These are the 77 students listed in the Diploma. In the Newcosean were listed:

Therman Nay
James Hillegas
Raymond Patterson

Paul Brawley is listed on the Diploma but not in the Newcosean. These four people are all deceased and so listed on this side. I tried to copy the names as listed but made a few typos and you will see the middle Initial added.

Thought I would list them all alphabetically except these last three not on Diploma. Anabel might know more as she used to contact them for the reunions. I only listed those I could document.
