.

DUANE and Mrs. JOHNSON spent their vacation visiting in Arkansas.

BUD and Mrs. SMITH report a very enjoyable trip into Missouri.

The JACK SUITERS probably had one of the longest trips this year when they toured Canada.

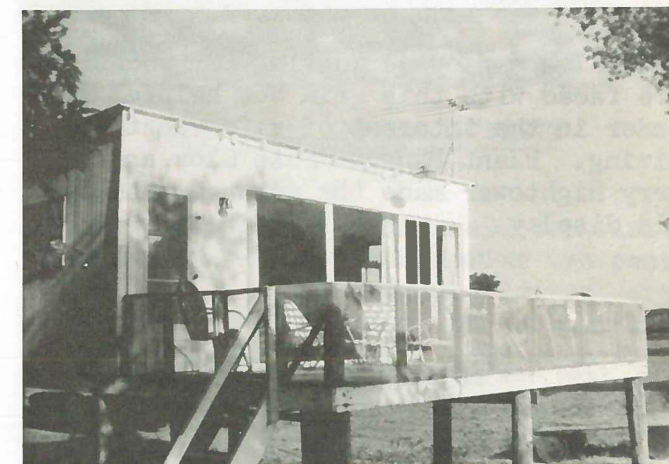

The WILLIS WILLS' spent their vacation in the Black Hills of North Dakota.

The CLARENCE HOLLIDAY'S spent their vacation traveling to and from the west coast.

The GEORGE YOUNG'S vacation in Minnesota was interrupted immediately after arrival by the news that George's mother had suffered a paralytic stroke which required their immediate return home. To add to their misfortune, George Junior was involved in an accident the following week which caused him to lose one finger of his left hand.

JIM BURGER and Mrs. Burger spent most of their time visiting in northern Iowa.

The bravest of our vacationers, we think, was J. D. McCARTIE who rode his motorcycle all the way to Memphis, Tennessee.

Darlene Den Hartog and husband Hank spend all their spare moments at this attractive cottage which they have built on the Des Moines River just west of Ottumwa.

GOLF

All golfing competition was suspended during the vacation period but was resumed during the week of July 20th. The results of this competition will be reported in the September issue of Iowa items.

FRED GEGNER passes this gem along as an aid to knowing when to concede a putt:

Inches	% of Misses	Do I Give?
2	1 to 2000	Aye
6	1 to 400	Be generous
10	1 to 182	Be canny
12	1 to 123	Play golf

Iowa Valve employees leaving for vacations were faced with this grim but helpful reminder in the interest of safe vacation driving. Plant Manager Pete Clow and Larry Hightower made the arrangements for this display.

SICK LIST

TONY McMAINS is one of the most recent additions to the sick list. After having been referred to Iowa City, Tony is under the medical care of one of our local physicians.

BYRON THATCHER wound up his vacation with a back ailment which promises to keep him off from work for a period of two or three weeks.

DICK THOMAS, on June 17th, suffered a mishap while riding his motorcycle. The result is a broken ankle which kept him from work for about 6 weeks.

CHARLES MOORE is still under the doctor's care with a badly fractured arm incurred when he was struck by an auto last March. Our latest report is that he will be off for another 3 or 4 weeks.

We were glad to welcome back to work from the sick list, BERT BOUDRIE and ARCHIE BRADEN.

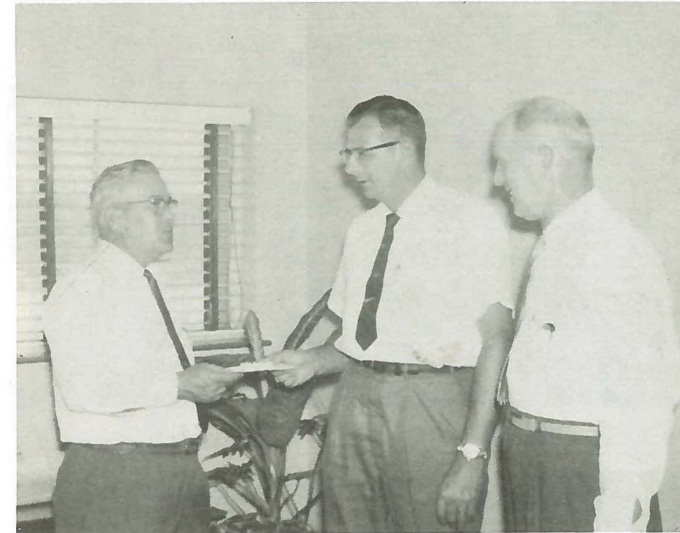

The July 4th holiday was celebrated in fine style in Oskaloosa with a street square dance in the evening. Iowa Valve was very well represented by the square dancers shown above. They are Bob and Mrs. Grandia, Kenneth and Mrs. Stewart, Jim and Mrs. McCombs, Leland and Mrs. Rinehart and Melvin and Mrs. Clark.

The man with the pleased look is Melvin Clark posing with his wife Betty.

BENSENVILLE BULLETIN

by Rod Phillips

10 YEAR SERVICE PIN AWARD

WALT LOEW, recently completed 10 years service with Clow and is shown above receiving his award and congratulations from ED WHITE as HUNTER PHILLIPS looks on.

WALT began his career with Clow in June of 1949 at the Coshocton Works. In October of that year he was transferred to Newcomerstown and remained there until December of 1952 when he returned to Coshocton. WALT remained there in the Engineering Department until his transfer to Bensenville as Assistant Works Manager in January of 1958.

Our congratulations to WALT, on his 10 years of service.

WEDDING BELLS

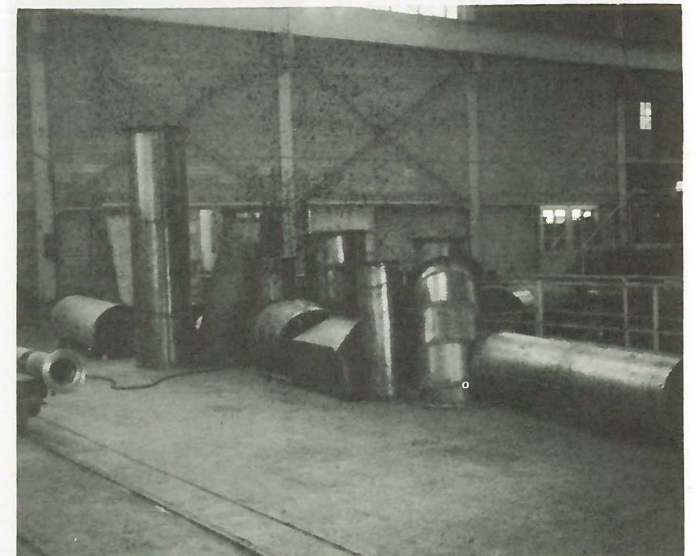

JACK POWERS, of our Production Department, was recently married to Darlene Appleby. The newlyweds spent their honeymoon in Texas.

Congratulations to JACK and DARLENE and may they have a lifetime of happiness.

COSHOCTON EMPLOYEES VISIT BENSENVILLE

We were pleased to welcome all the visitors from the Coshocton Works during the past month. Some of the welcome visitors are shown above taking a tour of the plant.

DUCT WORK FOR CUPOLA HOT BLAST

The past month saw the completion of the installation of the Hot Blast in the Cupola Department.

This project was completed during vacation shut down

In this month's issue we would like to introduce the brother combinations here at Bensenville and hope in the years to come, others, too, will follow this fine tradition.

HAROLD and DONALD HOWELL

DICK and DAVE HELMS

HERMON and CLAUDE HERRON

INTRODUCING NEW BOWLING OFFICERS

HAROLD SCHLARB is shown above announcing the results of the election of new officers at the bowling banquet.

Officers are:

President: SHARKEY YANAI

Vice President: DON DETMER

Secretary: HAROLD SCHLARB

Treasurer: FRANK CHAVEZ

Congratulations and best wishes for the coming year.

BOWLING BANQUET

During the past month, one of the big events was the bowling banquet held at the Red Coach Inn in Bensenville.

The election of officers preceded a wonderful dinner and an evening of social activity.

This banquet marked the end of the first and a very successful bowling season at Bensenville.

We wish to express our appreciation to Management for making this event possible and to everyone for the interest and co-operation shown throughout the year.

DEL and RANDY MEDDINGS

WALT and RICHARD PAPKE

of NATIONAL INTEREST

by Scotty Kelley

Above left, JAMES LAYTON displays his diploma upon graduating from a course in Electrical Maintenance.

Above right, J. B. BRAND, Jr. presents JACK HARRIS with a check from the Company for completing and graduating from an I.C.S. course.

C. C. SALVAGE, left, Chairman of the Education Committee for the American Foundrymen's Society, passed out diplomas to, l. to r., JOHNNY DUNNAVANT, DAN FORTENBERRY, RED ROTTON, JAMES TAYLOR, BILL COLLINS, JACK HARRIS, VAN PARKS and J.R. MOORE.

SYMPATHY

We are sorry to report that BILL WAINE passed away June 14th in a local hospital. BILL was our prize foreman in the deLavaud Foundry, and was with Clow for 34 years.

We send our deepest sympathy to his family.

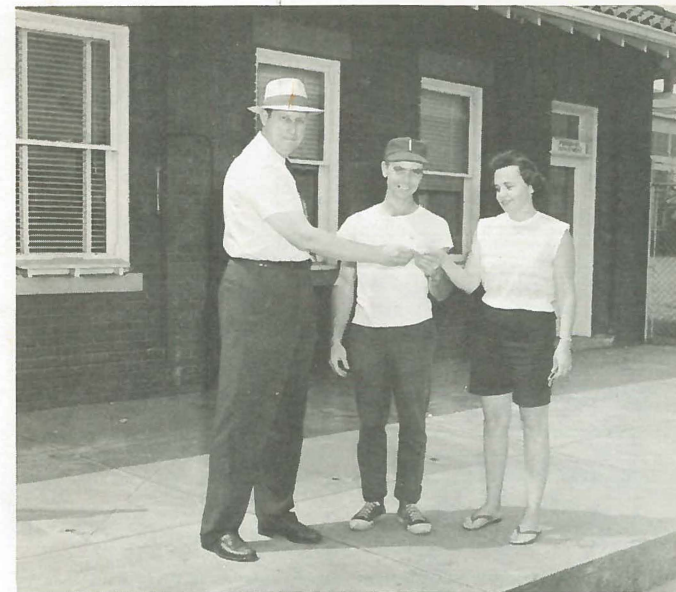

BACK TO SCHOOL

Recently two National Works employees completed courses of study related to their work. JAMES LAYTON, lead man in our Electrical Department completed a course in "Preventive Electrical Maintenance and Tests" given by the Jefferson County Vocational School. JAMES attended three months of night school graduating June 1, 1959, with honors.

JACK HARRIS recently completed an I.C.S. course in Green Sand Molding. JACK is a working foreman in our Specials Foundry and does an excellent job. He completed the International Correspondence School course with honors, with all A's. Hats off, and congratulations, JAMES and JACK, for completing difficult courses in order to further your education.

SPECIALS FOUNDRY COURSE GRADUATES

Last month MR. SALVAGE presented, at our Specials Foundry Safety Meeting, several diplomas to a number of Specials Foundry men for successfully completing a course in "Gating and Rising." The school was held on Wednesday nights at the American Cast Iron Pipe Plant. Congratulations for starting and completing this course to help you in your jobs, and to help the Company.

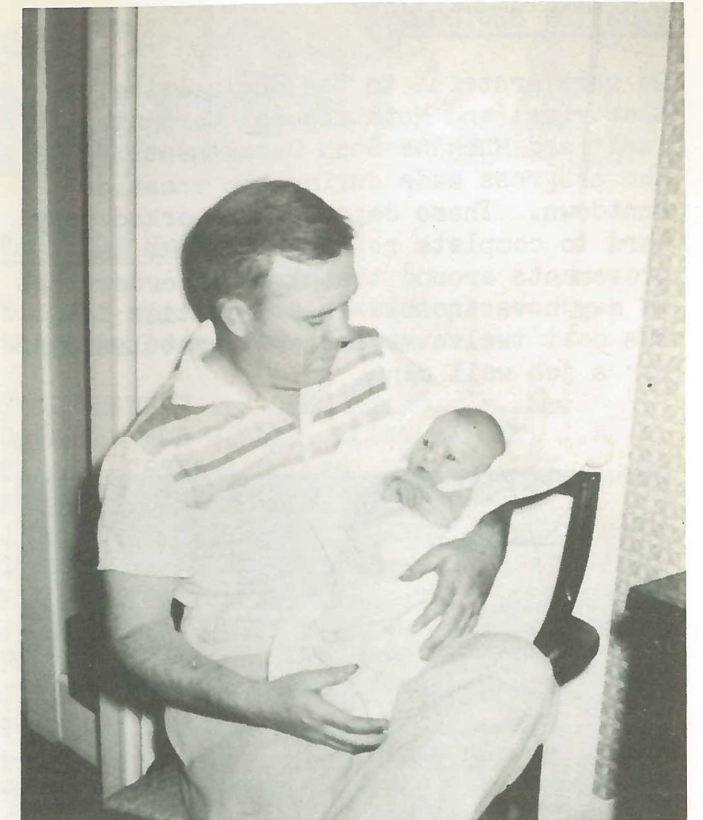

M.D. NEPTUNE presents TOM REESE with his 10 year service award and letter from the President. TOM'S wife, Joy, accepted the award and TOM took possession of the letter from Mr. Madden. Congratulations, TOM.

10 YEARS SERVICE AWARD FOR TOM REESE

TOM REESE came to National in 1949 immediately after graduating from A.P.I. TOM worked out of the Laboratory on research projects for several years, and in 1955 was made responsible for the operation of the Electric Arc Furnace in the Specials Foundry. TOM'S hobbies are photography, pistol marksmanship, bowling and coaching Little League ball players.

Mrs. Bonnie Vest, former secretary for PRIDE JONES, recently paid us a visit with her new baby, named Bill, Jr.

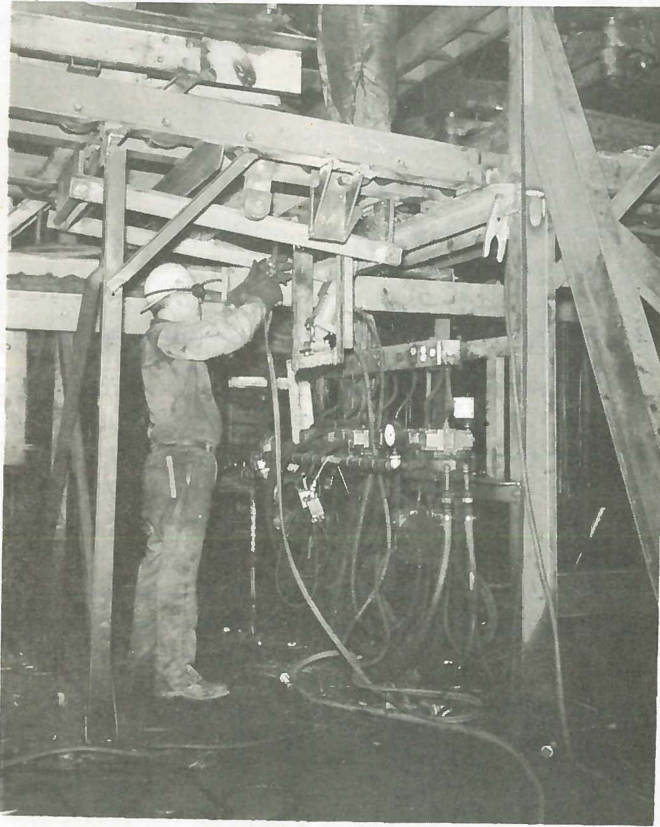

ENNIS JOINER, Welder, in our Machinist Dept. recently submitted this photograph of his granddaughter, Kimberly Taylor, born May 29, and weighing in at 8 pounds, 5 ounces. The parents are Mr. and Mrs. Freddy M. Taylor. ENNIS is mighty proud of his first grandchild.

W.C. HARKEY, left, Foreman, presents SIMON STAFNEY, Chipper, with his 30 years service award and letter from the President. Congratulations, SIMON.

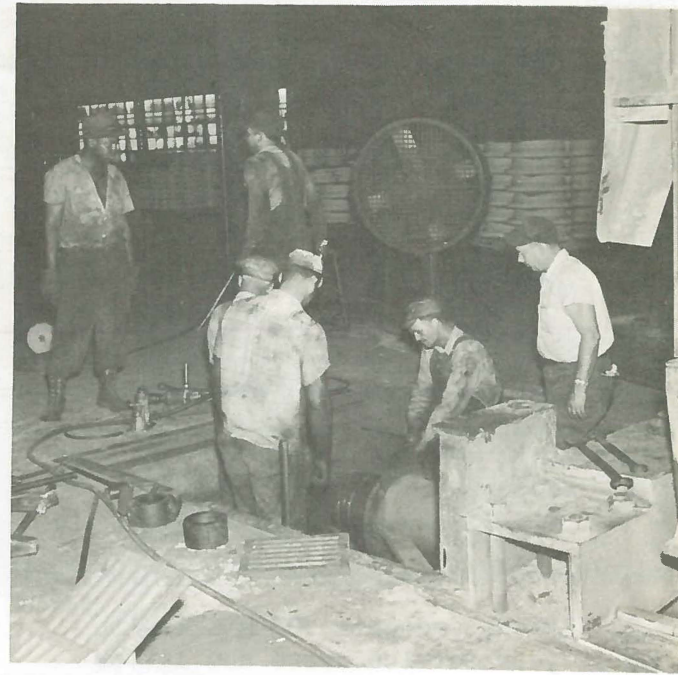

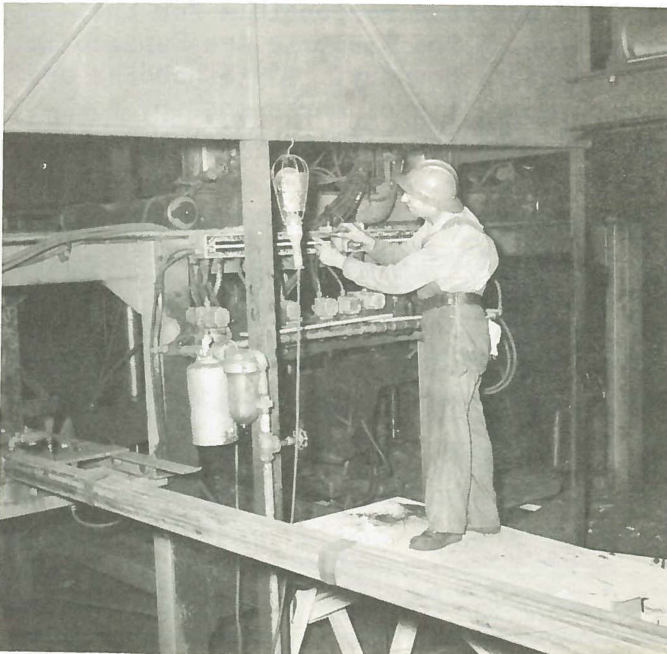

VACATION SHUTDOWN

We were grateful to the Engineering, Electrical and Maintenance, Carpenter, Yards and Machine Shop Departments for the progress made during the vacation shutdown. These departments worked very hard to complete repairs and make improvements around the plant in order that we may have trouble-free operation for the next twelve months. Congratulations for a job well done.

ENNIS JOINER, Welder for our Machinist Department, is shown working on a new flask serge conveyor that feeds flasks to the turntable operation in our Specials Foundry.

T.J. WILLIAMS, Electrician, is shown re-wiring a junction box on the automatic..... shakeout in our Specials Foundry.

In the deLavaud Foundry the Night Maintenance crew is shown installing a power cylinder piston on #5 Casting Machine. Left to right, JOHN GEORGE, GEORGE GOODWIN, J.H. ANDERSON, BILLY CORNELIUS, JOHN JACKSON and Night Superintendent BETHEL BRAND.

JAMES LAYTON, JOE SHORES, BILL HAYES and ALMOND NORRIS are shown re-wiring the flask placement station on the turntable operation and working on the flask stop in our Specials Foundry.

VACATION NEWS

Some of our vacationers and places that they visited are as follows:

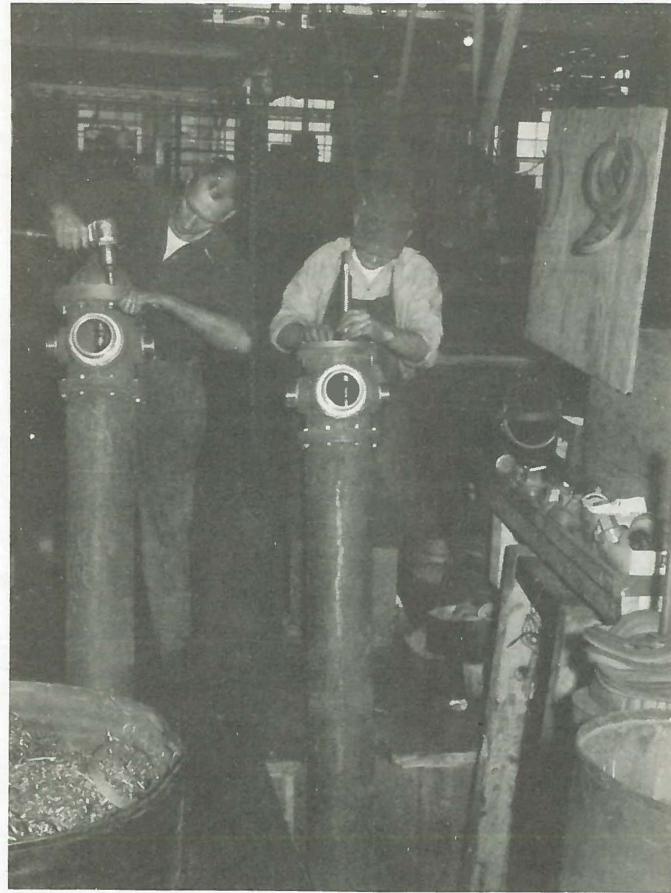

JACK BENNETT and J.B. BRAND, Jr., New Orleans; BOB MILLER, LLOYD BRYANT, J.R. BRYANT, ERSKINE COLLAR, I.D. KELLEY, AUBREY FOOTE, ERSKINE MADDOX, PAUL JACKSON, JACK THOMASON, JAMES MEADS, GENE FOOTE, sunny Florida; OZZIE MONCRIEF, M. D. NEPTUNE, California; HOUSTON SMITH, JOHN SISSON, JERRY SISSON, New York; DAN FORTENBERRY, Charleston, South Carolina; J.B. BROWN, Kentucky; FRED BUSBY, Georgia; Those enjoying the wonderful fishing resort at Elk River were, A. H. RUCKS, HOWARD BRYANT, MARVIN BRYANT, CON COUPLAND, J. H. COBB, W. L. COKER and T. W. PYLE.

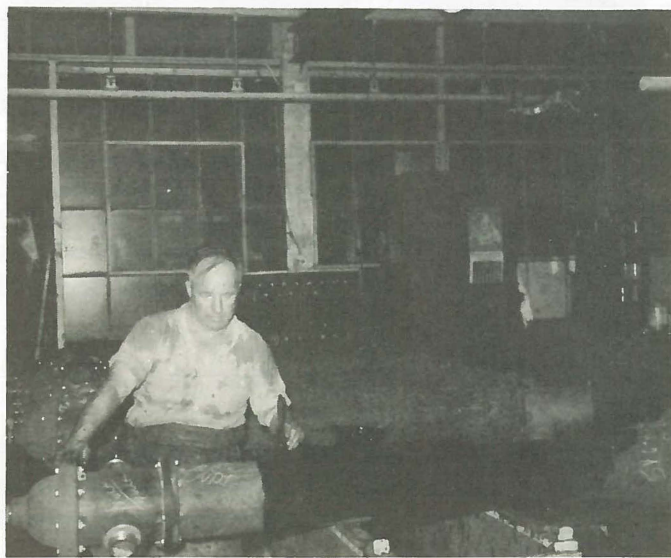

JIM KELLEY, LONNIE ISBELL, JAMES DEMPSEY, BOBBY CLEVEGER and BUDDY MCKING pause for a moment for this shot. A new coat of paint was placed on the Melting Department Crane Run.

EDDY EDITION

by Bill Roberts

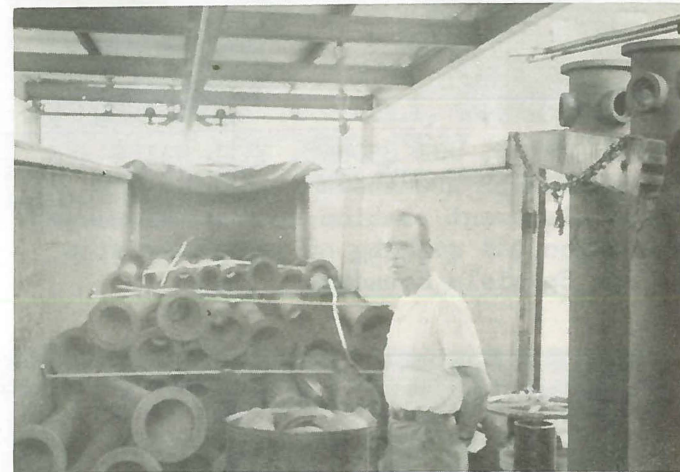

BILL RICH and JOHN CIPKOWSKI mount hydrants side by side.

ERNEST RICHARD swings a paint brush on the barrel of a hydrant pipe in the new area devoted to painting.

HYDRANT PRODUCTION INCREASED

Due to the increased demand for the Break-Flange and regular Ground-line hydrants, the Hydrant Shop has increased its production greatly. To facilitate this increase, the labor force was expanded slightly in the fit-up, mounting, painting and machining areas. A small section of land adjacent to the Hydrant Shop has been cleared for rough hydrant castings storage. This increased demand for our product speaks well of our policy of supplying our customers with a product that not only fills their needs, but also signifies their trust in our hydrants.

Hydrant Shop foreman LEE NIELSEN stands near a truck load of hydrant pipe soon to be unloaded. Here are enough pipe for two days of production.

A long row of Eddy hydrants ready for loading onto trailer vans for shipment.

R.P.I. STUDENT

A recent addition to our Engineering Dept. is BILL ADAIR who will be with us during the Summer season. BILL will reenter R.P.I. in the Fall as a third year student.

DEEP SEA ADVENTURE

ART BOYER holds aloft two 15 pound cods caught off the coast of New England while on a deep sea fishing junket in April. ART is a Patternmaker Understudy in our Pattern Shop.

BROTHERS OF THE BRUSH

ED LEMROW, MATT TOMARO, and BILL HOYT show off their luxurious growths of beards carefully nurtured for the past several months. These three residents of the neighboring City of Mechanicville, will participate in it's Centennial Charter Anniversary July 11 thru 18. The theme of this celebration will depict Mechanicville as it was 100 years ago.

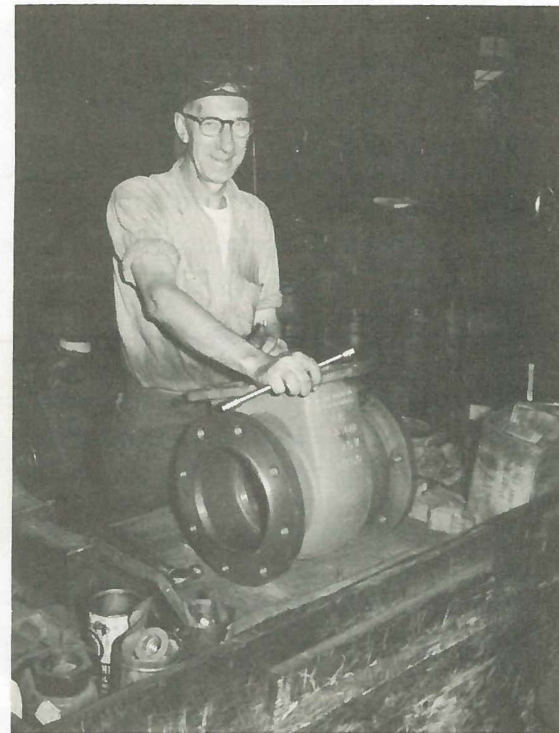

Paula Jean Bouchard smiles happily after making her First Communion at St. Joseph's Church in Cohoes. Paula is the 7 year old daughter of JOSEPH BOUCHARD of our Maintenance Department.

Sharing the spotlight with her sister is 8 months old Lisa Marie Bouchard.

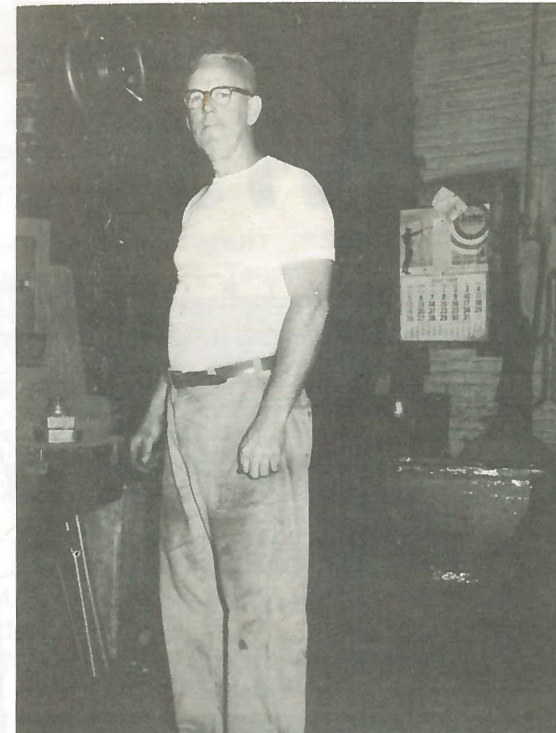

STORK TIDINGS

Congratulations to Mr. and Mrs. ABRAHAM CARUSO on the birth of their third child Louis David, born on May 20 at St. Mary's Hospital. David weighed in at 7lbs. and 11 ozs. David is the brother of Marie and Patricia. ABE is a maintenance machinist in our Maintenance Department.

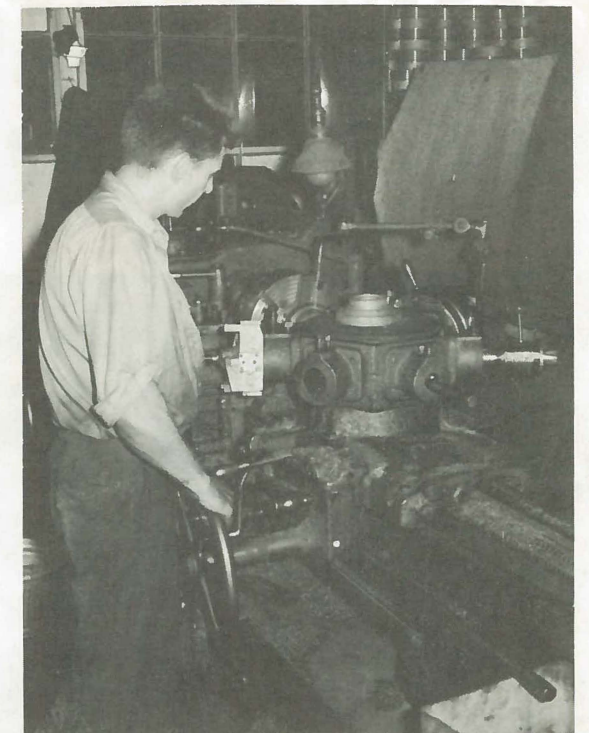

EDDY ALBUM
of
FAMILIAR FACES

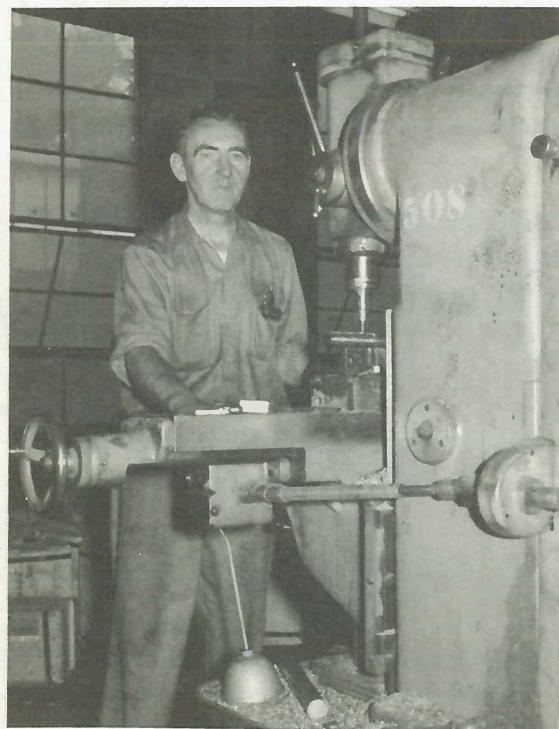

GEORGE LANE works as a fit-up man on our small valve assembly line. George has been with us since 1953.

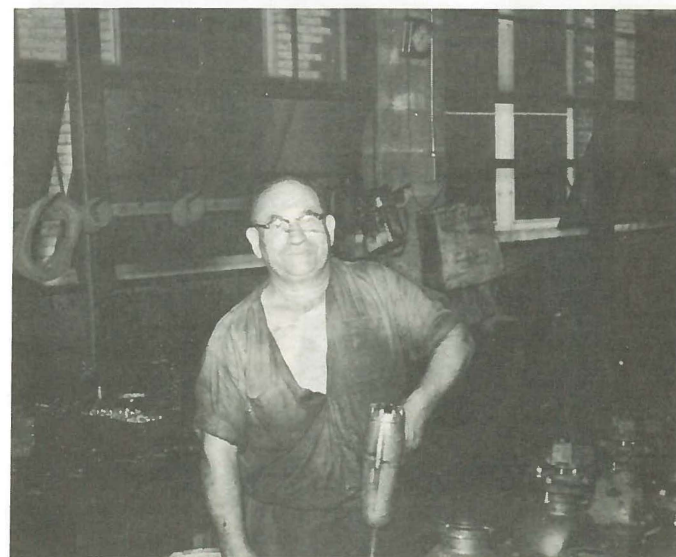

ED GOKEY operates our small boring mills on the second shift. Ed is a newcomer to Eddy having been with us about a year.

CHUCK JOHNSON is a machine operator in our Hydrant Shop on the second shift. Chuck came to us in April of this year.

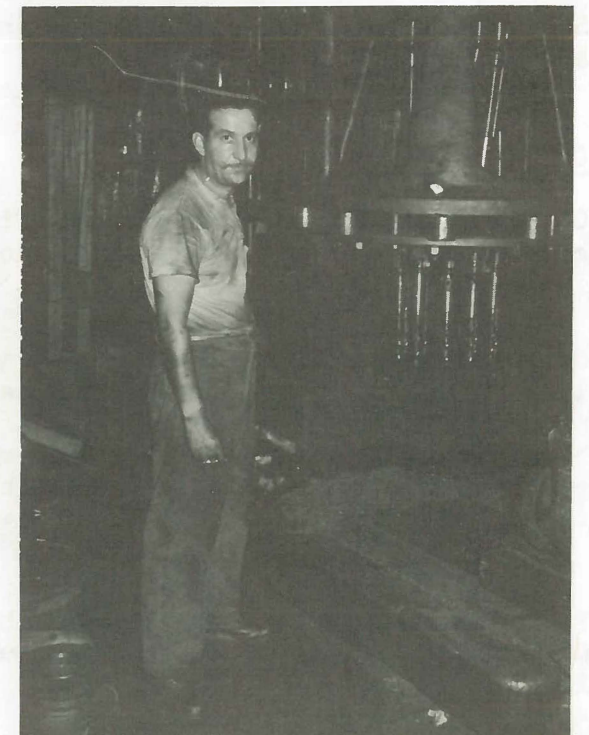

BILL SWASEY at his machine cutting a keyway in a piece of bar stock. Bill has been at Eddy since 1940.

Another old timer at Eddy is PETER ROE, SR. Peter began his employment in 1926, but left in 1933 only to return in 1935. Peter is a small valve mounter in our Valve Shop.

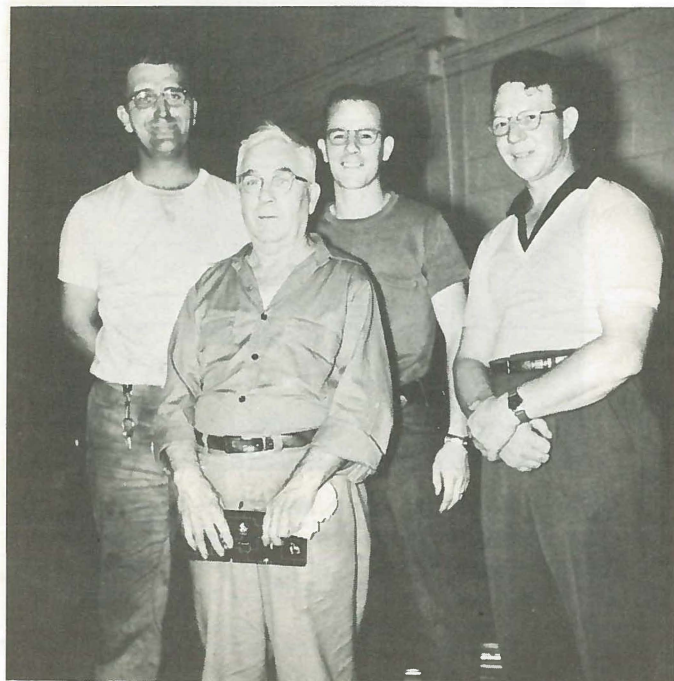

MILT SLEWINSKI and BERNEY CWENAR pause in their tool grinding duties for this photo. Milt, on the left, has been employed since 1945 while Berney has been with us since 1955.

JIM MARRA is also a machine operator on our second shift. Jim is shown beside the multiple drill machine.

COSHOCTON COMMENTS

by Jim Clow

Son-in-law Sam Guilliams, sons Raymond and Bob shown with Guy Walters.

GUY WALTERS RETIRES

On June 26th, GUY WALTERS retired after eighteen and one half years of service.

Guy was first employed at Coshocton in 1922 in the Sand Cast Shop and was employed again in 1940 to fire stoves, and became a Chipper in 1941 where he remained until 1958 when he became custodian of the bathhouse.

Two of Guy's sons are currently in the Coshocton Gang and are pictured elsewhere in this issue.

Our very best wishes to Guy for a long and pleasant retirement.

Sam Clow, Howard Sherrets, Dick Moore (Industrial Commission), and Capt. Schumaker (Coshocton Police Dept.) listening to Mr. Grennan at Traffic Safety meeting.

TRAFFIC SAFETY MEETING

As has been customary in the past few years, a general safety meeting devoted to traffic safety was held in the Machine Shop and in the Physical Test Lab on Thursday, June 25th.

Mr. John Grennan, Director of Field Services, Department of Traffic Safety, State of Ohio, was the speaker for these meetings and delivered a thought provoking message on traffic safety.

We are happy to say that once again, to our knowledge, no serious traffic accidents marred the Coshocton vacation shutdown.

SAFETY SLOGAN CONTEST

The Safety Department has announced the winners of the 1959 Safety Slogan Contest.

The winning slogan: "Safety Is An Everyday 'Do-It-Yourself' Job" was entered by LLOYD LOWERY of the Molding Floor.

The second place slogan, by PAUL GARDNER of the Maintenance Department is: "Work Safely! Lost Time is Never Found Again."

The other winning slogan was entered by GERALD BORDENKIRCHER, Maintenance and reads:

"The Man Who Thinks of Others-Thinks of Safety"

Congratulations to all who entered our contest and to these three men who were judged winners.

X-Ray Cruiser at Coshocton.

X-RAY CRUISER VISITS PLANT

357 Coshocton employees took advantage of the visit by the X-ray Cruiser sponsored by the Company and the Coshocton County Tuberculosis Society.

Slogan contest winner receives prize from Supt. Ed Haller.

Virgil Bucklew presents contest prizes to left, Gerald Bordenkircher, and right, Paul Gardner.

PIPE FOUNDRY PICNIC

Representative of the many departmental outings held during the year, was the barbecued chicken dinner at the Clow Lodge attended by many Pipe Foundry members.

Reports indicated that BILL ARONHALT and BERT WRIGHT are expert chefs.

Chief Pipe Foundry cooks, Bill Aronhalt and Bert Wright with onlookers Bill Dozier and Clarence Ochsenbein.

Dick Mackinnon, Paul Carpenter, and Denny Mills plus chicken, etc.

Ralph Albertson, Parker Thomas, and Harley Rodgers enjoying picnic.

BROTHERS, CONTINUED

As fast as our able photographer, HOWARD SHERRETS, can corral them, we will continue to publish brother groups at Coshocton.

Jim, Sam, and Bill Clow.

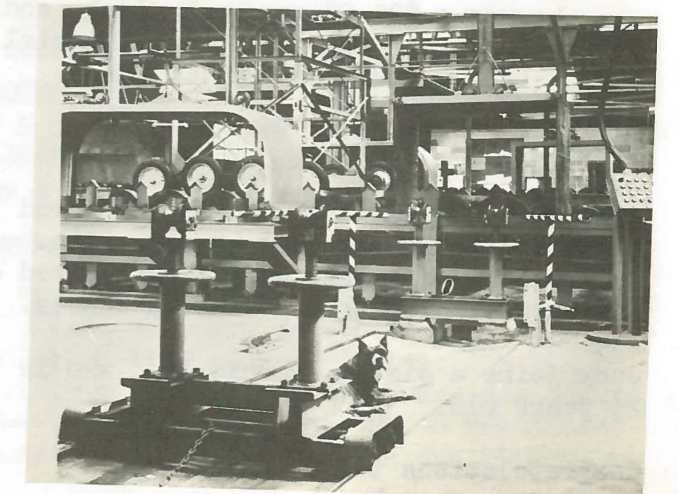

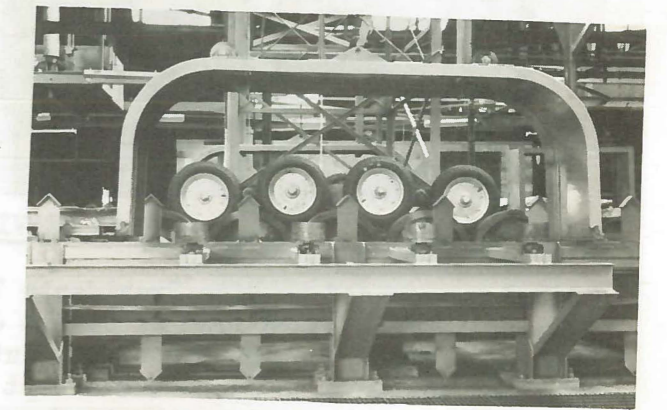

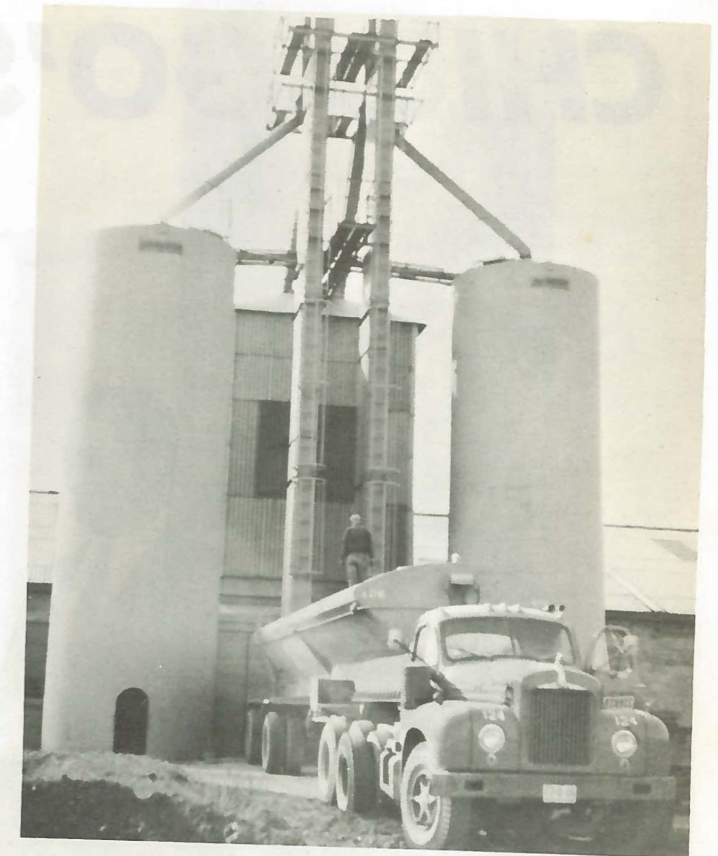

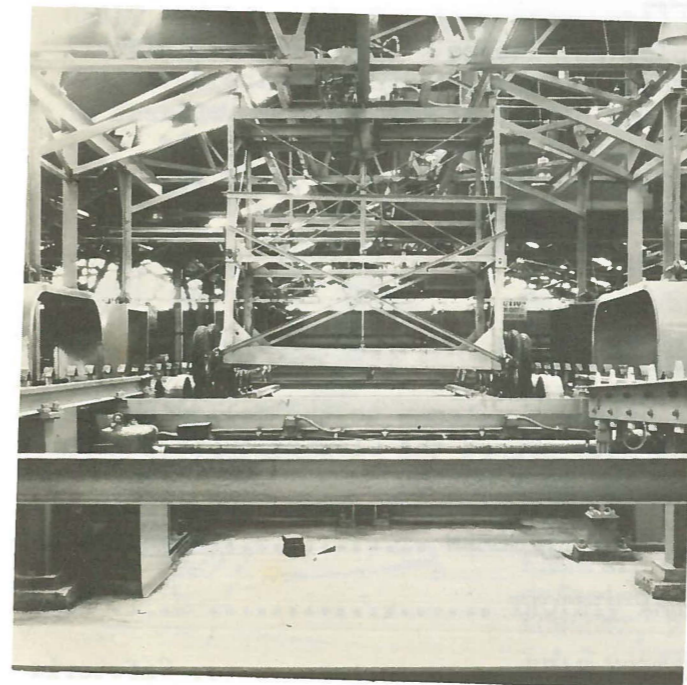

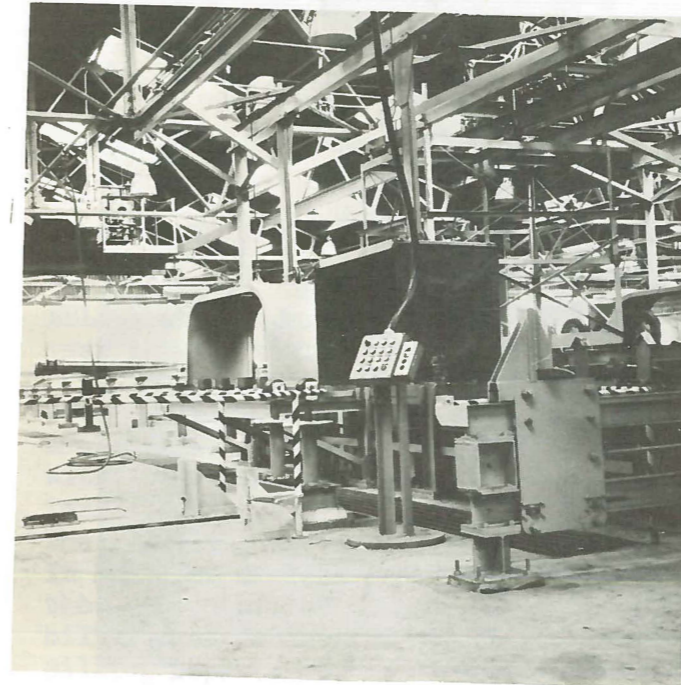

Ray and Bob Walters.

NEW FACILITIES AT COSHOCTON

The new cement lining equipment at Coshocton is now in operation and the usual facility "bugs" are being worked out of it.

Pictured here are a few candid shots of this equipment before it was put into operation. This facility was designed and constructed by Coshocton people with consulting help from Birmingham.

CHICAGO'S CHAPTER

by Shirley Larson

DAVID H. NELSON RECEIVES 20-YEAR SERVICE AWARD

"Dave" surrounded by Vice-Presidents Tom Ripley and George O'Day, receives his 20-year service award from President John Madden. July 10, 1939 was the day when Dave first took up his office duties in the Credit and Accounting Dept. He liked the work so much that except for a hitch of 4 years in the Navy, he has never worked anywhere else. The only difference being that 20 years ago he was a \$20.00 per week clerk, and now as Vice-President, Finance, he is responsible for the whole financial end of our business. We're mighty "GLAD TO HAVE YOU ABOARD" Dave!

NEW ARRIVAL

BOB and Irene HEMPHILL became the proud parents of a little girl on June 27th. This was the day that Judy Lynn arrived on the scene, weighing 8 pounds, 3 ounces.

Judy joins a sister, Bonnie Lee, who is 2½ years old.

Congratulations to BOB and Irene.

NEW EMPLOYEES

We extend a welcome to the following people who have joined the Clow organization during the last month.

BEVERLY FRIEDMAN Advertising

IRMA VIKTORY C. I. Dept.

MARION BASS Cafeteria

SERVICE ANNIVERSARY

DON LUNDELL received his 10-year service award on June 19th.

DON started in the Cast Iron Department and the Jobbing Division after which he worked in every department, under the Talman College Training Plan. Since 1954 DON has been selling for the Jobbing Division. His territory includes the entire downtown area where he contacts architects and engineers.

DON and his wife Joan (formerly with Clow) reside in suburban Norridge.

Congratulations DON!

10 YEAR SERVICE AWARD

Our congratulations are extended to GRANT NELSON who on June 27th received his 10 year service award.

After joining the Clow organization in 1949, GRANT'S first duties were associated with the Claim Department, Advertising, and Technical Service followed by four years on the road selling for the C.I. Department. In November of last year, GRANT came back to the Chicago office to accept the responsibilities of Supervisor, Foundry Claims and Billing Department.

GRANT and his wife Pat have three children, Linda 4½, Laura 3 and Grant Jr. 2. The NELSONS are now residing in their new home in Franklin Park, Illinois.

DON LUNDELL

GRANT NELSON

Some of our recent winners in the Master Match Play Tournament have been as follows:

HARRY BOWER over ROGER BROWN, 6 & 4; JOE FOREMAN defeated HANK SCHNOEBELEN 7 & 6; HOWIE NORAIN nosed out FRANK HOVINGA 2 up on the 18th; JERRY JURASEK won over BOB McADAM, 4 & 3; PETE TIMMERS won by a 7 & 6 margin over GEORGE MICHEFF.

Results in the Consolation Bracket are as follows:

GENE STRACK winner over LES LINDBERG 8 & 6; DICK SABEL over GRANT NELSON, 4 & 3; HANK STOB won on a coin toss over RUDY KREMPELS when the players tied after 18 holes; JIM HEALEY defeated MARTY BOBBER 5 & 4; GERRY KINNALLY won over ERNIE SCHULTZ, 2 up on the 18th; JAY HOAR beat CHICO MAVIGLIANO 3 & 1; JOHN RYAN nosed out TOM RYAN 2 up on the 18th.

NEWS SHORTS

Best wishes are extended to JEAN MORRISON of the Accounting Department who became engaged to Jim Miller on July 15th. The newly engaged couple plan to be married February 6, 1960.....Vacations are taking Clow people far and wide. SUB KMIECIK recently returned from five weeks in Europe. SUB got quite a "welcome-home" reception when the entire Technical Service Department greeted him at the door... ..SHARON and TOM DWYER together with DICK and Grace RINNER are spending their vacation at Sturgeon Bay, Wisconsin. DICK and TOM are associated with the Bensenville plant.....SANDRA MASTRODONATO spent a week at Fontana, Wisconsin.....PAT AMIDEI of Steno and JOANNE POLLASTRINI of Foundry Billing spent their respective vacations in Miami Beach, Florida..... BETTY REZABEK traveled to the Pacific Northwest and California for an enjoyable 3 weeks.....The BOB HAAKS took a trip around Lake Michigan, and also visited the Soo Locks at Sault Ste. Marie..... MARGE CACCAVARI spent a week at Lakelawn in Lake Delevan, Wisconsin..... MILLIE McCUEN vacationed at Crystal Lake, Illinois where she had a relaxing week.... ..JOAN REPNIKI, DALE FREDRICKSON, and SUE GRACE vacationing at the Grand Hotel in Mackinac Island, Michigan discovered they were missed upon receiving the following wire from boss, GRANT NELSON:-
 "We Are Sending You Comptometer, Typewriter and Tallies. Have Them Completed and Ready For Billing Even If You Have To Do Them On The Boat. If Dale's Fingers Get Sore, Maybe Sue Can Help."--The Boss... ..LENORA CORVI flew to Los Angeles on the new Boeing 707 Jetliner, and also visited Las Vegas.....KEN HERSTED and family vacationed in Florida..... We'd like to welcome back DAN OSKO who just spent a number of weeks recuperating from an emergency appendectomy.....

"I do believe sheep are the stupidest and ugliest creatures alive," said the newly married lady to her husband. "Don't you agree?"

"Yes, my lamb."

The cute little miss shown here is Miss Debra Joan Dubois, the daughter of BERNIE and Joan DUBOIS. Debra was born April 21st, and was six weeks old when this picture was taken.

BRIDE HONORED

On July 15th, 30 of the women in the Chicago office honored NANCY DAVIS of Purchasing, with a bridal shower.

The shower was given in the home of JEAN MARRANO who was an attendant to the bride.

NANCY and her husband Paul Sandquist were married at the United Lutheran Church in Oak Park, Illinois, on July 25th.

The newlyweds spent their honeymoon in Canada and will reside on Chicago's north-west side.

Our congratulations and best wishes for your future happiness NANCY and Paul.
